

Part One

New applications for ACVIM Residency Training Programs must be received by the Residency Training Committee (RTC) 90 days prior to any residents beginning training. Before completing this form, please review the general and specific requirements for Oncology Residency Training Programs in the ACVIM Certification Manual (CM). The current version of the CM is available on the ACVIM website at www.ACIVM.org.

Prior to making significant changes in a Residency Training Program, approval of the ACVIM and Oncology RTC must be obtained. The Candidate and/or Program Director must notify ACVIM, in writing before the changes are made to ensure that the proposed changes are approved. Significant changes could include, but are not limited to the following: changes in Program Director or any advisors, transferring from one program to another, alterations in program duration, locations of secondary site training, switching to a 'dual board' program, or enrolling in an institutional graduate program.

Notice: The data collected in this form is necessary both for the ACVIM to maintain its accreditation as a Registered Veterinary Specialty Organization and also is required for renewal of the residency training program. Some of the data collected is required of every specialty and some is specific to the specialty of Oncology.

For multi-site residency programs: To ensure uniformity of training and compliance with current CM requirements, training programs that include multiple sites must provide detailed information regarding supervision and facilities available at each specific site(s). Multi-site programs, if any, will be addressed by the Program Director in Part Two.

Program Director Name:

Must be an active Diplomate of ACVIM in the Specialty of Oncology

New applications for ACVIM Residency Training Programs must be received by the Residency Training Committee (RTC) 90 days prior to any residents beginning training. Before completing this form, please review the general and specific requirements for Oncology Residency Training Programs in the ACVIM Certification Manual (CM). The current version of the CM is available on the ACVIM website at www.ACIVM.org.

Prior to making significant changes in a Residency Training Program, approval of the ACVIM and Oncology RTC must be obtained. The Candidate and/or Program Director must notify ACVIM, in writing before the changes are made to ensure that the proposed changes are approved. Significant changes could include, but are not limited to the following: changes in Program Director or any advisors, transferring from one program to another, alterations in program duration, locations of secondary site training, switching to a 'dual board' program, or enrolling in an institutional graduate program.

Notice: The data collected in this form is necessary both for the ACVIM to maintain its accreditation as a Registered Veterinary Specialty Organization and also is required for renewal of the residency training program. Some of the data collected is required of every specialty and some is specific to the specialty of Oncology.

For multi-site residency programs: To ensure uniformity of training and compliance with current CM requirements, training programs that include multiple sites must provide detailed information regarding supervision and facilities available at each specific site(s). Multi-site programs, if any, will be addressed by the Program Director in Part Two.

Program Director Name:
Must be an active Diplomate of ACVIM in the Specialty of Oncology

| | | | |

Part Two

Part Two of the Oncology Residency Training registration and renewal process addresses general features of the program that apply to all current residents. These questions will be used to provide the Oncology Residency Training Committee with information needed to judge the structure, quality, scope, and consistency of training provided.

Current Date:

Program Director Name:

(Must be a Diplomate of ACVIM in the Specialty of Oncology)

Name of Sponsoring Institution (Residency Training Program):

1. For residency programs with off-site rotations (required rotations not available at the primary institution/site): To ensure uniformity of training and compliance with current Certification Manual (CM) requirements, training programs that include off-site rotations must provide detailed information regarding supervision and facilities available at each specific site(s).

Outside Rotation(s) (if applicable): Please attach signed Training Agreement Form from all institutions providing off-site training of oncology residents to this registration form. Each Training Agreement Form should specify the number of weeks scheduled at each site and the rotation requirement met. **Training Agreement Forms must be submitted annually WITH program renewal forms and WITH each new program request.**

In the box provided below, list the outside rotations for which you are attaching Training Agreement Forms. Please include in the space below the specific information regarding the number of weeks scheduled at each site and which rotation requirements shall be met at each site:

2. Type of Training Program:

Traditional 3 years

| | |
|---|--|
| Non-traditional (Length in years) | |
| For non-traditional programs, please provide details. Note that programs must be at least 3 years (156 weeks) in length. | |

3. Advanced Degree:

| | | | |
|----------|-------------------------------------|-------------------------------------|--------------------------|
| | Yes | No | Optional |
| Masters: | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| PhD: | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> |

Required for residency certificate: Yes No

Comments:

Master's program enrollment during residency is required at this institution. PhD degrees are offered by the RVC but would not be considered to be part of the residency program.

As far as possible, work that is required for the MVetMed (for example the research project) will also fulfill the requirements of the ACVIM training program without an extensive amount of extra work. The core modules (A modules) generally occur on Wed mornings from 9-10am and first-year residents' attendance is required at these sessions. The timing of the non-compulsory (B) modules is more variable; some are day or weekend courses, some are held on a series of afternoon/evening sessions. The remainder of the work for the Masters, the research project and its write-up, should be completed during the residents' off-clinics/research blocks.

In total residents have to complete a minimum of 10 modules, although they can choose to do more and select the grades from their best modules. Taken together the A and B modules account for 50% of the overall mark for the MVetMed. The other 50% of the marks are obtained from the research project and it is envisaged that this would also fulfill the publication requirements for the residents' board certification. A case report/case series is not suitable unless there is a pre-defined testable hypothesis. After the first year the residents are required to submit an abstract outlining their proposed research project for assessment at the time of the first annual appraisal. After the second year residents are required to defend an abstract presented as a poster at an internal research day. In the third year the completed paper, or the research project written up in a format suitable for publication needs to be submitted. There is then a synoptic oral defense (viva) exam.

Kasia has completed the modules required for the Master's program and she will be eligible to graduate following completion of her residency (October 2019).

4. ONCOLOGY DIPLOMATES (CM 8.G.4)

There must be a **minimum of two (2) ACVIM Oncology Diplomates** at the primary training site of the residency for an Oncology RTP to be approved or to maintain approval. Please list the ACVIM Oncology Diplomates and their site of activity.

| Name of Oncology Diplomates | Location |
|---|----------|
| No oncology diplomates currently at the RVC | |

5. SUPPORTING DISCIPLINES REQUIRED

There must be an **ACVIM SAIM Diplomate** with $\geq 50\%$ FTE at the primary training site of the residency for an Oncology RTP to be approved or to maintain approval (CM 8.U.3). At least **four weeks** (completed in at least two consecutive week blocks) of training under the direct supervision by an ACVIM Small Animal Internal Medicine (SAIM) Diplomate are required.

Please list the ACVIM SAIM Diplomate(s) who will fulfill this requirement for the RTP.

| Name of SAIM Diplomate(s) | Location |
|---|--|
| Harriet Syme ACVIM & ECVIM Rosanne Jepson ACVIM & ECVIM Aarti Kathrani ACVIM Ruth Gostelow ACVIM Barbara Glanemann ECVIM Sarah Stewart ACVIM Rebecca Geddes ACVIM Vanessa Woolhead Ashley Hartley | Currently on maternity leave Passed ACVIM exam, pending manuscript publication Passed ACVIM exam, pending manuscript publication |

There must be an **ACVS Surgery Diplomate** with $\geq 50\%$ FTE at the primary training site of the residency for an Oncology RTP to be approved or to maintain approval (CM 8.U.3).

Please list the ACVS Surgery Diplomate(s) who will fulfill this requirement for the RTP.

| Name of ACVS Diplomate(s) | Location |
|--|--------------------------------|
| Dan Brockman DipACVS Sue Gregory RCVS DSA Surgery & (DVR) Radiology Victoria Lipscomb DipECVS Jane Tomlin Dip ECVS Zoe Halfacree DipECVS Karla Lee DipECVS Lee Beever DipECVS Richard Meeson DipECVS Andrew Phillips DipECVS | Not providing clinical service |

6. CLINICAL TRAINING IN OTHER SPECIALTIES: REQUIRED AFFILIATED ROTATIONS (CM 8.M)

Because oncology is a multimodal discipline, the resident must also have clinical training under the direct supervision of Supervising Diplomates in other disciplines. This contact may occur at a secondary training site.

A minimum of 32 weeks must be spent actively receiving patients in affiliated rotations or meeting requirements through rounds. For each off-site rotation included in the 32 weeks of clinical training in other specialties, the resident should obtain written approval from their Resident Advisor, who will forward documentation of this approval to the RTCC.

6a. RADIATION ONCOLOGY REQUIREMENTS (CM 8.M.1):

At least **eight weeks** of direct supervision is required with a veterinary radiation oncologist to develop an understanding of clinical management of patients receiving radiation therapy, radiation planning, dosimetry, and physics related to clinical radiation therapy.

Please list all DACVR-RO diplomates responsible for training in radiation oncology. Describe how Diplomates are involved in the supervision of residents and how direct contact in radiation oncology training will be fulfilled. Radiation oncology rotations must be completed in blocks of at least two consecutive weeks in length.

| Name of Diplomate(s) | Site | Role in training residents |
|--|--------------------------|--|
| Randi Drees DACVR (Radiology, Radiation Oncology) DipECVDI | Royal Veterinary College | Dr Drees provides imaging and radiation therapy advice to the residents on their cases on a regular basis. She is also available to discuss radiation planning dosimetry and physics related to radiation therapy on site as needed. Currently on maternity leave until summer 2019. |
| Jerome Benoit ACVR-RO | OncoVet, France | Dr Benoit has agreed to train RVC residents for their total amount of radiation rotation weeks required (8). Availability of this center assures the RT training completion required over a 3 year period. Oncovet has state of the art |

| | | |
|--|--|---|
| | | <p>facilities including a 6 MV linear accelerator (Linac), brachytherapy and iodine therapy, as well as a high caseload.</p> <p>Kasia has completed all of her radiation oncology requirements.</p> |
|--|--|---|

6b. PATHOLOGY REQUIREMENTS (8.M.1):

At least **two weeks** (may be met through weekly/biweekly rounds) of direct supervision with a **clinical pathologist** are required. Please list all **Diplomates of the American College of Veterinary Pathology** in clinical pathology associated with residency training. Describe how Diplomates are involved in the supervision of residents and how direct contact requirements (must be in person, not videoconference) in clinical pathology will be met.

| Name of Diplomat(e)s | Site | Role in training residents |
|---|--------------------------------|---|
| Balazs Szladovits DipACVP Laureen Peters Dip ACVP Emma Holmes DipACVP | Royal Veterinary College (all) | <p>In person case discussions and/or cytology or histopathology slide reviews frequent while on clinics; similar role during rotations through these services as required per guidelines; regular clinical/anatomical pathology rounds.</p> <p>Kasia has completed all of her clinical pathology requirements</p> |

At least **two weeks** (may be met through weekly/biweekly rounds) of direct supervision with an **anatomic (surgical) pathologist** are required.

Please list all **Diplomates of the American College of Veterinary Pathology** in anatomic (surgical) pathology associated with residency training. Describe how Diplomates are involved in the supervision of residents and how direct contact requirements (must be in person, not videoconference) in anatomic pathology will be met.

| Name of Diplomat(e)s | Site | Role in training residents |
|--|--------------------------------|---|
| Simon Priestnall DipACVP FRCPath Ken Smith FRCPath Norelene Harrington DipACVP Jonathan Williams DipECVP Eleanor Ross DipACVP Henny Martineau FRCPath | Royal Veterinary College (all) | <p>In person, case discussions and/or cytology or histopathology slide reviews frequently while on clinics; similar role during rotations through these services as required per guidelines; regular clinical/anatomical pathology rounds</p> <p>Kasia has completed all of her anatomic pathology requirements</p> |

6c. DIAGNOSTIC IMAGING REQUIREMENTS (8.M.1):

At least **two consecutive weeks** of **diagnostic imaging** under direct supervision by a board-certified radiologist are required in addition to any interactions during case rounds.

Please list all Diplomates of the **American College of Veterinary Radiology (not including radiation oncology)** associated with residency training. Describe how Diplomates are involved in the supervision of residents and how direct contact requirements (must be in person, not videoconference) in radiology will be met.

| Name of Diplomat(e)s | Site | Role in training residents |
|--|--|--|
| Randi Drees DACVR (Radiology, Radiation Oncology) DipECVDI Mauro Pivetta Dip ECVDI Francisco Llabres-Diaz DipECVDI Emma Mapletoft Dep ECVDI | Royal Veterinary College. Randi Drees currently on maternity leave until summer 2019. Mauro Pivetta providing off site remote consultation. | <p>All diplomates are on site and available for discussion about clinical aspects of cases pertaining to their specialty on a daily basis (while on-clinics / except where additional comments are provided).</p> <p>Kasia has completed all of her diagnostic imaging requirements.</p> |

6d. OTHER REQUIRED ROTATIONS (8.M.2):

Fourteen weeks of other rotations with an ACVIM Diplomate in the Specialty of Oncology, or training under the supervision of a member of an American Board of Veterinary Specialties (ABVS) or European Board of Veterinary Specialization (EBVS) approved specialty (such as, but not limited to, the American College of Veterinary Radiology, the American College of Veterinary Radiology (Radiation Oncology), American or European College of Veterinary Neurology, the American College of Veterinary Pathology, ACVS, or ACVECC). Rotations must be completed in at least two consecutive week blocks (unless otherwise specified in the CM.)

Please list the other ACVIM diplomates not previously listed or other non-ACVIM diplomates that will be involved with resident training available for consultation in these areas. Describe how Diplomates are involved in the supervision of residents and their contribution to direct contact requirements in affiliated specialties.

| Name of Diplomates | Specialty/College | Site | Role in training residents |
|---|-----------------------------|---------------------------------|---|
| Dr. Hatim Alibhai DipECVAA Dr. Ludovic Pelligand DipECVAA Kata O. Veres-Nyeki DipECVAA Chiara Adami DipECVAA, ACVAA Carolina Jimenez DipECVAA Dr. David Brodbelt DipECVAA* | Anaesthesia | Royal Veterinary College (all) | These specialists directly supervise and train the residents during any internal/elective rotations. They are also frequently consulted in person regarding current oncology patients with any related queries. |
| Dr. Ross Bond ECV Dermatology Dr. Anke Hendricks ECV Dermatology Annette Loeffler ECV Dermatology | Dermatology | *Not providing clinical service | |

| | | | |
|--|--|--|--|
| | | | |
|--|--|--|--|

7. FORMAL STRUCTURED RESEARCH (CM 8.O):

The resident is expected to actively participate in a laboratory or clinical investigative research project during the residency. A minimum of **eight weeks** (320 hours) of an oncology residency should be dedicated to this aspect of training. Research time should be scheduled as either weekly time (hours per week) or in blocks of time sufficient to complete the research, perform data analysis, and prepare a manuscript for publication by the third year of their residency (see Recommended Milestones in CM 8.G 6-8). This experience must be documented, with dates, and signed by the Supervising Diplomate.

Please explain how your residency program complies with the research guidelines outlined above.

As far as possible, the research project that is required for the Master's program will also fulfill the requirements of the ACVIM training program without an extensive amount of extra work. The work for the research project and its write-up should be completed during the residents' research blocks.

After the first year the residents are required to submit an abstract outlining their proposed research project for assessment at the time of the first annual appraisal. After the second year residents are required to defend an abstract presented as a poster at an internal research day. In the third year the completed paper, or the research project written up in a format suitable for publication needs to be submitted. There is then a synoptic oral defense (viva) exam.

Kasia has written up her research project and under taken the oral defense. Some of her planned research blocks will be used to refine the paper to get it ready for submission.

For Board-certification in oncology, the resident must have a minimum of one major first author publication in the field of oncology published or accepted for publication in a refereed scientific or peer-reviewed journal. A literature review or case report is not acceptable. Please describe how this program supports this requirement for publication. (See CM 8.F.5)

Residents are required to produce at least 1 publication to fulfill ACVIM and the MVetMed requirements and this must be an original piece of research and hypothesis-driven. Kasia will plan to submit her research paper by the end of her residency (October 2019)

8. JOURNAL CLUB (CM 8.P):

An organized and routinely scheduled journal club of at least 80 hours over the course of the RTP must be an integral part of all oncology resident training. Journal Club must be attended and supervised by a Supervising Diplomate. The RTP application requires a schedule of proposed Journal Club for Oncology RTCC approval.

Please explain how your residency program complies with the journal club guidelines outlined above, and include a schedule for this requirement, including number of proposed meetings and duration of each meeting.

Weekly Oncology Journal Club, Thursday 7:45-8:45am, from July to mid-April: articles published in peer reviewed journals required for the oncology specialty exam will be selected, summarized and discussed by the residents (with attendance/supervision of the oncologists) to improve medical and basic oncology knowledge and training in interpretation of clinical data and in scientific design of studies/trials and statistical criticism. Journal club normally accounts for 40 hours per year (120 hours for the RTP).

Kasia has already met the minimum requirements of 80 hours over her RTP. However, where possible, continuation of a weekly journal club will occur under the supervision of an off site ACVIM oncology diplomate.

9. SEMINAR OR LECTURE SERIES AND FORMAL CONFERENCES (CM 8.Q, 8.R):

Residents must attend formal teaching conferences in oncology and related disciplines throughout the residency. Unless these are formal lectures or classes, an Oncology Supervising Diplomate supervises the conferences, which should occur an average of **four times per month**. Examples of these are clinical pathology conferences, resident seminars, grand rounds sessions, and tumor biology classes. Conferences given within a veterinary practice or hospital or at a medical school or medical teaching hospital are acceptable. Please include the format and schedule of these conferences and presentations, which directly pertain to training in Oncology and give specific details given on a daily, weekly, or monthly basis.

Grand rounds/resident seminar lectures occur each Friday morning as part of the Small Animal department seminar series. This averages to 4 lectures per month.

Kasia will continue to attend these sessions for the remainder of her residency.

The resident must give a formal presentation at such a conference at least once per year. Documentation of these presentations must be included in the oncology credentials packet of the resident.

Please list all opportunities offered to and/or required of the resident for attendance and/or giving formal presentations at local, regional, state, or national meetings. Indicate whether the resident will attend or present at these meetings (CM 8.Q).

Two presentations per year are required as part of the resident seminar series to the small animal department each year. There is also an annual graduate school poster day in which the residents must participate and present their research project in their 3rd year. It is also hoped that the residents would present the results of their research (as a scientific abstract) at a national (BSAVA) / international (VCS/ESVONC/ECVIM) meeting at least once during their residency and they will be encouraged to perform further presentations if their clinical/research work allows it. Residents are encouraged to collaborate with their supervisors in providing CPD at a regional or national level. The third year residents will typically give 2-3 undergraduate lectures to veterinary students.

Kasia has participated in presentations as outlined above throughout her residency.

Residents must attend at least one state, regional, national, or international veterinary or human medical continuing education conference during their residency. Please list opportunities offered to and/or required of the resident for attendance

Residents are expected to attend an international veterinary cancer conference (VCS/ESVONC/ECVIM) and/or the ACVIM forum during their second and third year following exams. They receive £500 (~\$600) per year of departmental funding to support them to attend conferences, take their exams etc.

Kasia has completed this requirement.

10. FORMAL EXAMINATION REVIEW SESSIONS (CM 8.S):

An oncology RTP must provide at least 40 hours per year of intensive formal review sessions for residents/candidates on topics covered in the general and specialty examinations. Attending daily clinical rounds does not meet this requirement. The requirement could be met in part by attending an ACVIM advanced continuing education (ACE) course, by attending an ACVIM Forum, or formal resident review sessions at a Veterinary Cancer Society Annual Meeting.

Please provide an anticipated schedule of these formal reviews below. Annual documentation will be required.

For general board exam review, there is a weekly review session on Mondays 7-8am (approximately 40 hours/year). Residents are also given time off to attend the ACVIM forums following each exam.

For specialty exam review, in addition to the journal club requirements (see above), there is weekly or fortnightly oncology Book club, Friday 8-9am: The residents will be assigned to summarize and present to the chapters from veterinary and human oncology reference books from the reference book list for specialty boards. There is an exam at the end of each semester. This equates to roughly 20 hourly sessions annually or 60 hours over the course of the RTP. They are also given time off and encouraged to attend (and present) at oncology conferences..

While it may have no bearing on your program, the supervising Diplomate(s) and the resident are required to review the Certification Manual yearly. You may obtain a copy of the Certification Manual from the ACVIM website at www.ACVIM.org.

11. Have all supervising Diplomate(s) read the objectives for an oncology residency as outlined in the Certification Manual, Specialty of Oncology?

Yes No

If no, please explain:

12. The RA and PD should periodically evaluate the resident (required minimum of once every 6 months) and discuss the results of those evaluations with the resident. Either the RA or PD (or both) must be able to provide the Residency Training Committee with written summaries of those evaluations, if requested. The RTP may use the standardized evaluation form (provided by ACVIM) or a similar internal evaluation document. If an internal evaluation document is used, it must include discussion of the 8 core competencies outlined in the standardized form including patient care, medical knowledge, practice-based learning, interpersonal and communication skills, professionalism, didactic learning, clinical research and publication productivity, and teaching ability.

Does your program comply with these standards of resident evaluation?

Yes No

If no, please explain:

13. Please indicate the availability of the following facilities or equipment. Indicate if these are available at the primary training site, or at a different location. (In the Location column, indicate on-site for primary location or the name of the facility where the equipment is located if off-site.) For facilities that are not on-site or not available, please describe the situation, availability, or how the resident will gain experience with equipment not available in the space at the end of this section.

| | Available? (Y or N) | Location of equipment? (On-site or list site name) |
|---|------------------------|---|
| a) Radiography | Y | ON SITE |
| b) 24 hour emergency and critical care facility | Y | ON SITE |
| b) Ultrasonographic equipment | Y | ON SITE |
| c) Color flow/Doppler equipment | Y | ON SITE |
| d) Endoscopy equipment | Y | ON SITE |
| GI equipment | Y | ON SITE |
| Bronchoscopy | Y | ON SITE |
| Cystoscopy | Y | ON SITE |
| Rhinoscopy | Y | ON SITE |
| Laparoscopy | Y | ON SITE |
| e) Clinical Pathology capabilities: (includes CBC, serum chemistries, blood gases, urinalysis, Cytology, parasitology, microbiology, and endocrinology) | Y | ON SITE |
| f) Appropriate safety equipment for handling chemotherapy (briefly summarize what is available in the column Location of Equipment). | Y | CLASS II SAFETY CABINET, PHASEAL SYSTEM, STANDARD OPERATING PROCEDURES DOCUMENTS AVAILABLE FOR ALL CHEMOTHEAPY PROCEDURES AND EXTRAVASATION AND PPE |
| g) Nuclear Medicine | Y | ON SITE |
| h) Computed Tomography | Y | ON SITE |
| i) Magnetic Resonance Imaging | Y | ON SITE |
| j) Radiation Therapy Facility | Y | OFF SITE (ONCOVET IN FRANCE); SEE QUESTION 1. RADIOIODINE AVAILABLE ON SITE |

| | | |
|--|---|----------------------------|
| k) Intensive Care Facility – 24 hours | Y | ON SITE |
| l) Total parenteral nutrition capability | Y | ON SITE (MADE UP OFF SITE) |
| m) Computerized Medical Records w/Searching Capabilities | Y | ON SITE |

If any of the above equipment or facilities are available off-site, please explain how the resident can access them for case management, research, or study.

14. The resident should have access to a human or veterinary medical library with on-line searching capacity and at a minimum have access to all textbooks (current editions) and full text access to all journals on the current examination committee reading list **Note that on-line access to texts must be full-text not abstracts only**. This library should be available on-site or within a reasonable commuting distance (defined as within a 15 mile radius of the primary training site).

Please indicate how your resident can obtain access to the following textbooks/journals.

Comments: All journals are available via online subscriptions or at the RVC library except for "Clinical Cancer Research", "Nature Reviews: Cancer", and "Cancer Chemotherapy and Pharmacology;" this, in addition to other journals not available electronically, are available through interlibrary request (University of London or British Library).

17. Is there any additional pertinent information that the Residency Training Committee should consider in its evaluation of this training program?

Yes No

| | |
|-------------------------------------|--------------------------|
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |
|-------------------------------------|--------------------------|

Comments: Ana Lara will be stepping in to the role of Resident advisor for Kasia.

Please note, any Program Director or Candidate that significantly changes or alters this Residency Training Program before completion must notify ACVIM, in writing, before the changes are made to ensure that the proposed changes are approved.

Significant changes could include, but are not limited to:

- transferring from one program to another
- alterations in program duration
- switching to a 'dual board' program
- enrolling in an institutional graduate program
- change of Program Director or Resident Advisor

As Program Director, I verify that the above information is an accurate reflection of this Residency Training Program.

Per the Certification Manual, each year, the Program Director must certify to the RTC/ RTCC and ACVIM, in writing, that they have read the ACVIM Certification Manual and understands their role in residency training.

Checking this box is an indication I have read the ACVIM Certification Manual and understand my role in Residency Training Program.
