

Part One

New applications for ACVIM Residency Training Programs must be received by the Residency Training Committee 90 days prior to any residents beginning training. Before completing this form, please review the general and specific requirements for Oncology Residency Training Programs in the ACVIM Certification Manual (CM). The most current version of the CM is available on the ACVIM website at www.ACVIM.org. If there is a discrepancy between this form and the CM, the CM will be considered correct, however, please contact the ACVIM office or the Residency Training Committee Chairperson for clarification.

Prior to making significant changes in a Residency Training Program, approval of the ACVIM and Oncology Residency Training Committee must be obtained. The Candidate and/or Program Director must notify ACVIM, in writing. Significant changes could include, but are not limited to: changes in Program Director or any advisors, transferring from one program to another, alterations in program duration, locations of secondary site training, switching to a 'dual board' program, or enrolling in an institutional graduate program.

Notice: This form contains questions for three separate purposes; data collection that ACVIM must maintain for its accreditation as a specialty college; data collection for each specialty to evaluate what is appropriate for residency programs; and data collection to evaluate this Residency Training Program for renewal. It is important that all questions be answered accurately and completely, even if the answer to a specific question is not essential for a program's renewal.

For multi-site residency programs: To ensure uniformity of training and compliance with current CM requirements, training programs which include multiple sites must provide detailed information regarding supervision and facilities available at each specific site(s). Multi-site programs, if any, are listed in Part Two.

Program Director Name:

(Must be a Diplomate of ACVIM in the Specialty of Oncology)

Program Director's Contact Information:

Work Phone:	+44 1707666366
E-mail:	ajtaylor@rvc.ac.uk
Mailing Address:	Veterinary Clinical Sciences Hawkshead Ln., North Mymms Hatfield HE AL97TA United Kingdom

1. Location of Sponsoring Institution (Primary Site of Residency Training Program):

Primary Site:

Multi-site programs, if any, are listed in Part Two.

2. Resident Advisor(s): Must be ACVIM Diplomate(s) in Oncology. There is no restriction on the number of Resident Advisors; however, **each Resident Advisor can supervise only two residents concurrently.**

Charlotte Johnson Angela Taylor

3. Please list all Supervising Diplomates in Oncology: **There must be a minimum of two (2) ACVIM Oncology Diplomates per institution.**

Angela Taylor - Oncology
Charlotte Johnson - Oncology

4. Please list all Diplomates of the American College of Veterinary Internal Medicine responsible for supervision of clinical training who specialize in areas other than Oncology.

Richard Piercy - LAIM
Harriet Syme - SAIM
Virginia Luis Fuentes - Cardiology
Adrian Boswood - ECVIM-CA
Bettina Dunkel - LAIM
Alexandra McSloy - LAIM
Stijn Niessen - SAIM
Rosanne Jepson - SAIM
Holger Volk - Neurology
David Connolly - ECVIM-CA
Ruth Gostelow - SAIM
Yaiza Forcada - ECVIM
Barbara Glanemann - SAIM
Steven De Decker - ECVN
Elsa Belstran - ECVN
Sarah Stewart - SAIM

5. Please list all the residents currently enrolled in the training program, along with the beginning date of the program, expected ending date of the program, and designated resident advisor.

Resident Name, Dates of Program (Resident Advisor)*

Ignacio Rodriquez 7.1.15 - 6.30.18 (Angela Taylor) Katarzyna Purzycka 10.3.2016 - 9.30.2019 (Angela Taylor)

*** There is no restriction on the number of Resident Advisors; however, each Resident Advisor can supervise only two residents concurrently.**

Please note, any Candidate that significantly changes or alters their Residency Training Program before completion must notify ACVIM, in writing, before the changes are made to ensure that the proposed changes are approved.

Significant changes could include, but are not limited to:

- transferring from one program to another
- alterations in program duration
- switching to a 'dual board' program
- enrolling in an institutional graduate program
- change of Program Director or Resident Advisor

**RESIDENCY TRAINING PROGRAM REGISTRATION
2018-2019
ONCOLOGY**

Part Two

Part Two of the Oncology Residency Training renewal process addresses general features of the program that apply to all current residents. These questions will be used to provide the Oncology Residency Training/Credentials Committee with information needed to judge the structure, quality, scope, and consistency of training provided.

Current Date:

Program Director Name:

(Must be a Diplomate of ACVIM in the Specialty of Oncology)

Name of Sponsoring Institution (Residency Training Program):

1. For residency programs with off-site rotations (required rotations not available at the primary institution/site): To ensure uniformity of training and compliance with current Certification Manual (CM) requirements, training programs that include off-site rotations must provide detailed information regarding supervision and facilities available at each specific site(s).

Outside Rotation(s) (if applicable): Please attach signed Letters of Support from all individuals providing off-site training of oncology residents to this registration form. Each Letter of Support should specify the number of weeks scheduled at each site and the rotation requirement met. **Letters of Support must be submitted annually WITH program renewal forms and WITH each new program request.**

In the box provided below, list the outside rotations for which you are attaching Letters of Support. Please include in the space below the specific information regarding the number of weeks scheduled at each site and which rotation requirements shall be met at each site:

Radiation oncology, 8 weeks

Oncovet
Avenue Paul Langevin
59650 – Villeneuve d'Ascq
France
Jerome Benoit ACVR

RVC residents will perform the mandatory 8 weeks of rotations in radiation oncology at the institution listed above. Some residents may elect to fulfill their radiation therapy requirement at other centers, in which case a letter stating weeks spent and activities will be provided directly to the resident by the supervisor at that site.

2. Type of Training Program:

Traditional 3 years	<input checked="" type="checkbox"/>
Non-traditional (# years)	
For non-traditional programs,	

please provide details. Note that programs must be at least 3 years (156 weeks) in length.

3. Advanced Degree:

	Yes	No	Optional
Masters:	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
PhD:	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Required for residency certificate: Yes No

Comments: Master's program enrollment during residency is required at this institution. PhD degrees are offered by the RVC but would not be considered to be part of the residency program.

As far as possible, work that is required for the MVetMed (for example the research project) will also fulfill the requirements of the ACVIM training program without extensive amount of work. The core modules (A modules) generally occur on Wed mornings from 9-10am and first-year residents' attendance is required at these sessions. The timing of the non-compulsory (B) modules is more variable; some are day or weekend courses, some are held on a series of afternoon/evening sessions. The remainder of the work for the Masters, the research project and its write-up, should be completed during the residents' off-clinics/research blocks.

In total residents have to complete a minimum of 10 modules, although they can choose to do more and select the grades from their best modules. Taken together the A and B modules account for 50% of the overall mark for the MVetMed. The other 50% of the marks are obtained from the research project and it is envisaged that this would also fulfill the publication requirements for the residents' board certification. A case report/case series is not suitable unless there is a pre-defined testable hypothesis. After the first year the residents are required to submit an abstract outlining their proposed research project for assessment at the time of the first annual appraisal. After the second year residents are required to defend an abstract presented as a poster at an internal research day. In the third year the completed paper, or the research project written up in a format suitable for publication needs to be submitted. There is then a synoptic oral defense (viva) exam.

4. ONCOLOGY DIPLOMATES (CM 8.G.4)

There must be a **minimum of two (2) ACVIM Oncology Diplomates** at the primary training site of the residency for an Oncology RTP to be approved or to maintain approval. Please list the ACVIM Oncology Diplomates and their site of activity.

Name of Oncology Diplomates	Location
Angela Taylor	Royal Veterinary College
Charlotte A. Johnston	Royal Veterinary College

5. SUPPORTING DISCIPLINES REQUIRED

There must be an **ACVIM SAIM Diplomate** with $\geq 50\%$ FTE at the primary training site of the residency for an Oncology RTP to be approved or to maintain approval (CM 8.U.3).

Please list the ACVIM SAIM Diplomate(s) who will fulfill this requirement for the RTP.

Name of SAIM Diplomate(s)	Location
Harriet Syme ACVIM & ECVIM Rosanne Jepson ACVIM & ECVIM Stijn Niessen ECVIM	Leaving March 2018

Barbara Glanemann ECVIM Yaiza Forcada ECVIM Ruth Gostelow ECVIM Sarah Stewart ACVIM	Leaving March 2018
----------------------------------------------------------------------------------------------	--------------------

There must be an **ACVS Surgery Diplomate** with $\geq 50\%$ FTE at the primary training site of the residency for an Oncology RTP to be approved or to maintain approval (CM 8.U.3).

Please list the ACVIM SAIM Diplomate(s) who will fulfill this requirement for the RTP.

Name of ACVS Diplomate(s)	Location
Dan Brockman DipACVS Dr. Sue Gregory RCVS DSA Surgery & (DVR) Radiology Victoria Lipscomb DipECVS Jane Tomlin Dip ECVS Zoe Halfacree DipACVS Dr. Karla Lee DipECVS Pilar Lauente DipECVS Richard Meeson DipECVS Elvin Kulendra DipECVS Nicola Kulendra DipECVS Ignacio Calvo DipECVS Lynda Rutherford DipECVS David Sajik DipECVS	Not providing clinical service

6. CLINICAL TRAINING IN OTHER SPECIALTIES: REQUIRED AFFILIATED ROTATIONS (CM 8.M)

Because oncology is a multimodal discipline, the resident must also have clinical training under the direct supervision of Supervising Diplomates in other disciplines. This contact may occur at a secondary training site.

A minimum of 32 weeks must be spent actively receiving patients in affiliated rotations or meeting requirements through rounds. For each off-site rotation included in the 32 weeks of clinical training in other specialties, the resident should obtain written approval from their Resident Advisor, who will forward documentation of this approval to the RTCC.

6a. RADIATION ONCOLOGY REQUIREMENTS (CM 8.M.1):

At least **eight weeks** of direct supervision is required with a veterinary radiation oncologist to develop an understanding of clinical management of patients receiving radiation therapy, radiation planning, dosimetry and physics related to clinical radiation therapy.

Please list all **Diplomates of the American College of Veterinary Radiology responsible for training in Radiation Oncology**. Describe how Diplomates are involved in the supervision of residents and direct contact radiation oncology training will be fulfilled. Radiation oncology rotations must be completed in blocks of at least two consecutive weeks in length.

Name of Diplomate(s)	Site	Role in training residents
Randi Drees DACVR (Radiology, Radiation Oncology) DipECVDI	Royal Veterinary College	Dr Drees provides imaging and radiation therapy advice to the residents on their cases on a regular basis. She is also available to discuss radiation planning dosimetry and physics related to radiation therapy on site as needed.
Jerome Benoit ACVR-RO	OncoVet, France	Dr Benoit has agreed to train RVC residents for their total amount of radiation rotation weeks required (8). Availability of this center assures the RT training completion required over a 3 year period. Oncovet has state of the art facilities including a 6 MV linear accelerator (Linac), brachytherapy, and iodine therapy, as well as

		a high caseload.
--	--	------------------

6b. PATHOLOGY REQUIREMENTS (8.M.1):

At least **two weeks** (may be met through weekly/biweekly rounds) of direct supervision with a **clinical pathologist** are required.

Please list all **Diplomates of the American College of Veterinary Pathology** in clinical pathology associated with residency training. Describe how Diplomates are involved in the supervision of residents and how direct contact requirements (must be in person, not videoconference) in clinical pathology will be met.

Name of Diplomat(e)s	Site	Role in training residents
Balazs Szladovitz DipACVCP Laureen Peters ACVCP Emma Holmes DipACVP	Royal Veterinary College (all)	In person case discussions and/or cytology or histopathology slide reviews on a nearly daily basis while on clinics; similar role during rotations through these services as required per guidelines; regular clinical/anatomical pathology rounds

At least **two weeks** (may be met through weekly/biweekly rounds) of direct supervision with an **anatomic (surgical) pathologist** are required.

Please list all **Diplomates of the American College of Veterinary Pathology** in anatomic (surgical) pathology associated with residency training. Describe how Diplomates are involved in the supervision of residents and how direct contact requirements (must be in person, not videoconference) in anatomic pathology will be met.

Name of Diplomat(e)s	Site	Role in training residents
Simon Priestnall DipACVP FRCPath Ken Smith FRCPath Norelene Harrington DipACVP Jonathan Williams DipECVP Eleanor Ross DipACVP Henny Martineau FRCPath	Royal Veterinary College (all)	In person, case discussions and/or cytology or histopathology slide reviews on a nearly daily basis while on clinics; similar role during rotations through these services as required per guidelines; regular clinical/anatomical pathology rounds

6c. DIAGNOSTIC IMAGING REQUIREMENTS (8.M.1):

At least **two consecutive weeks** of **diagnostic imaging** under direct supervision by a board-certified radiologist are required in addition to any interactions during case rounds.

Please list all Diplomates of the **American College of Veterinary Radiology (not including radiation oncology)** associated with residency training. Describe how Diplomates are involved in the supervision of residents and how direct contact requirements (must be in person, not videoconference) in radiology will be met.

Name of Diplomat(e)s	Site	Role in training residents
Randi Drees DACVR (Radiology, Radiation Oncology) DipECVDI Christopher R Lamb ACVR Mauro Pivetta Dip ECVDI Ella Fitzgerald*	Royal Veterinary College (all)	All diplomates are on site and available for discussion about clinical aspects of cases pertaining to their specialty on a daily basis (while on-clinics). *sitting specialty exam end Jan 2018

6d. SMALL ANIMAL INTERNAL MEDICINE REQUIREMENTS (8.M.1):

At least **four weeks** (completed in at least two consecutive week blocks) of training under the direct supervision by an ACVIM Small Animal Internal Medicine (SAIM) Diplomat are required.

Please list all **Diplomates of the American College of Veterinary Internal Medicine (including those listed above)** involved in the supervision of residents and how direct contact requirements will be met.

Name of Diplomat(e)s	Site	Role in training residents
Harriet Syme ACVIM & ECVIM Rosanne Jepson ACVIM & ECVIM Stijn Niessen ECVIM Barbara Glanemann ECVIM Yaiza Forcada ECVIM	Royal Veterinary College (all) Leaving March 2018 Leaving March 2018	Medicine specialists directly supervise and train the residents during their IM rotations. They are also frequently consulted in person regarding current oncology patients with any medicine-related queries.

Virginia Luis Fuentes ACVIM & ECVIM cardiology Adrian Boswood DipECVIM cardiology David Connolly DipECVIM cardiology	Cardiology		
Prof. Jonathan Elliott ECV Pharmacology and therapeutics	Pharmacology		
Prof. David Church MACVSc Anneliese Stell DSAM*	Medicine		
Prof Josh Slater Dip European College Equine Int Med (ECEIM) Dr. Nicola Menzies-Gow DipECEIM	Equine medicine	*RCVS diploma in medicine, but currently working in oncology (sitting boards 7/2018)	

7. FORMAL STRUCTURED RESEARCH (CM 8.O):

The resident is expected to actively participate in a laboratory or clinical investigative research project during the residency. A minimum of **eight weeks** (320 hours) of an oncology residency should be dedicated to this aspect of training. Research time should be scheduled as either weekly time (hours per week) or in blocks of time sufficient to complete the research, perform data analysis and prepare a manuscript for publication by the third year of their residency (see Recommended Milestones in CM 8.G 6-8). This experience must be documented, with dates, and signed by the Supervising Diplomate.

Please explain how your residency program complies with the research guidelines outlined above.

As far as possible, the research project that is required for the Master's program will also fulfill the requirements of the ACVIM training program without extensive amount of work. The work for the research project and its write-up, should be completed during the residents' research blocks (approximately 7 weeks the first year, 5 weeks each the following two years for total of 17 weeks).

After the first year the residents are required to submit an abstract outlining their proposed research project for assessment at the time of the first annual appraisal. After the second year residents are required to defend an abstract presented as a poster at an internal research day. In the third year the completed paper, or the research project written up in a format suitable for publication needs to be submitted. There is then a synoptic oral defense (viva) exam.

For Board-certification in oncology, the resident must have a minimum of one major first author publication in the field of oncology published or accepted for publication in a refereed scientific or peer-reviewed journal. A literature review or case report is not acceptable. Please describe how this program supports this requirement for publication. (See CM 8.F.5)

Residents are required to produce at least 1 publication to fulfill ACVIM and the MVetMed requirements, and must be an original piece of research and hypothesis-driven.

8. JOURNAL CLUB (CM 8.P):

An organized and routinely scheduled journal club of at least 80 hours over the course of the RTP must be an integral part of all oncology resident training. Journal Club must be attended and supervised by a Supervising Diplomate. The RTP application requires a schedule of proposed Journal Club for Oncology RTCC approval.

Please explain how your residency program complies with the journal club guidelines outlined above, and include a schedule for this requirement, including number of proposed meetings and duration of each meeting.

Weekly oncology Journal Club, Friday 8-9 am, from July to mid-April: articles published in peer reviewed

journals required for the oncology specialty exam will be selected, summarized and discussed by the residents (with attendance/supervision of the oncologists) to improve medical and basic oncology knowledge and train in interpretation of clinical data and in scientific design of studies/trials and statistic criticism. There is an exam each spring following approximately 40 hours of journal club (totaling 120 hours over the course of the RTP).

9. SEMINAR OR LECTURE SERIES AND FORMAL CONFERENCES (CM 8.Q, 8.R):

Residents must attend formal teaching conferences in oncology and related disciplines throughout the residency. Unless these are formal lectures or classes, an Oncology Supervising Diplomate supervises the conferences, which should occur an average of **four times per month**. Examples of these are clinical pathology conferences, resident seminars, grand rounds sessions, and tumor biology classes. Conferences given within a veterinary practice or hospital or at a medical school or medical teaching hospital are acceptable.

Please include includes the format and schedule of these conferences and presentations, which directly pertain to training in Oncology and give specific details given on a daily, weekly or monthly basis.

Grand rounds/resident seminar lectures occur each Friday morning as part of the Small Animal department seminar series. There are also oncology-specific (ie tumour-biology) university lectures that occur one Friday afternoon per month. This averages to 5 lectures per month.

The resident must give a formal presentation at such a conference at least once per year. Documentation of these presentations must be included in the oncology credentials packet of the resident.

Please list all opportunities offered to and/or required of the resident for attendance and/or giving formal presentations at local, regional, state or national meetings. Indicate whether the resident will attend or present at these meetings (CM 8.Q).

Two presentations per year are required as part of the resident seminar series to the small animal department each year. There is also an annual graduate school poster day in which the residents must participate and present their research project in their 3rd year. It is also hoped that the residents would present the results of their research (as a scientific abstract) at a national (BSAVA)/international (VCS/ESVONC/ECVIM) meeting at least once during their residency and they will be encouraged to perform further presentations if their clinical/research work allows it. Residents are encouraged to collaborate with their supervisors in providing CPD at a regional or national level. The third year residents will typically give 2-3 undergraduate lectures to veterinary students.

Residents must attend at least one state, regional, national, or international veterinary or human medical continuing education conference during their residency. Please list opportunities offered to and/or required of the resident for attendance

Residents are expected to attend an international veterinary cancer conference (VCS/ESVONC/ECVIM) and/or the ACVIM forum during their second and third year following exams. They receive £500 (~\$600) per year of departmental funding to support them to attend conferences, take their exams etc.

10. FORMAL EXAMINATION REVIEW SESSIONS (CM 8.S):

An oncology RTP must provide at least 40 hours per year of intensive formal review sessions for residents/candidates on topics covered in the general and specialty examinations. Attending daily clinical rounds does not meet this requirement. The requirement could be met in part by attending an ACVIM advanced continuing education (ACE) course, by attending an ACVIM Forum, or formal resident review sessions at a Veterinary Cancer Society Annual Meeting.

Please provide an anticipated schedule of these formal reviews below. Annual documentation will be required.

For general board exam review, there is a weekly review session on Mondays 7-8am (approximately 40 hours/year). Residents are also given time off to attend the ACVIM forums following each exam.

For specialty exam review, in addition to the journal club requirements (see above), there is weekly or bi-weekly oncology Book club, Thursdays 8-9am: The residents will be assigned to summarize and present to the chapters from veterinary and human oncology reference books from the reference book list for specialty boards. There is an exam at the end of each semester. This equates to 17-20 hourly sessions per half year (34-40 annually), or 102-120 hours over the course of the RTP. They are also given time off and encouraged to attend (and present) at oncology conferences.

11. PAST RESIDENTS:

Please list the residents who have completed this described training program **within the last five years**, including the year that each individual's training program ended. If possible, please indicate whether the individual has completed the Board- certification process. Do not include residents whose program was other than the one described here.

Name(s)	Program End Date (mm/dd/yyyy)	Diplomate (Yes or No)
Francesca Fabrizio	7/2012	Yes
Angela Taylor	7/2013	Yes
Isabelle Desmas	7/2014	Yes
Sofia Carvalho	7/2016	Yes
Owen Davies	1/2017	Yes
Stephanie Byrne	7/2017	No (sitting specialty board exam 7/2018)
Anneliese Stell	7/2017	No (sitting specialty board exam 7/2018)

12. CURRENT RESIDENTS:

Please list all residents **currently enrolled in this described training program** in addition to their actual program start and end dates. Each Resident Advisor can supervise only two residents at a time.

Resident Name(s) (first/last)	Length of Program (in years)	Program Start Date (mm/dd/yyyy)	Program End Date (mm/dd/yyyy)	Resident Advisor Name (first/last)	For RAs: Checking this box is an indication I have read the ACVIM Certification Manual and understand my role in residency <u>training</u> (mandatory per CM 4.F.3.c)
Ignacio Rodriguez	3	07/01/2015	6/30/2018	Angela Taylor	Angela Taylor
Katarzyna Purzycka	3	10/03/2016	9/30/2019	Angela Taylor	Angela Taylor

Comment [JL11]: There will need to be one check box for each resident advisor so I think this need to be reformatted. I've just included a suggested way to do so.

While it may have no bearing on your program, the supervising Diplomate(s) and the resident are required to review the Certification Manual yearly. You may obtain a copy of the Certification Manual from the ACVIM website at www.ACVIM.org.

13. Have all supervising Diplomate(s) read the objectives for an oncology residency as outlined in the Certification Manual, Specialty of Oncology?

Yes No

If no, please explain:

14. The RA and PD should periodically evaluate the resident (required minimum of once every 6 months) and discuss the results of those evaluations with the resident. Either the RA or PD (or both) must be able to provide the Residency Training Committee with written summaries of those evaluations, if requested. Additionally, the RA must complete the standardized Resident Evaluation Form annually and provide RTCC with copies, if requested.

Does your program comply with these standards of resident evaluation?

Yes No

If no, please explain:

--

15. Please indicate the availability of the following facilities or equipment. Indicate if these are available at the primary training site, or at a different location. (In the Location column, indicate on-site for primary location or the name of the facility where the equipment is located if off-site.) For facilities that are not on-site or not available, please describe the situation, availability, or how the resident will gain experience with equipment not available in the space at the end of this section.

	Available? (Y or N)	Location of equipment? (On-site or list site name)
a) Radiography	Y	ON SITE
b) 24 hour emergency and critical care facility	Y	ON SITE
b) Ultrasonographic equipment	Y	ON SITE
c) Color flow/Doppler equipment	Y	ON SITE
d) Endoscopy equipment	Y	ON SITE
GI equipment	Y	ON SITE
Bronchoscopy	Y	ON SITE
Cystoscopy	Y	ON SITE
Rhinoscopy	Y	ON SITE
Laparoscopy	Y	ON SITE
e) Clinical Pathology capabilities: (includes CBC, serum chemistries, blood gases, urinalysis, Cytology, parasitology, microbiology, and endocrinology)	Y	ON SITE
f) Appropriate safety equipment for handling chemotherapy (briefly summarize what is available in the column Location of Equipment).	Y	CLASS II SAFETY CABINET, PHASEAL SYSTEM, STANDARD OF PROCEDURES DOCUMENTS AVAILABLE FOR ALL CHEMOTHEAPY PROCEDURES AND EXTRAVASATION AND PPA
g) Nuclear Medicine	Y	ON SITE
h) Computed Tomography	Y	ON SITE
i) Magnetic Resonance Imaging	Y	ON SITE
j) Radiation Therapy Facility	Y	OFF SITE (ONCOVET IN FRANCE); SEE QUESTION 1. RADIOIODINE AVAILABLE ON SITE
k) Intensive Care Facility – 24 hours	Y	ON SITE
l) Total parenteral nutrition capability	Y	ON SITE (MADE UP OFF SITE)
m) Computerized Medical Records w/Searching Capabilities	Y	ON SITE

If any of the above equipment or facilities are available off-site, please explain how the resident can access them for case management, research, or study.

--

16. The resident should have access to a human or veterinary medical library with on-line searching capacity and at a minimum have access to all textbooks (current editions) and full text access to all journals on the current examination committee reading list (See item 21. to be completed by Program Director. Note that on-line access to texts must be full-text not abstracts only). This library should be available on-site or within a reasonable commuting distance (defined as within a 15 mile radius of the primary training site).

Please indicate how your resident can obtain access to the following textbooks/journals.

Comments: All journals are available at the RVC library in addition to on line subscriptions except for "Clinical Cancer Research", "Nature Reviews: Cancer", and "Cancer Chemotherapy and Pharmacology;" this, in addition to other journals not available electronically, are available through interlibrary request (University of London or British Library).

17. Is there any additional pertinent information that the Residency Training Committee should consider in its evaluation of this training program?

Yes No

<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	-------------------------------------

Comments:

Please note, any Program Director or Candidate that significantly changes or alters this Residency Training Program before completion must notify ACVIM, in writing, before the changes are made to ensure that the proposed changes are approved.

Significant changes could include, but are not limited to:

- transferring from one program to another
- alterations in program duration
- switching to a 'dual board' program

- enrolling in an institutional graduate program
- change of Program Director or Resident Advisor

As Program Director, I verify that the above information is an accurate reflection of this Residency Training Program.

Per the Certification Manual, each year, the Program Director must certify to the RTC/ RTCC and ACVIM, in writing, that they have read the ACVIM Certification Manual and understands their role in residency training.

Checking this box is an indication I have read the ACVIM Certification Manual and understand my role in Residency Training Program.
