

RESIDENCY TRAINING PROGRAM REGISTRATION
2019-2020
CARDIOLOGY

Part One

New applications for ACVIM Residency Training Programs must be received by the Residency Training Committee (RTC) 90 days prior to any residents beginning training. Before completing this form, please review the general and specific requirements for Cardiology Residency Training Programs in the ACVIM Certification Manual (CM). The current version of the CM is available on the ACVIM website at www.ACVIM.org.

Prior to making significant changes in a residency training program, approval of the ACVIM and Cardiology RTC must be obtained. The Candidate and/or Program Director must notify ACVIM, in writing before the changes are made to ensure that the proposed changes are approved. Significant changes could include, but are not limited to the following: changes in Program Director or advisors, transferring from one program to another, alterations in program duration, locations of secondary site training, switching to a 'dual board' program or enrolling in an institutional graduate program.

Notice: The data collected in this form is necessary both for the ACVIM to maintain its accreditation as a Registered Veterinary Specialty Organization and also is required for renewal of the residency training program. Some of the data collected is required of every specialty and some is specific to the specialty of Cardiology.

For multi-site residency programs: To ensure uniformity of training and compliance with current CM requirements, training programs that include multiple sites must provide detailed information regarding supervision and facilities available at each specific site(s). Multi-site programs, if any, will be addressed by the Program Director in Part Two.

Program Director Name:

Must be an active Diplomate of ACVIM in the Specialty of Cardiology or an approved ECVIM Diplomate in Cardiology

Program Director's Contact Information:

Work Phone:	<input type="text" value="(541) 737-6881"/>
Mobile Phone:	<input type="text"/>
E-mail:	<input type="text" value="Kate.Scollan@oregonstate.edu"/>
Mailing Address:	<input type="text" value="Clinical Sciences
281 Magruder Hall
Corvallis, OR 97331"/>

1. Location of Sponsoring Institution (Primary Site of Residency Training Program):

Primary Site Location:	Length of Training Program:
<input type="text" value="Oregon State University"/>	<input type="text" value="3 year"/>

2. Resident Advisor(s): Must be a Diplomate of ACVIM in the Specialty of Cardiology or an approved ECVIM Diplomate in Cardiology. There is no restriction on the number of Resident Advisors; however, each Resident Advisor can supervise up to two residents concurrently.

<input type="text" value="Katherine Scollan
Nicole LeBlanc"/>

3. Supervising Diplomate(s) on-site: Must be an active Diplomate of ACVIM in the Specialty of Cardiology or an approved ECVIM Diplomate in Cardiology.

<input type="text" value="Katherine Scollan - Cardiology
Nicole LeBlanc - Cardiology"/>

4. Diplomates of ACVIM responsible for supervision of clinical training who specialize in areas other than Cardiology. If off-site, please explain the situation, and the method of providing direct contact with the resident.

Name and Specialty	Comments
Christopher Cebra - LAIM John Schlipf - LAIM Erica McKenzie - LAIM Ana Paula Pacheco - LAIM Shay Bracha - Oncology Kaitlin Curran - Oncology Haley Leeper - Oncology Jean Hall - SAIM Helio de Moraes - SAIM Jana Gordon - SAIM	

5. Residents currently participating in your training program, along with the beginning date of the program, expected ending date of the program, and designated resident advisor. All current residents and incoming residents (if known) should be listed here. Unless specifically approved, in advance, by the CRTCC, the ratio of cardiology residents to on-site Cardiology Diplomates who are actively involved in resident training cannot exceed 2 to 1.

Resident Name	Start date (mm/dd/yyyy)	End Date (mm/dd/yyyy)	Resident Advisor Name*
Meghan Allen	7.15.17	7.14.20	(Nicole LeBlanc)
Eric Owens	7.15.19	7.14.22	(Katherine Scollan)

American College of **Veterinary** Internal Medicine

**RESIDENCY TRAINING PROGRAM REGISTRATION
2019-2020
CARDIOLOGY**

Part Two

Part Two of the Cardiology Residency Training Program addresses general features that apply to all current residents. These questions will be used to provide the Residency Training and Credentials Committees with information needed to judge the structure, quality, scope, and consistency of training provided. (Part Three must be completed and submitted for each resident.)

Current Date:

Program Director Name:

(Must be a Diplomate of ACVIM in the Specialty of Cardiology or an approved ECVIM Diplomate in Cardiology)

Name of Sponsoring Institution (Residency Training Program):

1. Please list **all Diplomates of the American College of Veterinary Pathology and the European College of Veterinary Pathology** in the areas of clinical pathology or gross/histopathology associated with residency training. If off-site, please explain the situation, and the method of providing direct contact with the resident.

Name of Diplomate(s)	Clinical or Gross	ACVP or ECVP	Comments
Susan Tornquist	Clinical	DACVP	
Elena Gorman	Clinical	DACVP	
Rob Bildfell	Gross	DACVP	
Christiane Lohr	Gross	DACVP	
Beth Valentine	Gross	DACVP	
Duncan Russell	Gross	DACVP	

2. Please list **all Diplomates of the American College of Veterinary Radiology and European College of Veterinary Diagnostic Imaging** associated with residency training. If off-site, please explain the situation, and the arrangements for direct contact with the resident.

Name of Diplomate(s)	ACVR or ECVDI	Comments
Susanne Steiger-Vanegas	ECVDI	
Stacy Cooley	ACVR	

3. Please list **all Diplomates of the American College or equivalent European colleges of Dermatology, Surgery, Ophthalmology, Anesthesiology, ECC, clinical nutrition, clinical pharmacology, and/or theriogenology** associated with residency training. . If off-site, please explain the situation and the arrangements provided for contact with the resident.

Name of Diplomate(s)	Specialty	Comments
Jennifer Warnock	ACVS	
Milan Milovancev	ACVS	
Katy Townsend	ACVS	

Jeff Biskup	ACVS	
Stacy Semevolos	ACVS	
Jill Parker	ACVS	
Katja Zelmer	ACVS	
Michael Huber	ACVS	
Sarah Maxwell	ACVO Off site	
Tom Riebold	ACVA	
Ron Mandsager	ACVA	
Charles Estill	ACVT	
Hernan Montilla	ACVT	

4. Please indicate the availability of the following facilities or equipment. Indicate if these are available on-site at the primary training site, or at a different location. (In the Location column, indicate on-site for primary location or the name of the facility where the equipment is located if off-site.) For facilities that are not on-site, please describe the situation and availability in the space at the end of this section. See CM 5.D for details.

	Available?		Location of equipment? (On-site or list site name)
	Yes	No	
a) Blood pressure equipment (must be on site)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	On
b) Cardiac catheterization capability (must be on-site)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	On
c) Echocardiography equipment (must be on-site)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	On
d) Fluoroscopy (must be on site)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	On
e) Pacemaker interrogation (must be on site or available off-site)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	On
f) Standard radiological equipment (must be on-site)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	On
g) Electrocardiography (must be on-site)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	On
hi) Brainstem Auditory Evoked Response Equipment	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
i) Clinical Pathology capabilities: (includes CBC, serum chemistries, blood gases, urinalysis, cytology, parasitology, microbiology, endocrinology, anatomic and histopathology)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	On
j) Colloid oncotic pressure measurement	<input checked="" type="checkbox"/>	<input type="checkbox"/>	On
k) Computed Tomography	<input checked="" type="checkbox"/>	<input type="checkbox"/>	On
l) Electroencephalography	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
m) Electromyography	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
n) Endoscopy equipment			
GI equipment	<input checked="" type="checkbox"/>	<input type="checkbox"/>	On
Bronchoscopy	<input checked="" type="checkbox"/>	<input type="checkbox"/>	On
Cystoscopy	<input checked="" type="checkbox"/>	<input type="checkbox"/>	On
Rhinoscopy	<input checked="" type="checkbox"/>	<input type="checkbox"/>	On
Laparoscopy	<input checked="" type="checkbox"/>	<input type="checkbox"/>	On
o) Hemodialysis capability	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
p) Intensive Care Facility – 24 hours	<input checked="" type="checkbox"/>	<input type="checkbox"/>	On
q) Magnetic Resonance Imaging	<input checked="" type="checkbox"/>	<input type="checkbox"/>	On
r) Nuclear Medicine [access is desirable]	<input checked="" type="checkbox"/>	<input type="checkbox"/>	On
s) Radiation Therapy Facility	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Being built
t) Serum osmolality measurement	<input checked="" type="checkbox"/>	<input type="checkbox"/>	On
u) Total parenteral nutrition capability	<input checked="" type="checkbox"/>	<input type="checkbox"/>	On
v) Ultra sonographic equipment	<input checked="" type="checkbox"/>	<input type="checkbox"/>	On
w) Urethral pressure profile & cystometry	<input checked="" type="checkbox"/>	<input type="checkbox"/>	On
x) Computerized Medical Records w/Searching Capabilities	<input checked="" type="checkbox"/>	<input type="checkbox"/>	On
y) Medical Library w/Literature Searching Capabilities	<input checked="" type="checkbox"/>	<input type="checkbox"/>	On
z) Veterinary Library w/Literature Searching Capabilities	<input checked="" type="checkbox"/>	<input type="checkbox"/>	On

If any of the above equipment or facilities are available off-site, please explain how the resident can access them for case management, research, or study.

Radiation therapy is available at the local human hospital, Good Samaritan, in town. A vault for on-site radiation therapy is currently under construction. In addition, we have blood pressure equipment on-site, the box will not allow an X to be placed there.

5. Clinical caseload information (this information should reflect the caseload of the prior 12 months at the primary site)

Total Cardiology caseload per year:

1000

Number of echocardiographic examinations per year:

6. Number of cardiac catheterizations per year:

700 echos, 40 cath (the form won't let me use the above box)

Didactic Learning Opportunities and Research Requirements: In recognition of the importance of scientific discovery as a critical mission of the ACVIM, all Residency Training Programs shall include an assessment period or instruction and/or participation in creative scholarship which will foster an appreciation of, competency in, and contribution to the knowledge base of their respective specialty and which will support their development as clinician scientists. This requirement is fulfilled through satisfactory completion of A, B and one of C [See CM 5.E and 5.F]:

A. Journal Club: Critical review of literature, minimum of eighty (80) hours during the program. Describe how this requirement is met or exceeded.

The resident is required to attend and present in weekly cardiology journal club (1 hr/week, Monday mornings 8-9am). Journal articles are selected from the most recent volumes of relevant human and veterinary journals. Additionally, some weeks are selected as "topic reviews" with a review of important human and veterinary literature from the past 20 years regarding a specific cardiovascular topic. This results in about 40-45 hours/year (minus holidays and resident vacation weeks) and 120-135 hours during the residency program for journal club.

B. Cardiology-focused Educational Experiences: Minimum of one hundred fifty (150) hours during the program. Describe how this requirement is met or exceeded. [See CM 5.E.2]

The resident is required to attend and present in weekly cardiology textbook review rounds (Comparative Cardiovascular Medicine, 1hr/week, Fridays 8-9am). In addition they attend rounds every Thursday morning (1 hr/wk) with a rotating schedule of ECG rounds, Evidence Based Medicine rounds, Salt and Water rounds, and Cardiac Pathology rounds. This results in about 90 hours/year (270 hours total) of structured educational experiences. In addition, residents in the Masters degree participate in structured educational experiences in their graduate coursework. The resident attends ACVIM annually and also attends a human cardiology conference once during their residency (ACC or AHA). Lastly, the hours of journal club attended by the resident exceed the 80 required and are additional structured experiences.

C. Successful completion of any one of the options listed below. Describe how this will be fulfilled or exceeded in the individual trainee's specific application.

1. Successful completion of at least two (2) of the following three (3) short courses/workshops offered by ACVIM either on-line or at the Forum:
 - A. Critical evaluation of veterinary medical/biomedical literature
 - B. Grant Writing
 - C. Study, design and participation in clinical trials
2. Documented submission of a grant proposal (by advisor letter)
3. Acceptance and presentation at a scientific meeting of an abstract (oral or poster) of original work
4. Documented completion (by advisor letter) of a prospective or retrospective research program pertinent to the candidate's specialty
5. Documented completion (by advisor letter) of graduate course work in biostatistics, research methods, and/or research ethics.

(1) Residents will receive funding to attend ACVIM and encouraged to complete 2 or 3 of the short courses offered in literature evaluation, grant writing, and study design. (2) During the training program, residents are required to write and submit a research grant proposal for internal or external funding. (3) Residents are required to submit at least 1 abstract for presentation at the ACVIM Forum following completion of their residency research

project. Residents are strongly encouraged to submit 1 or 2 additional case-based manuscripts with a cardiovascular medicine focus for publication in a veterinary journal. (4) Residents are required to perform a prospective independent research project, and may also perform a retrospective study in conjunction with the prospective study. Residents are required to prepare and submit a publication to a refereed journal following completion of their research project. (5) Residents enrolled in the concurrent Masters degree program are required to complete course work in biostatistics and research ethics. Letters of documentation will be submitted with Resident Logs to the RTP.

Note: Letters of documentation by advisors will need to accompany the final submission of the Resident Logs to the Residency Training Committee in order to qualify for a resident certificate.

Please note, any Program Director or Candidate that significantly changes or alters this Residency Training Program before completion must notify ACVIM, in writing, before the changes are made to ensure that the proposed changes are approved.

Significant changes could include, but are not limited to:

- transferring from one program to another
- alterations in program duration
- switching to a 'dual board' program
- enrolling in an institutional graduate program
- change of Program Director or Resident Advisor

As Program Director, I verify that I have read the Certification Manual and that the above information is an accurate reflection of this Residency Training Program.
