

**RESIDENCY TRAINING PROGRAM REGISTRATION
2018-2019
ONCOLOGY**

Part One

New applications for ACVIM Residency Training Programs must be received by the Residency Training Committee 90 days prior to any residents beginning training. Before completing this form, please review the general and specific requirements for Oncology Residency Training Programs in the ACVIM Certification Manual (CM). The most current version of the CM is available on the ACVIM website at www.ACVIM.org. If there is a discrepancy between this form and the CM, the CM will be considered correct, however, please contact the ACVIM office or the Residency Training Committee Chairperson for clarification.

Prior to making significant changes in a Residency Training Program, approval of the ACVIM and Oncology Residency Training Committee must be obtained. The Candidate and/or Program Director must notify ACVIM, in writing. Significant changes could include, but are not limited to: changes in Program Director or any advisors, transferring from one program to another, alterations in program duration, locations of secondary site training, switching to a 'dual board' program, or enrolling in an institutional graduate program.

Notice: This form contains questions for three separate purposes; data collection that ACVIM must maintain for its accreditation as a specialty college; data collection for each specialty to evaluate what is appropriate for residency programs; and data collection to evaluate this Residency Training Program for renewal. It is important that all questions be answered accurately and completely, even if the answer to a specific question is not essential for a program's renewal.

For multi-site residency programs: To ensure uniformity of training and compliance with current CM requirements, training programs which include multiple sites must provide detailed information regarding supervision and facilities available at each specific site(s). Multi-site programs, if any, are listed in Part Two.

Program Director Name:

(Must be a Diplomate of ACVIM in the Specialty of Oncology)

Program Director's Contact Information:

| | |
|------------------|--|
| Work Phone: | (515) 294-4900 |
| E-mail: | musser.meg@gmail.com |
| Mailing Address: | College of Veterinary Medicine 1809 S Riverside Drive AMES, IA 50011 |

1. Location of Sponsoring Institution (Primary Site of Residency Training Program):

Primary Site:

Multi-site programs, if any, are listed in Part Two.

2. Resident Advisor(s): Must be ACVIM Diplomate(s) in Oncology. There is no restriction on the number of Resident Advisors; however, **each Resident Advisor can supervise only two residents concurrently.**

[Chad Johannes](#)

3. Please list all Supervising Diplomates in Oncology: **There must be a minimum of two (2) ACVIM Oncology Diplomates per institution.**

[Chad M. Johannes - Oncology & SAIM](#)

[Shawna Green - Oncology](#)

4. Please list all Diplomates of the American College of Veterinary Internal Medicine responsible for supervision of clinical training who specialize in areas other than Oncology.

[None Listed](#)

5. Please list all the residents currently enrolled in the training program, along with the beginning date of the program, expected ending date of the program, and designated resident advisor.

Resident Name, Dates of Program (Resident Advisor)*

[Erika Berger 8.15.2017 - 8.14.2020 \(Chad Johannes\)](#)

*** There is no restriction on the number of Resident Advisors; however, each Resident Advisor can supervise only two residents concurrently.**

Please note, any Candidate that significantly changes or alters their Residency Training Program before completion must notify ACVIM, in writing, before the changes are made to ensure that the proposed changes are approved.

Significant changes could include, but are not limited to:

- transferring from one program to another
- alterations in program duration
- switching to a 'dual board' program
- enrolling in an institutional graduate program
- change of Program Director or Resident Advisor

**RESIDENCY TRAINING PROGRAM REGISTRATION
2018-2019
ONCOLOGY**

Part Two

Part Two of the Oncology Residency Training renewal process addresses general features of the program that apply to all current residents. These questions will be used to provide the Oncology Residency Training/Credentials Committee with information needed to judge the structure, quality, scope, and consistency of training provided.

Current Date:

Program Director Name:

(Must be a Diplomate of ACVIM in the Specialty of Oncology)

Name of Sponsoring Institution (Residency Training Program):

1. For residency programs with off-site rotations (required rotations not available at the primary institution/site): To ensure uniformity of training and compliance with current Certification Manual (CM) requirements, training programs that include off-site rotations must provide detailed information regarding supervision and facilities available at each specific site(s).

Outside Rotation(s) (if applicable): Please attach signed Letters of Support from all individuals providing off-site training of oncology residents to this registration form. Each Letter of Support should specify the number of weeks scheduled at each site and the rotation requirement met. **Letters of Support must be submitted annually WITH program renewal forms and WITH each new program request.**

In the box provided below, list the outside rotations for which you are attaching Letters of Support. Please include in the space below the specific information regarding the number of weeks scheduled at each site and which rotation requirements shall be met at each site:

Radiation Oncology at North Carolina State University with Dr. Michael Nolan: 8 weeks over the course of three years. Will meet the required weeks of direct radiation therapy case supervision.

2. Type of Training Program:

| | |
|--|-------------------------------------|
| Traditional 3 years | <input checked="" type="checkbox"/> |
| Non-traditional (# years) | |
| For non-traditional programs, please provide details. Note that programs must be at least 3 years (156 weeks) in length. | |

3. Advanced Degree:

| | Yes | No | Optional |
|----------|--------------------------|-------------------------------------|--------------------------|
| Masters: | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| PhD: | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> |

Required for residency certificate: Yes No

Comments:

4. ONCOLOGY DIPLOMATES (CM 8.G.4)

There must be a **minimum of two (2) ACVIM Oncology Diplomates** at the primary training site of the residency for an Oncology RTP to be approved or to maintain approval. Please list the ACVIM Oncology Diplomates and their site of activity.

| Name of Oncology Diplomates | Location |
|---|---|
| Chad Johannes Margaret Musser Shawna Greene | Iowa State University Iowa State Univeristy Iowa Veterinary Specialties |

5. SUPPORTING DISCIPLINES REQUIRED

There must be an **ACVIM SAIM Diplomate** with $\geq 50\%$ FTE at the primary training site of the residency for an Oncology RTP to be approved or to maintain approval (CM 8.U.3).

Please list the ACVIM SAIM Diplomate(s) who will fulfill this requirement for the RTP.

| Name of SAIM Diplomate(s) | Location |
|---|--|
| Jean-Sebastien Palerme Laura Van Vertloo | Iowa State University Iowa State University |

There must be an **ACVS Surgery Diplomate** with $\geq 50\%$ FTE at the primary training site of the residency for an Oncology RTP to be approved or to maintain approval (CM 8.U.3).

Please list the ACVIM SAIM Diplomate(s) who will fulfill this requirement for the RTP.

| Name of ACVS Diplomate(s) | Location |
|----------------------------------|--|
| Eric Zellner Louisa Ho-Eckart | Iowa State University Iowa State University |

6. CLINICAL TRAINING IN OTHER SPECIALTIES: REQUIRED AFFILIATED ROTATIONS (CM 8.M)

Because oncology is a multimodal discipline, the resident must also have clinical training under the direct supervision of Supervising Diplomates in other disciplines. This contact may occur at a secondary training site.

A minimum of 32 weeks must be spent actively receiving patients in affiliated rotations or meeting requirements through rounds. For each off-site rotation included in the 32 weeks of clinical training in other specialties, the resident should obtain written approval from their Resident Advisor, who will forward documentation of this approval to the RTCC.

6a. RADIATION ONCOLOGY REQUIREMENTS (CM 8.M.1):

At least **eight weeks** of direct supervision is required with a veterinary radiation oncologist to develop an understanding of clinical management of patients receiving radiation therapy, radiation planning, dosimetry and physics related to clinical radiation therapy.

Please list all **Diplomates of the American College of Veterinary Radiology responsible for training in Radiation Oncology**. Describe how Diplomates are involved in the supervision of residents and direct contact radiation oncology training will be fulfilled. Radiation oncology rotations must be completed in blocks of at least two consecutive weeks in length.

| Name of Diplomate(s) | Site | Role in training residents |
|----------------------|---------------------------------|---|
| Michael Nolan | North Carolina State University | Direct supervision of off-site training for radiation oncology in two-week blocks. Direct case supervision, daily case rounds, and teaching rounds are completed and supervised by Dr. Nolan. |

6b. PATHOLOGY REQUIREMENTS (8.M.1):

At least **two weeks** (may be met through weekly/biweekly rounds) of direct supervision with a **clinical pathologist** are required.

Please list all **Diplomates of the American College of Veterinary Pathology** in clinical pathology associated with residency training. Describe how Diplomates are involved in the supervision of residents and how direct contact requirements (must be in person, not videoconference) in clinical pathology will be met.

| Name of Diplomate(s) | Site | Role in training residents |
|---|---|--|
| Austin Viall Heather Flaherty Shannon Hostetter | Iowa State University Iowa State University Iowa State University | Direct supervision of residents on two week clinical pathology rotations. Weekly pathology rounds (combined with histopathology) are also completed. |

At least **two weeks** (may be met through weekly/biweekly rounds) of direct supervision with an **anatomic (surgical) pathologist** are required.

Please list all **Diplomates of the American College of Veterinary Pathology** in anatomic (surgical) pathology associated with residency training. Describe how Diplomates are involved in the supervision of residents and how direct contact requirements (must be in person, not videoconference) in anatomic pathology will be met.

| Name of Diplomate(s) | Site | Role in training residents |
|---|-----------------------|--|
| Joseph Haynes Jesse Hostetter Jodi Smith Amanda Fales-Williams Michael Yaeger | Iowa State University | Weekly (Thursdays) anatomic pathology rounds are attended by the oncology resident(s) and directly supervised by all pathologists. Once monthly, radiology/pathology combined rounds are held and supervised by boarded pathologists and radiologists. These are also attended by the oncology diplomate on clinics. |

6c. DIAGNOSTIC IMAGING REQUIREMENTS (8.M.1):

At least **two consecutive weeks** of **diagnostic imaging** under direct supervision by a board-certified radiologist are required in addition to any interactions during case rounds.

Please list all **Diplomates of the American College of Veterinary Radiology (not including radiation oncology)** associated with residency training. Describe how Diplomates are involved in the supervision of residents and how direct contact requirements (must be in person, not videoconference) in radiology will be met.

| Name of Diplomate(s) | Site | Role in training residents |
|--------------------------------------|--|---|
| Kristina Miles Elizabeth Riedesel | Iowa State University Iowa State University | Direct supervision of oncology resident(s) while on two week diagnostic imaging rotations. Direct case supervision, daily case rounds, and teaching rounds are completed. |

6d. SMALL ANIMAL INTERNAL MEDICINE REQUIREMENTS (8.M.1):

At least **four weeks** (completed in at least two consecutive week blocks) of training under the direct supervision by an ACVIM Small Animal Internal Medicine (SAIM) Diplomate are required.

Please list all **Diplomates of the American College of Veterinary Internal Medicine (including those listed above)** involved in the supervision of residents and how direct contact requirements will be met.

| Name of Diplomate(s) | Site | Role in training residents |
|--|---|--|
| Leslie Fox Albert Jergens Chad Johannes Dana LeVine James Noxon Jean-Sebastien Palerme Laura Van Vertloo | Iowa State University Iowa State University Iowa State University Iowa State University Iowa State University Iowa State University Iowa State University | Direct supervision while the oncology resident(s) are on two week rotations with the internal medicine service. Direct case supervision, daily case rounds, and teaching rounds are completed. |

6e. OTHER REQUIRED ROTATIONS (8.M.2):

Fourteen weeks of other rotations with an ACVIM Diplomate in the Specialty of Oncology, or training under the supervision of a member of an American Board of Veterinary Specialties (ABVS) or European Board of Veterinary Specialisation (EBVS) approved specialty (such as, but not limited to, the American College of Veterinary Radiology, the American College of Veterinary Radiology (Radiation Oncology), European College of Veterinary Neurology, the American College of Veterinary Pathology, ACVS, or ACVECC). Rotations must be completed in at least two consecutive week blocks (unless otherwise specified in the CM.)

Please list the **non-ACVIM Diplomates** available for consultation in these areas. Describe how Diplomates are involved in the supervision of residents and their contribution to direct contact requirements in affiliated specialties.

| Name of Diplomates | Specialty/College | Site | Role in training residents |
|--|--------------------------------------|-----------------------|--|
| April Blong Rebecca Walton | ACVECC ACVECC | Iowa State University | All diplomates participate in direct supervision of oncology resident(s) that elect to rotate through their clinics as part of their training program. This includes case supervision, daily case rounds, and teaching rounds. |
| Rachel Allbaugh Gil Ben-Shlomo | ACVO ACVO/ECVO | Iowa State University | |
| Cheryl Hedlund Louisa Ho-Eckart Eric Zellner Kral Kraus William Hoefle | ACVS ACVS ACVS ACVS ACVS | Iowa State University | |
| Darren Berger | ACVD | Iowa State University | |
| Brenda Mulherin | AVDC | Iowa State University | |
| Bonnie Hay Kraus | DACVS, DACVAA | Iowa State University | |
| Karin Allenspach | DECVIM-CA | Iowa State University | |

7. FORMAL STRUCTURED RESEARCH (CM 8.O):

The resident is expected to actively participate in a laboratory or clinical investigative research project during the residency. A minimum of **eight weeks** (320 hours) of an oncology residency should be dedicated to this aspect of training. Research time should be scheduled as either weekly time (hours per week) or in blocks of time sufficient to complete the research, perform data analysis and prepare a manuscript for publication by the third year of their residency (see Recommended Milestones in CM 8.G 6-8). This experience must be documented, with dates, and signed by the Supervising Diplomate.

Please explain how your residency program complies with the research guidelines outlined above.

During the oncology residency at ISU, our residents are expected to start a clinical research project in the first year. These projects are structured such that data accural and analysis can be completed by the middle of the second year, allowing for ample time to write and submit a manuscript by the third year of the residency.

For Board-certification in oncology, the resident must have a minimum of one major first author publication in the field of oncology published or accepted for publication in a refereed scientific or peer-reviewed journal. A literature review or case report is not acceptable. Please describe how this program supports this requirement for publication. (See CM 8.F.5)

Along with the expected clinical study that is resident driven, the oncology department as a whole has multiple on-going projects that residents have the opportunity to participate in. This allows for multiple opportunities for writing first-author papers.

8. JOURNAL CLUB (CM 8.P):

An organized and routinely scheduled journal club of at least 80 hours over the course of the RTP must be an integral part of all oncology resident training. Journal Club must be attended and supervised by a Supervising Diplomate. The RTP application requires a schedule of proposed Journal Club for Oncology RTCC approval.

Please explain how your residency program complies with the journal club guidelines outlined above, and include a schedule for this requirement, including number of proposed meetings and duration of each meeting.

We participate in oncology journal club once weekly, every Wednesday morning from 7am to 8am. This is required and is supervised by either Dr. Johannes, Dr. Musser, or most frequently, both. A minimum of three, up to a maximum of six, pertinent, recent journal articles are discussed and critiqued. Written summaries of each article are completed by those participating and distributed to the group. One multiple choice question in ACVIM-boards format is required to be written by the person reviewing the article and answered by those in attendance.

9. SEMINAR OR LECTURE SERIES AND FORMAL CONFERENCES (CM 8.Q, 8.R):

Residents must attend formal teaching conferences in oncology and related disciplines throughout the residency. Unless these are formal lectures or classes, an Oncology Supervising Diplomate supervises the conferences, which should occur an average of **four times per month**. Examples of these are clinical pathology conferences, resident seminars, grand rounds sessions, and tumor biology classes. Conferences given within a veterinary practice or hospital or at a medical school or medical teaching hospital are acceptable.

Please include the format and schedule of these conferences and presentations, which directly pertain to training in Oncology and give specific details given on a daily, weekly or monthly basis.

All residents at ISU must give a resident/grand rounds seminar. These take place weekly every Thursday morning from 8am to 9am and are required for oncology residents. The oncology diplomate on service also attends these rounds with the residents to facilitate further discussion.

The resident must give a formal presentation at such a conference at least once per year. Documentation of these presentations must be included in the oncology credentials packet of the resident.

Please list all opportunities offered to and/or required of the resident for attendance and/or giving formal presentations at local, regional, state or national meetings. Indicate whether the resident will attend or present at these meetings (CM 8.Q).

The oncology resident(s) are required to give one hour-long grand-rounds presentation each year of the residency. In addition, they are required to give one 20-minute case-presentation a year. These presentations are critiqued by all faculty, residents, and interns in attendance, and written feedback is provided. The resident(s) have opportunities and are encouraged to speak at local meetings of the Iowa State Veterinary Medical Association, and are encouraged to speak at the Veterinary Cancer Society Meeting or the ACVIM Forum.

Residents must attend at least one state, regional, national, or international veterinary or human medical continuing education conference during their residency. Please list opportunities offered to and/or required of the resident for attendance

The resident is required to attend at least one conference, preferably the Veterinary Cancer Society meeting in the fall. They are encouraged to attend yearly, and financial support is obtained when possible to help offset the costs. Attendance at ACVIM is also encouraged, but not required. Attendance and participation at local events such as the Iowa State Veterinary Medical Association meetings (held twice yearly) and local CE events hosted by the college is encouraged and supported.

10. FORMAL EXAMINATION REVIEW SESSIONS (CM 8.S):

An oncology RTP must provide at least 40 hours per year of intensive formal review sessions for residents/candidates on topics covered in the general and specialty examinations. Attending daily clinical rounds does not meet this requirement. The requirement could be met in part by attending an ACVIM advanced continuing education (ACE) course, by attending an ACVIM Forum, or formal resident review sessions at a Veterinary Cancer Society Annual Meeting. Please provide an anticipated schedule of these formal reviews below. Annual documentation will be required.

The residents are required to attend the formal resident review sessions at the Veterinary Cancer Society Annual meeting for each year that they attend the meeting. They are encouraged to attend at least once ACVIM Forum during their residency. For more consistent training, they are required to attend internal medicine journal club (held on Monday mornings at 8 am) and internal medicine book club (covering the readings required for the general examination held, Friday mornings at 9 am). Oncology specific book club, reviewing Tannock and Hill, Chabner, Weinberg, ect, is held every-other Tuesday morning at 8am.

In the spring semester, an advanced medicine course is required for the internal medicine and oncology resident(s) every Friday morning from 8-9 am. This covers in-depth, pertinent topics within the discipline of internal medicine.

SUMMARY OF REVIEW SESSIONS

- Every Monday 8-9am: Internal Medicine Journal Club
- Every-other Tuesday 8-9am: Oncology Book Club
- Every Wednesday 7-8am: Oncology Journal Club
- Every-other-Wednesday 3-4pm: Emergency and Critical Care Rounds for Residents
- Every Thursday 8-9am: House Officer Grand Rounds
- Every Thursday 12-1pm: Histopathology Rounds
- Every Friday 9-10am: Medicine Book Club
- Once Monthly on the Second Tuesday 8-9am: Morbidity and Mortality Rounds for all House Officers
- Once Monthly on the Fourth Tuesday 8-9am: Radiology-Pathology Combined Rounds
- Once Monthly on the last Friday of the month 12-1 pm: Work in Progress Research Seminar given by faculty

11. PAST RESIDENTS:

Please list the residents who have completed this described training program **within the last five years**, including the year that each individual’s training program ended. If possible, please indicate whether the individual has completed the Board- certification process. Do not include residents whose program was other than the one described here.

| Name(s) | Program End Date (mm/dd/yyyy) | Diplomate (Yes or No) |
|---------|-------------------------------|-----------------------|
| N/A | | |

12. CURRENT RESIDENTS:

Please list all residents **currently enrolled in this described training program** in addition to their actual program start and end dates. Each Resident Advisor can supervise only two residents at a time.

| Resident Name(s) (first/last) | Length of Program (in years) | Program Start Date (mm/dd/yyyy) | Program End Date (mm/dd/yyyy) | Resident Advisor Name (first/last) | For RAs: Checking this box is an indication I have read the ACVIM Certification Manual and understand my role in residency training (mandatory per CM 4.F.3.c) |
|-------------------------------|------------------------------|---------------------------------|-------------------------------|------------------------------------|--|
| Erika Berger | 3 | 08/5/2017 | 08/15/2020 | Chad Johannes | Check |

While it may have no bearing on your program, the supervising Diplomate(s) and the resident are required to review the Certification Manual yearly. You may obtain a copy of the Certification Manual from the ACVIM website at www.ACVIM.org.

13. Have all supervising Diplomate(s) read the objectives for an oncology residency as outlined in the Certification Manual, Specialty of Oncology?

Yes No

If no, please explain:

14. The RA and PD should periodically evaluate the resident (required minimum of once every 6 months) and discuss the results of those evaluations with the resident. Either the RA or PD (or both) must be able to provide the Residency Training Committee with written summaries of those evaluations, if requested. Additionally, the RA must complete the standardized Resident Evaluation Form annually and provide RTCC with copies, if requested.

Does your program comply with these standards of resident evaluation?

Yes No

If no, please explain:

15. Please indicate the availability of the following facilities or equipment. Indicate if these are available at the primary training site, or at a different location. (In the Location column, indicate on-site for primary location or the name of the facility where the equipment is located if off-site.) For facilities that are not on-site or not available, please describe the situation, availability, or how the resident will gain experience with equipment not available in the space at the end of this section.

| | Available? (Y or N) | Location of equipment? (On-site or list site name) |
|---|------------------------|---|
| a) Radiography | Y | On-site |
| b) 24 hour emergency and critical care facility | Y | On-site |
| b) Ultrasonographic equipment | Y | On-site |
| c) Color flow/Doppler equipment | Y | On-site |
| d) Endoscopy equipment | Y | On-site |
| GI equipment | Y | On-site |
| Bronchoscopy | Y | On-site |
| Cystoscopy | Y | On-site |
| Rhinoscopy | Y | On-site |
| Laparoscopy | Y | On-site |
| e) Clinical Pathology capabilities: (includes CBC, serum chemistries, blood gases, urinalysis, Cytology, parasitology, microbiology, and endocrinology) | Y | On-site |
| f) Appropriate safety equipment for handling chemotherapy (briefly summarize what is available in the column Location of Equipment). | Y | Clean room with hood for safely drawing up chemotherapy; Equishield closed system; PPE including goggles, face shields, chemotherapy specific gloves, and eye goggles/glasses; a room specifically for administering chemotherapy is present in the oncology suite. |
| g) Nuclear Medicine | Y | On-site |
| h) Computed Tomography | Y | On-site |
| i) Magnetic Resonance Imaging | Y | On-site |
| j) Radiation Therapy Facility | Y | North Carolina State University; On-site anticipated Summer 2018 |

| | | |
|--|---|---------|
| k) Intensive Care Facility – 24 hours | Y | On-site |
| l) Total parenteral nutrition capability | Y | On-site |
| m) Computerized Medical Records w/Searching Capabilities | Y | On-site |

If any of the above equipment or facilities are available off-site, please explain how the resident can access them for case management, research, or study.

Working closely with Dr. Michael Nolan at NC State and visiting for direct supervision will allow for case management and research.

16. The resident should have access to a human or veterinary medical library with on-line searching capacity and at a minimum have access to all textbooks (current editions) and full text access to all journals on the current examination committee reading list (**See item 21. to be completed by Program Director. Note that on-line access to texts must be full-text not abstracts only**). This library should be available on-site or within a reasonable commuting distance (defined as within a 15 mile radius of the primary training site).

Please indicate how your resident can obtain access to the following textbooks/journals.

| Text or Journal | Hard Copy or Subscription Available on site, or Medical/Veterinary Library <i>(insert name)</i> | Available Electronically (CD-ROM or Online Subscription) | Available Through pub-med only (free or will purchase articles) | Not Available |

Comments:

Please note, any Program Director or Candidate that significantly changes or alters this Residency Training Program before completion must notify ACVIM, in writing, before the changes are made to ensure that the proposed changes are approved.

Significant changes could include, but are not limited to:

- transferring from one program to another
- alterations in program duration
- switching to a 'dual board' program
- enrolling in an institutional graduate program
- change of Program Director or Resident Advisor

As Program Director, I verify that the above information is an accurate reflection of this Residency Training Program.

Per the Certification Manual, each year, the Program Director must certify to the RTC/ RTCC and ACVIM, in writing, that they have read the ACVIM Certification Manual and understands their role in residency training.

Checking this box is an indication I have read the ACVIM Certification Manual and understand my role in Residency Training Program.
