

**Part One**

New applications for ACVIM Residency Training Programs must be received by the Residency Training Committee 90 days prior to any residents beginning training. Before completing this form, please review the general and specific requirements for Oncology Residency Training Programs in the ACVIM Certification Manual (CM). The most current version of the CM is available on the ACVIM website at [www.ACVIM.org](http://www.ACVIM.org). If there is a discrepancy between this form and the CM, the CM will be considered correct, however, please contact the ACVIM office or the Residency Training Committee Chairperson for clarification.

Prior to making significant changes in a Residency Training Program, approval of the ACVIM and Oncology Residency Training Committee must be obtained. The Candidate and/or Program Director must notify ACVIM, in writing. Significant changes could include, but are not limited to: changes in Program Director or any advisors, transferring from one program to another, alterations in program duration, locations of secondary site training, switching to a 'dual board' program, or enrolling in an institutional graduate program.

**Notice:** This form contains questions for three separate purposes; data collection that ACVIM must maintain for its accreditation as a specialty college; data collection for each specialty to evaluate what is appropriate for residency programs; and data collection to evaluate this Residency Training Program for renewal. It is important that all questions be answered accurately and completely, even if the answer to a specific question is not essential for a program's renewal.

**For multi-site residency programs:** To ensure uniformity of training and compliance with current CM requirements, training programs which include multiple sites must provide detailed information regarding supervision and facilities available at each specific site(s). Multi-site programs, if any, are listed in Part Two.

Program Director Name:

(Must be a Diplomate of ACVIM in the Specialty of Oncology)

Program Director's Contact Information:

Work Phone:	<a href="tel:(509)335-0711">(509) 335-0711</a>
E-mail:	<a href="mailto:jfidel@vetmed.wsu.edu">jfidel@vetmed.wsu.edu</a>
Mailing Address:	<a href="#">Veterinary Clinical Sciences, CVM</a> <a href="#">PO Box 7060</a> <a href="#">Pullman, WA 99164</a>

1. Location of Sponsoring Institution (Primary Site of Residency Training Program):

Primary Site:

Multi-site programs, if any, are listed in Part Two.

2. Resident Advisor(s): Must be ACVIM Diplomate(s) in Oncology. There is no restriction on the number of Resident Advisors; however, **each Resident Advisor can supervise only two residents concurrently.**

Janean Fidel  
Rance Sellon

3. Please list all Supervising Diplomates in Oncology: **There must be a minimum of two (2) ACVIM Oncology Diplomates per institution.**

Rance Sellon - Oncology & SAIM  
Janean Fidel - Oncology

4. Please list all Diplomates of the American College of Veterinary Internal Medicine responsible for supervision of clinical training who specialize in areas other than Oncology.

Rance Sellon - Oncology & SAIM  
Janean Fidel - Oncology  
Pamela Lee - Cardiology  
Hillary Greatting - Neurology  
Annie Chen - Neurology  
Katrina Mealey - SAIM  
Jennifer Slovak - SAIM  
Jillian Haines - SAIM

5. Please list all the residents currently enrolled in the training program, along with the beginning date of the program, expected ending date of the program, and designated resident advisor.

Resident Name, Dates of Program (Resident Advisor)\*

Camille Hanot 7.15.15 - 7.14.18 (Janean Fidel)  
Julie Song 7.15.2016 - 7.15.2019 (Janean Fidel)

**\* There is no restriction on the number of Resident Advisors; however, each Resident Advisor can supervise only two residents concurrently.**

**Please note, any Candidate that significantly changes or alters their Residency Training Program before completion must notify ACVIM, in writing, before the changes are made to ensure that the proposed changes are approved.**

**Significant changes could include, but are not limited to:**

- transferring from one program to another
- alterations in program duration
- switching to a 'dual board' program
- enrolling in an institutional graduate program
- change of Program Director or Resident Advisor

**RESIDENCY TRAINING PROGRAM REGISTRATION  
2018-2019  
ONCOLOGY**

**Part Two**

**Part Two of the Oncology Residency Training renewal process addresses general features of the program that apply to all current residents. These questions will be used to provide the Oncology Residency Training/Credentials Committee with information needed to judge the structure, quality, scope, and consistency of training provided.**

Current Date:

Program Director Name:

(Must be a Diplomate of ACVIM in the Specialty of Oncology)

Name of Sponsoring Institution (Residency Training Program):

1. For residency programs with off-site rotations (required rotations not available at the primary institution/site): To ensure uniformity of training and compliance with current Certification Manual (CM) requirements, training programs that include off-site rotations must provide detailed information regarding supervision and facilities available at each specific site(s).

Outside Rotation(s) (if applicable): Please attach signed Letters of Support from all individuals providing off-site training of oncology residents to this registration form. Each Letter of Support should specify the number of weeks scheduled at each site and the rotation requirement met. **Letters of Support must be submitted annually WITH program renewal forms and WITH each new program request.**

In the box provided below, list the outside rotations for which you are attaching Letters of Support. Please include in the space below the specific information regarding the number of weeks scheduled at each site and which rotation requirements shall be met at each site:

2. Type of Training Program:

Traditional 3 years	<input checked="" type="checkbox"/>
Non-traditional (# years)	
For non-traditional programs, please provide details. <b>Note that programs must be at least 3 years (156 weeks) in length.</b>	

3. Advanced Degree:

	Yes	No	Optional
Masters:	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
PhD:	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Required for residency certificate: Yes  No

Comments: If a candidate already had a masters or PhD the requirement would be waved but a Master's is expected with this residency.

4. ONCOLOGY DIPLOMATES (CM 8.G.4)

There must be a **minimum of two (2) ACVIM Oncology Diplomates** at the primary training site of the residency for an Oncology RTP to be approved or to maintain approval. Please list the ACVIM Oncology Diplomates and their site of activity.

Name of Oncology Diplomates	Location
Janean Fidel (med onc and rad onc)	WSU
Rance Sellon ( medicine and med onc)	WSU

5. SUPPORTING DISCIPLINES REQUIRED

There must be an **ACVIM SAIM Diplomate** with  $\geq 50\%$  FTE at the primary training site of the residency for an Oncology RTP to be approved or to maintain approval (CM 8.U.3).

Please list the ACVIM SAIM Diplomate(s) who will fulfill this requirement for the RTP.

Name of SAIM Diplomate(s)	Location
Rance Sellon ( medicine and med onc)	WSU
Jillina Haines	WSU
Jennifer Slovak	WSU

There must be an **ACVS Surgery Diplomate** with  $\geq 50\%$  FTE at the primary training site of the residency for an Oncology RTP to be approved or to maintain approval (CM 8.U.3).

Please list the ACVIM SAIM Diplomate(s) who will fulfill this requirement for the RTP.

Name of ACVS Diplomate(s)	Location
Bonnie Campbell, Soft Tissue Surgery	WSU
Boel Fransson, Soft Tissue Surgery	WSU
Steve Martinez, Orthopedic Surgery	WSU
Tina Owen, Surgery	WSU
Bill Dernell, Soft tissue Surgery	WSU
Peter Gilbert, Orthopedic Surgery	WSU

6. CLINICAL TRAINING IN OTHER SPECIALTIES: REQUIRED AFFILIATED ROTATIONS (CM 8.M)

Because oncology is a multimodal discipline, the resident must also have clinical training under the direct supervision of Supervising Diplomates in other disciplines. This contact may occur at a secondary training site.

A minimum of 32 weeks must be spent actively receiving patients in affiliated rotations or meeting requirements through rounds. For each off-site rotation included in the 32 weeks of clinical training in other specialties, the resident should obtain written approval from their Resident Advisor, who will forward documentation of this approval to the RTCC.

6a. RADIATION ONCOLOGY REQUIREMENTS (CM 8.M.1):

At least **eight weeks** of direct supervision is required with a veterinary radiation oncologist to develop an understanding of clinical management of patients receiving radiation therapy, radiation planning, dosimetry and physics related to clinical radiation therapy.

Please list all **Diplomates of the American College of Veterinary Radiology responsible for training in Radiation Oncology**. Describe how Diplomates are involved in the supervision of residents and direct contact radiation oncology training will be fulfilled. Radiation oncology rotations must be completed in blocks of at least two consecutive weeks in length.

Name of Diplomate(s)	Site	Role in training residents
Janean Fidel	WSU	2x four week rotations dedicated to radiation oncology are scheduled. In addition case load allows ample discussion of radiation cases, treatment plans, and after care, in the clinic setting on a daily basis. Dr. Fidel is available at all times for radiation oncology and is on clinics with the residents 100% of the time. A resident could not escape training in RT in our facility if they tried!

6b. PATHOLOGY REQUIREMENTS (8.M.1):

At least **two weeks** (may be met through weekly/biweekly rounds) of direct supervision with a **clinical pathologist** are required.

Please list all **Diplomates of the American College of Veterinary Pathology** in clinical pathology associated with residency training. Describe how Diplomates are involved in the supervision of residents and how direct contact requirements (must be in person, not videoconference) in clinical pathology will be met.

Name of Diplomate(s)	Site	Role in training residents
Dr. Jane Wardrop Dr. Cleverson Souza Dr. Tim Baszler	Clinical Path, WSU Clinical Path, WSU	Oncology residents spend at least 2 weeks in a clinical pathology rotation and a course is available for more directed study each semester (1 Unit course). Gross pathologists reading histopathology will supervise /advise the residents when ever needed in regards to pathology. Together this amounts to about 15 hours a month. A two week rotation in gross pathology is also strongly encouraged.

At least **two weeks** (may be met through weekly/biweekly rounds) of direct supervision with an **anatomic (surgical) pathologist** are required.

Please list all **Diplomates of the American College of Veterinary Pathology** in anatomic (surgical) pathology associated with residency training. Describe how Diplomates are involved in the supervision of residents and how direct contact requirements (must be in person, not videoconference) in anatomic pathology will be met.

Name of Diplomate(s)	Site	Role in training residents
Dr. Tim Baszler Dr. Chrissy Eckstrand Dr. Gary Halderson Dr. Danielle Nelson Dr. Allan Pessier Dr. Josh Ramsay Dr. Kevin Snekvick Dr. Kyle Taylor Dr. Laura White	Gross Path, WSU Gross Path, WSU Gross Path, WSU Gross Path, WSU Gross Path, WSU Gross Path, WSU Gross Path, WSU Gross Path, WSU Gross Path, WSU	Oncology residents spend at least 2 weeks in a clinical pathology rotation and a course is available for more directed study each semester (1 Unit course). Gross pathologists reading histopathology will supervise /advise the residents when ever needed in regards to pathology. Together this amounts to about 15 hours a month. A two week rotation in gross pathology is also strongly encouraged.

6c. DIAGNOSTIC IMAGING REQUIREMENTS (8.M.1):

At least **two consecutive weeks** of **diagnostic imaging** under direct supervision by a board-certified radiologist are required in addition to any interactions during case rounds.

Please list all Diplomates of the American College of Veterinary Radiology (not including radiation oncology) associated with residency training. Describe how Diplomates are involved in the supervision of residents and how direct contact requirements (must be in person, not videoconference) in radiology will be met.

Name of Diplomate(s)	Site	Role in training residents
John Mattoon Greg Roberts Tom Wilkinson Ashley Hannah	WSU WSU WSU WSU	A 2 week block in radiology is us ally scheduled within the first year of the residency. Also radiology is always available to discuss the imaging findings on patients often immediately after we have the images.

6d. SMALL ANIMAL INTERNAL MEDICINE REQUIREMENTS (8.M.1):

At least **four weeks** (completed in at least two consecutive week blocks) of training under the direct supervision by an ACVIM Small Animal Internal Medicine (SAIM) Diplomate are required.

Please list all **Diplomates of the American College of Veterinary Internal Medicine (inlcuding those listed above)** involved in the supervision of residents and how direct contact requirements will be met.

Name of Diplomate(s)	Site	Role in training residents
Rance Sellon (medicine and med onc) Jillina Haines (medicine) Jennifer Slovak (medicine) Annie Chen (Neurology) Hillary Greatting (Neurology) Lynn Nelson (Cardiology) Pamela Lee (Cardiology) Janean Fidel (Oncology) Megan Duffy (Oncology)	WSU WSU WSU WSU WSU WSU WSU WSU WSU	All clinicians present at WSU are avialable for questions regarding pateint care, and also attend house officer rounds, resident seminars, and teach graduate level courses the oncology residents may take. Any of these individuals may also be members of masters committees, and may help with research projects.

6e. OTHER REQUIRED ROTATIONS (8.M.2):

**Fourteen weeks** of other rotations with an ACVIM Diplomate in the Specialty of Oncology, or training under the supervision of a member of an American Board of Veterinary Specialties (ABVS) or European Board of Veterinary Specialisation (EBVS) approved specialty (such as, but not limited to, the American College of Veterinary Radiology, the American College of Veterinary Radiology (Radiation Oncology), European College of Veterinary Neurology, the American College of Veterinary Pathology, ACVS, or ACVECC). Rotations must be completed in at least two consecutive week blocks (unless otherwise specified in the CM.)

Please list the **non-ACVIM Diplomates** available for consultation in these areas. Describe how Diplomates are involved in the supervision of residents and their contribution to direct contact requirements in affiliated specialties.

Name of Diplomates	Specialty/College	Site	Role in training residents
Linda Martin Tandi Ngwenyama	ECC ECC	WSU WSU	All clinicians present at WSU are avialable for questions regarding pateint care, and also attend house officer rounds, resident seminars, and teach graduate level courses the oncology residents may take. Any of these individuals may also be members of masters committees, and may help with research projects.
KatrinaMealey, Clinical Pharm	Clin Pharmacolgy	WSU	
Terri Alyssio	ACVO	WSU	
Ahmed Tibary, Therio Tammy Grubb, Anesthesia	ACVT ACVA	WSU WSU	
Kelly Farnsworth	ACVS equine	WSU	

7. FORMAL STRUCTURED RESEARCH (CM 8.O):

The resident is expected to actively participate in a laboratory or clinical investigative research project during the residency. A minimum of **eight weeks** (320 hours) of an oncology residency should be dedicated to this aspect of training.

Research time should be scheduled as either weekly time (hours per week) or in blocks of time sufficient to complete the research, perform data analysis and prepare a manuscript for publication by the third year of their residency (see Recommended Milestones in CM 8.G 6-8). This experience must be documented, with dates, and signed by the Supervising Diplomate.

Please explain how your residency program complies with the research guidelines outlined above.

All residents have a project and time is scheduled off clinics both to work on the project and to get a publication ready. Since most of our residents are also in a Master's program they have to do a research project and have course that helps them apply for grant and write proposals. Also course work in statistics is required.

For Board-certification in oncology, the resident must have a minimum of one major first author publication in the field of oncology published or accepted for publication in a refereed scientific or peer-reviewed journal. A literature review or case report is not acceptable. Please describe how this program supports this requirement for publication. (See CM 8.F.5)

A masters project hopefully leads to publishable results if not residents are strongly encouraged to also work on other projects such as a retrospective paper.

#### 8. JOURNAL CLUB (CM 8.P):

An organized and routinely scheduled journal club of at least 80 hours over the course of the RTP must be an integral part of all oncology resident training. Journal Club must be attended and supervised by a Supervising Diplomate. The RTP application requires a schedule of proposed Journal Club for Oncology RTCC approval.

Please explain how your residency program complies with the journal club guidelines outlined above, and include a schedule for this requirement, including number of proposed meetings and duration of each meeting.

Oncology journal club or book review occurs on Tuesday mornings at 7 AM during all weeks but for an occasional holiday. Medicine Journal club also occurs on Thursday mornings at 8 AM during most of the year. Oncology Rounds- mets monthly during school year. Presentation of Oncology cases with radiology, surgery, pathology and clinical pathology participation. Attended by residents, interns and students.

#### 9. SEMINAR OR LECTURE SERIES AND FORMAL CONFERENCES (CM 8.Q, 8.R):

Residents must attend formal teaching conferences in oncology and related disciplines throughout the residency. Unless these are formal lectures or classes, an Oncology Supervising Diplomate supervises the conferences, which should occur an average of **four times per month**. Examples of these are clinical pathology conferences, resident seminars, grand rounds sessions, and tumor biology classes. Conferences given within a veterinary practice or hospital or at a medical school or medical teaching hospital are acceptable.

Please include includes the format and schedule of these conferences and presentations, which directly pertain to training in Oncology and give specific details given on a daily, weekly or monthly basis.

Resident/Intern Seminar - Wednesday 8 am - large and small animal interns and residents- formal seminar presentations covering a variety of topics (typically clinically oriented). Oncology cases are included. Residents must present once per semester.

Resident Seminars - Weekly - Spring and Fall Semesters. Residents must attend and must present once each semester.

Formal courses are offered on different subjects virtually every semester in the areas of neurology, internal medicine, oncology, clinical pathology, and radiology within our department.

Other seminars are offered intermittently during any given semester. During the spring semester, the VMP department holds a series of monthly seminars focused on basic immunology. Prominent investigators are brought to WSU for these seminars. There are also campus wide seminars offered by other departments, some of which have relevance to clinical veterinary medicine and oncology.

The resident must give a formal presentation at such a conference at least once per year. Documentation of these presentations must be included in the oncology credentials packet of the resident.

Please list all opportunities offered to and/or required of the resident for attendance and/or giving formal presentations at local, regional, state or national meetings. Indicate whether the resident will attend or present at these meetings (CM 8.Q).

Resident/Intern Seminar - Wednesday 8 am - large and small animal interns and residents- formal seminar presentations covering a variety of topics (typically clinically oriented). Oncology cases are included. Residents must present once per semester.

Resident Seminars - Weekly - Spring and Fall Semesters. Residents must attend and must present once each semester.

Residents must attend at least one state, regional, national, or international veterinary or human medical continuing education conference during their residency. Please list opportunities offered to and/or required of the resident for attendance

Residents are strongly encouraged to present at either VCS and ACVIM. They are reimbursed for the trip if they present. Occasional invitations to local meetings of service groups such as breeder clubs, Rotary, Lions club etc. are available for residents that wish to make such presentations.

10. FORMAL EXAMINATION REVIEW SESSIONS (CM 8.S):

An oncology RTP must provide at least 40 hours per year of intensive formal review sessions for residents/candidates on topics covered in the general and specialty examinations. Attending daily clinical rounds does not meet this requirement. The requirement could be met in part by attending an ACVIM advanced continuing education (ACE) course, by attending an ACVIM Forum, or formal resident review sessions at a Veterinary Cancer Society Annual Meeting.

Please provide an anticipated schedule of these formal reviews below. Annual documentation will be required.

For general boards a class is mandatory covering the Guyton textbook (2 semesters) and optional sessions are available for review of other general text books (CVT usually, but also others and happens once weekly). A formal immunology course is also available for one semester.

For Oncology boards Oncology journal club does review text books about 50% of the time covering Weinberg, Tannock and Hill, Chabner, and Hall on a rotating 3 year format.

11. PAST RESIDENTS:

Please list the residents who have completed this described training program **within the last five years**, including the year that each individual's training program ended. If possible, please indicate whether the individual has completed the Board- certification process. Do not include residents whose program was other than the one described here.

Name(s)	Program End Date (mm/dd/yyyy)	Diplomate (Yes or No)
Kevin Choy	7/15/13	Yes
Rebekah Lewis	7/17/15	Yes
Megan Duffy	7/15/16	Yes

12. CURRENT RESIDENTS:

Please list all residents **currently enrolled in this described training program** in addition to their actual program start and end dates. Each Resident Advisor can supervise only two residents at a time.

Resident Name(s) (first/last)	Length of Program (in years)	Program Start Date (mm/dd/yyyy)	Program End Date (mm/dd/yyyy)	Resident Advisor Name (first/last)	For RAs: Checking this box is an indication I have read the ACVIM Certification Manual and understand my role in residency

					training (mandatory per CM 4.F.3.c)
Camille Hanot	3	7/15/15	7/2018	Janean Fidel	X
Julie Song	3	7/15/16	7/2019	Janean Fidel	X

While it may have no bearing on your program, the supervising Diplomate(s) and the resident are required to review the Certification Manual yearly. You may obtain a copy of the Certification Manual from the ACVIM website at [www.ACVIM.org](http://www.ACVIM.org).

13. Have all supervising Diplomate(s) read the objectives for an oncology residency as outlined in the Certification Manual, Specialty of Oncology?

Yes      No

    

If no, please explain:

14. The RA and PD should periodically evaluate the resident (required minimum of once every 6 months) and discuss the results of those evaluations with the resident. Either the RA or PD (or both) must be able to provide the Residency Training Committee with written summaries of those evaluations, if requested. Additionally, the RA must complete the standardized Resident Evaluation Form annually and provide RTCC with copies, if requested.

Does your program comply with these standards of resident evaluation?

Yes      No

    

If no, please explain:

15. Please indicate the availability of the following facilities or equipment. Indicate if these are available at the primary training site, or at a different location. (In the Location column, indicate on-site for primary location or the name of the facility where the equipment is located if off-site.) For facilities that are not on-site or not available, please describe the situation, availability, or how the resident will gain experience with equipment not available in the space at the end of this section.

	Available? (Y or N)	Location of equipment? (On-site or list site name)
a) Radiography	Y	On site WSU
b) 24 hour emergency and critical care facility	Y	On site WSU
b) Ultrasonographic equipment	Y	On site WSU
c) Color flow/Doppler equipment	Y	On site WSU
d) Endoscopy equipment	Y	On site WSU
GI equipment	Y	On site WSU
Bronchoscopy	Y	On site WSU
Cystoscopy	Y	On site WSU
Rhinoscopy	Y	On site WSU
Laparoscopy	Y	On site WSU
e) Clinical Pathology capabilities: (includes CBC, serum chemistries, blood gases, urinalysis, Cytology, parasitology, microbiology, and endocrinology)	Y	On site WSU
f) Appropriate safety equipment for handling chemotherapy (briefly summarize what is available in the column Location of Equipment).	Y	All drugs are drawn up in a hood within the pharmacy by the pharmacist and transferred to the ward in plastic chemotherapy labeled bags. The chemotherapy ward is a separate ward within the

		hospital and separate from our rounds and working room. We are currently using the Equasheid system for closed chemotherapy administration. All chemotherapy is administered within the chemotherapy ward or ICU if absolutely necessary.
g) Nuclear Medicine	Y	On site WSU
h) Computed Tomography	Y	On site WSU
i) Magnetic Resonance Imaging	Y	On site WSU
j) Radiation Therapy Facility	Y	On site WSU
k) Intensive Care Facility – 24 hours	Y	On site WSU
l) Total parenteral nutrition capability	Y	On site WSU
m) Computerized Medical Records w/Searching Capabilities	Y	On site WSU

If any of the above equipment or facilities are available off-site, please explain how the resident can access them for case management, research, or study.

None off site

16. The resident should have access to a human or veterinary medical library with on-line searching capacity and at a minimum have access to all textbooks (current editions) and full text access to all journals on the current examination committee reading list (**See item 21. to be completed by Program Director. Note that on-line access to texts must be full-text not abstracts only**). This library should be available on-site or within a reasonable commuting distance (defined as within a 15 mile radius of the primary training site).

Please indicate how your resident can obtain access to the following textbooks/journals.

**Please note, any Program Director or Candidate that significantly changes or alters this Residency Training Program before completion must notify ACVIM, in writing, before the changes are made to ensure that the proposed changes are approved.**

Significant changes could include, but are not limited to:

- transferring from one program to another
- alterations in program duration
- switching to a 'dual board' program
- enrolling in an institutional graduate program
- change of Program Director or Resident Advisor

**As Program Director, I verify that the above information is an accurate reflection of this Residency Training Program.**

Per the Certification Manual, each year, the Program Director must certify to the RTC/ RTCC and ACVIM, in writing, that they have read the ACVIM Certification Manual and understands their role in residency training.

**Checking this box is an indication I have read the ACVIM Certification Manual and understand my role in Residency Training Program.**
