

Part One

New applications for ACVIM Residency Training Programs must be received by the Residency Training Committee (RTC) 90 days prior to any residents beginning training. Before completing this form, please review the general and specific requirements for Oncology Residency Training Programs in the ACVIM Certification Manual (CM). The current version of the CM is available on the ACVIM website at www.ACIVM.org.

Prior to making significant changes in a Residency Training Program, approval of the ACVIM and Oncology RTC must be obtained. The Candidate and/or Program Director must notify ACVIM, in writing before the changes are made to ensure that the proposed changes are approved. Significant changes could include, but are not limited to the following: changes in Program Director or any advisors, transferring from one program to another, alterations in program duration, locations of secondary site training, switching to a 'dual board' program, or enrolling in an institutional graduate program.

Notice: The data collected in this form is necessary both for the ACVIM to maintain its accreditation as a Registered Veterinary Specialty Organization and also is required for renewal of the residency training program. Some of the data collected is required of every specialty and some is specific to the specialty of Oncology.

For multi-site residency programs: To ensure uniformity of training and compliance with current CM requirements, training programs that include multiple sites must provide detailed information regarding supervision and facilities available at each specific site(s). Multi-site programs, if any, will be addressed by the Program Director in Part Two.

Program Director Name:

Must be an active Diplomate of ACVIM in the Specialty of Oncology

Program Director's Contact Information:

Work Phone:	<input type="text" value="(706) 206-7927"/>
E-mail:	<input type="text" value="northrup@uga.edu"/>
Mailing Address:	<input type="text" value="Department of Small Animal Medicine & Surgery
2200 College Station Road
Athens, GA 30602"/>

1. Location of Sponsoring Institution (Primary Site of Residency Training Program):

Primary Site:	Length of Training Program:
<input type="text" value="University of Georgia"/>	<input type="text" value="3 year"/>

2. Resident Advisor(s): Must be ACVIM Diplomate(s) in Oncology. There is no restriction on the number of Resident Advisors; however, **each Resident Advisor may supervise only two residents concurrently.**

<input type="text" value="Dawn Clarke
Travis Laver
Corey Saba
Nicole Northrup"/>
--

3. Supervising Diplomates: **There must be a minimum of two (2) ACVIM Oncology Diplomates per institution.**

<input type="text" value="Dawn Clarke - Oncology
Travis Laver - Oncology
Nicole Northrup - Oncology
Corey Saba - Oncology"/>
--

4. All onsite Diplomates of ACVIM responsible for supervision of clinical training who are specialists in areas other than Oncology.

Name and Specialty	Comments
<input type="text" value="Amanda Erickson - Cardiology
Gregg Rapoport - Cardiology
Michelle Barton - LAIM"/>	

Erin Beasley - LAIM Kelsey Hart - LAIM Marc Kent - Neurology & SAIM Renee Barber - Neurology Simon Platt - Neurology Joe Bartges - SAIM Andrew Bugbee - SAIM Tracy Hill - SAIM Amie Koenig - SAIM Joanne Smith - SAIM Cynthia Ward - SAIM	
---	--

5. Residents currently enrolled in the training program, along with the beginning date of the program, expected ending date of the program, and designated resident advisor.

Resident Name	Start date (mm/dd/yyyy)	End Date (mm/dd/yyyy)	Resident Advisor Name*
Ben Lee	7/15/17	7/14/20	Travis Laver
Brittany Feldhauesser	7/15/18	7/14/21	Nicole Northrup

RESIDENCY TRAINING PROGRAM REGISTRATION
2019-2020
ONCOLOGY

Part Two

Part Two of the Oncology Residency Training registration and renewal process addresses general features of the program that apply to all current residents. These questions will be used to provide the Oncology Residency Training Committee with information needed to judge the structure, quality, scope, and consistency of training provided.

Current Date:

Program Director Name:

(Must be a Diplomate of ACVIM in the Specialty of Oncology)

Name of Sponsoring Institution (Residency Training Program):

1. For residency programs with off-site rotations (required rotations not available at the primary institution/site): To ensure uniformity of training and compliance with current Certification Manual (CM) requirements, training programs that include off-site rotations must provide detailed information regarding supervision and facilities available at each specific site(s).

Outside Rotation(s) (if applicable): Please attach signed Training Agreement Form from all institutions providing off-site training of oncology residents to this registration form. Each Training Agreement Form should specify the number of weeks scheduled at each site and the rotation requirement met. **Training Agreement Forms must be submitted annually WITH program renewal forms and WITH each new program request.**

In the box provided below, list the outside rotations for which you are attaching Training Agreement Forms. Please include in the space below the specific information regarding the number of weeks scheduled at each site and which rotation requirements shall be met at each site:

2. Type of Training Program:

Traditional 3 years	<input checked="" type="checkbox"/>
Non-traditional (Length in years)	Not applicable
For non-traditional programs, please provide details. Note that programs must be at least 3 years (156 weeks) in length.	Not applicable

3. Advanced Degree:

	Yes	No	Optional
Masters:	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
PhD:	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Required for residency certificate: Yes No

Comments:

4. ONCOLOGY DIPLOMATES (CM 8.G.4)

There must be a **minimum of two (2) ACVIM Oncology Diplomates** at the primary training site of the residency for an Oncology RTP to be approved or to maintain approval. Please list the ACVIM Oncology Diplomates and their site of activity.

Name of Oncology Diplomates	Location
Dawn Clarke Travis Laver Nicole Northrup Corey Saba	All on-site at UGA

5. SUPPORTING DISCIPLINES REQUIRED

There must be an **ACVIM SAIM Diplomate** with $\geq 50\%$ FTE at the primary training site of the residency for an Oncology RTP to be approved or to maintain approval (CM 8.U.3). At least **four weeks** (completed in at least two consecutive week blocks) of training under the direct supervision by an ACVIM Small Animal Internal Medicine (SAIM) Diplomate are required.

Please list the ACVIM SAIM Diplomate(s) who will fulfill this requirement for the RTP.

Name of SAIM Diplomate(s)	Location
Joe Bartges Andrew Bugbee Tracy Hill Jo Smith Cindi Ward	All on-site at UGA

There must be an **ACVS Surgery Diplomate** with $\geq 50\%$ FTE at the primary training site of the residency for an Oncology RTP to be approved or to maintain approval (CM 8.U.3).

Please list the ACVS Surgery Diplomate(s) who will fulfill this requirement for the RTP.

Name of ACVS Diplomate(s)	Location
Steve Budsberg Kevin Clarke Janet Grimes Spencer Johnston Tony Puglisi Chad Schmiedt Mandy Wallace	All on-site at UGA

6. CLINICAL TRAINING IN OTHER SPECIALTIES: REQUIRED AFFILIATED ROTATIONS (CM 8.M)

Because oncology is a multimodal discipline, the resident must also have clinical training under the direct supervision of Supervising Diplomates in other disciplines. This contact may occur at a secondary training site.

A minimum of 32 weeks must be spent actively receiving patients in affiliated rotations or meeting requirements through rounds. For each off-site rotation included in the 32 weeks of clinical training in other specialties, the resident should obtain written approval from their Resident Advisor, who will forward documentation of this approval to the RTCC.

6a. RADIATION ONCOLOGY REQUIREMENTS (CM 8.M.1):

At least **eight weeks** of direct supervision is required with a veterinary radiation oncologist to develop an understanding of clinical management of patients receiving radiation therapy, radiation planning, dosimetry, and physics related to clinical radiation therapy.

Please list all DACVR-RO diplomates responsible for training in radiation oncology. Describe how Diplomates are involved in the supervision of residents and how direct contact in radiation oncology training will be fulfilled. Radiation oncology rotations must be completed in blocks of at least two consecutive weeks in length.

Name of Diplomat(e)s	Site	Role in training residents
Koichi Nagata	On-site at UGA	<p>Our residents complete a minimum of 8 weeks of direct supervision training with the radiation oncologist. In addition, our residents work directly with or consult with the radiation oncologist on a daily basis. We are an integrated service so residents see referral cases for radiation therapy and manage these cases year round.</p> <p>Regarding rounds, the radiation oncologist leads weekly radiation patient rounds and participates in weekly resident rounds/journal club. He may also be involved with supervision of resident research projects/publications.</p> <p>Our Varian Trilogy linear accelerator and treatment planning system are on-site and our residents participate in treatment planning during their direct contact radiation oncology time.</p>

6b. PATHOLOGY REQUIREMENTS (8.M.1):

At least **two weeks** (may be met through weekly/biweekly rounds) of direct supervision with a **clinical pathologist** are required.

Please list all **Diplomates of the American College of Veterinary Pathology** in clinical pathology associated with residency training. Describe how Diplomates are involved in the supervision of residents and how direct contact requirements (must be in person, not videoconference) in clinical pathology will be met.

Name of Diplomat(e)s	Site	Role in training residents
Melinda Camus Bridget Garner Kristina Meichner Jamie Tarigo	All on-site at UGA	Our residents complete a minimum of 1 week of direct supervision training in clinical pathology with these diplomates. In addition, they participate in weekly 1-hour clinical pathology rounds and consult with the clinical pathologists as needed (daily).

At least **two weeks** (may be met through weekly/biweekly rounds) of direct supervision with an **anatomic (surgical) pathologist** are required.

Please list all **Diplomates of the American College of Veterinary Pathology** in anatomic (surgical) pathology associated with residency training. Describe how Diplomates are involved in the supervision of residents and how direct contact requirements (must be in person, not videoconference) in anatomic pathology will be met.

Name of Diplomat(e)s	Site	Role in training residents
Elizabeth Howerth Kaori Sakamoto James Stanton Elizabeth Uhl	All on-site at UGA	Our residents complete a minimum of 40 hours direct supervision training in surgical histopathology with these diplomates. In addition, they attend weekly 1-hour surgical histopathology

		rounds and consult with both the anatomic pathologists as needed (multiple times per week).
--	--	---

6c. DIAGNOSTIC IMAGING REQUIREMENTS (8.M.1):

At least **two consecutive weeks** of **diagnostic imaging** under direct supervision by a board-certified radiologist are required in addition to any interactions during case rounds.

Please list all Diplomates of the **American College of Veterinary Radiology (not including radiation oncology)** associated with residency training. Describe how Diplomates are involved in the supervision of residents and how direct contact requirements (must be in person, not videoconference) in radiology will be met.

Name of Diplomat(e)s	Site	Role in training residents
Karine Gendron Mason Savage (Mondays) Scott Seacrest Ajay Sharma	All on-site at UGA	Our residents complete a minimum of 2 weeks of direct supervision training in diagnostic imaging with these diplomates. In addition, our residents consult with the radiologists on a daily basis.

6d. OTHER REQUIRED ROTATIONS (8.M.2):

Fourteen weeks of other rotations with an ACVIM Diplomat in the Specialty of Oncology, or training under the supervision of a member of an American Board of Veterinary Specialties (ABVS) or European Board of Veterinary Specialization (EBVS) approved specialty (such as, but not limited to, the American College of Veterinary Radiology, the American College of Veterinary Radiology (Radiation Oncology), American or European College of Veterinary Neurology, the American College of Veterinary Pathology, ACVS, or ACVECC). Rotations must be completed in at least two consecutive week blocks (unless otherwise specified in the CM.)

Please list the other ACVIM diplomates not previously listed or other non-ACVIM diplomates that will be involved with resident training available for consultation in these areas. Describe how Diplomates are involved in the supervision of residents and their contribution to direct contact requirements in affiliated specialties.

Name of Diplomates	Specialty/College	Site	Role in training residents
Micaela Austel Frane Bannovic Janet Grimes Chad Schmiedt Mandy Wallace Steven Budsberg Kevin Clarke Spencer Johnston Tony Puglisi Sarah Czerwinski Katie Diehl Kate Myrna Mike Barletta Jane Quandt Rachel Reed Daniel Sakai Benjamin Brainard Jennifer Good Amie Koenig Selena Lane Robyn Ellerbrock Maria Ferrer	ACVD ACVD ACVS ACVS ACVS ACVS ACVS ACVS ACVS ACVO ACVO ACVO ACVA ACVA/ACVECC ACVA ACVA ACVECC/ACVA ACVECC ACVECC/ACVIM ACVECC ACT (theriogenology) ACT (theriogenology)	All on-site at UGA	Consultations, co-management of cases, rounds participation

7. FORMAL STRUCTURED RESEARCH (CM 8.0):

The resident is expected to actively participate in a laboratory or clinical investigative research project during the residency. A minimum of **eight weeks** (320 hours) of an oncology residency should be dedicated to this aspect of training. Research time should be scheduled as either weekly time (hours per week) or in blocks of time sufficient to complete the research, perform data analysis, and prepare a manuscript for publication by the third year of their residency (see Recommended Milestones in CM 8.G 6-8). This experience must be documented, with dates, and signed by the Supervising Diplomate.

Please explain how your residency program complies with the research guidelines outlined above.

Under the guidance of the oncologists and/or other faculty working in cancer research, our residents design, conduct, and complete a clinical and/or basic science research project related to oncology. In addition, they present the data at a national meeting and submit a written manuscript to a refereed scientific journal. Residents have a minimum of 12 weeks of scheduled research time.

For Board-certification in oncology, the resident must have a minimum of one major first author publication in the field of oncology published or accepted for publication in a refereed scientific or peer-reviewed journal. A literature review or case report is not acceptable. Please describe how this program supports this requirement for publication. (See CM 8.F.5)

As described above, the resident research project culminates in the publication of a manuscript in a refereed scientific journal.

8. JOURNAL CLUB (CM 8.P):

An organized and routinely scheduled journal club of at least 80 hours over the course of the RTP must be an integral part of all oncology resident training. Journal Club must be attended and supervised by a Supervising Diplomate. The RTP application requires a schedule of proposed Journal Club for Oncology RTCC approval.

Please explain how your residency program complies with the journal club guidelines outlined above, and include a schedule for this requirement, including number of proposed meetings and duration of each meeting.

Weekly oncology resident rounds/journal club. Three weeks of the month involve veterinary-focused articles; an article from a refereed scientific journal relevant to veterinary oncology is reviewed and discussed. Relevant associated literature is reviewed with a powerpoint presentation so that a review of clinical information or tumor biology is part of the discussion. The fourth week is more comparative or translational in nature and includes review of an article from the human literature with an extensive review of an associated topic. These involve discussions of tumor and cell biology, molecular techniques, carcinogenesis, chemotherapy theory, biostatistics/study design, radiation biology, cancer immunity, novel therapies, etc. The residents divide these presentations through the year and all resident supervisors attend and contribute to the discussion.

9. SEMINAR OR LECTURE SERIES AND FORMAL CONFERENCES (CM 8.Q, 8.R):

Residents must attend formal teaching conferences in oncology and related disciplines throughout the residency. Unless these are formal lectures or classes, an Oncology Supervising Diplomate supervises the conferences, which should occur an average of **four times per month**. Examples of these are clinical pathology conferences, resident seminars, grand rounds sessions, and tumor biology classes. Conferences given within a veterinary practice or hospital or at a medical school or medical teaching hospital are acceptable. Please include includes the format and schedule of these conferences and presentations, which directly pertain to training in Oncology and give specific details given on a daily, weekly, or monthly basis.

1. Weekly cytology rounds. These are lead by clinical pathologists who discuss a general approach to cytologic diagnosis and present relevant cytologic specimens. The residents participate in these rounds and provide the clinical case information relevant to the slides evaluated.
2. Weekly surgical pathology rounds. These are lead by the anatomic pathology residents and faculty, who present histopathology from surgical pathology samples from the week. Oncology clinicians provide clinical information and we discuss cases. Residents and faculty participate in these rounds.
3. Biannual surgical-oncology rounds. These are discussions of surgical oncologic principles, review of articles, and morbidity & mortality rounds. The residents participate in these rounds and lead the discussion once or twice each year. These rounds did not happen last year, but are being reinstated.
4. Science of veterinary medicine day at the University of Georgia, College of Veterinary Medicine. Residents present their research at least once during the residency and attend keynote speaker talks when relevant.
5. Special seminars from other departments and presentations by speakers brought in from other institutions. Residents are encouraged to attend these seminars when applicable to veterinary oncology.
6. Daily patient rounds in oncology. Includes residents, faculty, and students.

7. Daily topic rounds in oncology. Residents participate in these rounds and lead them on occasion.
8. Note: our tumor biology reviews are incorporated into the weekly oncology resident rounds/journal club. We cover a tumor biology topic at least once every 4 weeks (often more frequently). All supervising diplomates participate in these rounds.

The resident must give a formal presentation at such a conference at least once per year. Documentation of these presentations must be included in the oncology credentials packet of the resident.

Please list all opportunities offered to and/or required of the resident for attendance and/or giving formal presentations at local, regional, state, or national meetings. Indicate whether the resident will attend or present at these meetings (CM 8.Q).

1. Residents present the results of their research at either VCS or ACVIM at least once during the residency.
2. Residents present at Grand Rounds once each year.
3. Residents present at ACVIM rounds twice each year.
4. Residents are encouraged to present at local continuing education conferences should the opportunity arise. In 2018, all residents presented at the South Georgia VMA meeting and our 3rd year resident presented at a UGA CE program for regional veterinarians.

Residents must attend at least one state, regional, national, or international veterinary or human medical continuing education conference during their residency. Please list opportunities offered to and/or required of the resident for attendance

1. Veterinary Cancer Society Annual Conference. Our residents attend yearly.
2. ACVIM. Our residents attend only when sitting the general and specialty examinations.
3. Residents present the results of their research at either VCS or ACVIM at least once during the residency.

10. FORMAL EXAMINATION REVIEW SESSIONS (CM 8.S):

An oncology RTP must provide at least 40 hours per year of intensive formal review sessions for residents/candidates on topics covered in the general and specialty examinations. Attending daily clinical rounds does not meet this requirement. The requirement could be met in part by attending an ACVIM advanced continuing education (ACE) course, by attending an ACVIM Forum, or formal resident review sessions at a Veterinary Cancer Society Annual Meeting.

Please provide an anticipated schedule of these formal reviews below. Annual documentation will be required.

1. Weekly ACVIM board preparation rounds for all ACVIM specialty residents, covering topics geared toward the general exam and specialty topics. The residents present 1-2 times per year. Supervising diplomates present topics once each year.
 2. Our weekly resident rounds/journal club is designed to review tumor biology/basic science and clinical topics for boards.
 3. Residents attend the VCS resident review each year.
- *We plan to require that residents and supervising diplomates complete the ACVIM Science of Oncology Course as part of their training once it is available.*

While it may have no bearing on your program, the supervising Diplomat(s) and the resident are required to review the Certification Manual yearly. You may obtain a copy of the Certification Manual from the ACVIM website at www.ACVIM.org.

11. Have all supervising Diplomat(s) read the objectives for an oncology residency as outlined in the Certification Manual, Specialty of Oncology?

Yes	No
<input checked="" type="checkbox"/>	<input type="checkbox"/>

If no, please explain:

--

12. The RA and PD should periodically evaluate the resident (required minimum of once every 6 months) and discuss the results of those evaluations with the resident. Either the RA or PD (or both) must be able to provide the Residency Training Committee with written summaries of those evaluations, if requested. The RTP may use the standardized evaluation form (provided by ACVIM) or a similar internal evaluation document. If an internal evaluation document is used, it must include discussion of the 8 core competencies

outlined in the standardized form including patient care, medical knowledge, practice-based learning, interpersonal and communication skills, professionalism, didactic learning, clinical research and publication productivity, and teaching ability.

Does your program comply with these standards of resident evaluation?

Yes No

If no, please explain:

13. Please indicate the availability of the following facilities or equipment. Indicate if these are available at the primary training site, or at a different location. (In the Location column, indicate on-site for primary location or the name of the facility where the equipment is located if off-site.) For facilities that are not on-site or not available, please describe the situation, availability, or how the resident will gain experience with equipment not available in the space at the end of this section.

	Available? (Y or N)	Location of equipment? (On-site or list site name)
a) Radiography	Y	On-site
b) 24 hour emergency and critical care facility	Y	On-site
b) Ultrasonographic equipment	Y	On-site
c) Color flow/Doppler equipment	Y	On-site
d) Endoscopy equipment	Y	On-site
GI equipment	Y	On-site
Bronchoscopy	Y	On-site
Cystoscopy	Y	On-site
Rhinoscopy	Y	On-site
Laparoscopy	Y	On-site
e) Clinical Pathology capabilities: (includes CBC, serum chemistries, blood gases, urinalysis, Cytology, parasitology, microbiology, and endocrinology)	Y	On-site
f) Appropriate safety equipment for handling chemotherapy (briefly summarize what is available in the column Location of Equipment).	Y	Chemotherapy is prepared by pharmacists and pharmacy technicians in a compounding aseptic containment isolator (CACI) in our pharmacy. The CACI is in a negative pressure buffer room that is vented outside. Between the buffer room and the hospital is an ante-room that is negative pressure to the hospital and positive pressure to the buffer room. PhaSeal closed system transfer devices are used for preparation and administration of chemotherapy. Chemotherapy is administered in a room dedicated for this purpose by trained technicians. Technicians wear personal protective equipment (gowns, gloves, glasses/goggles). Chemotherapy sharps and nonsharps disposal containers are used and disposal is through a company certified to manage chemotherapy waste.
g) Nuclear Medicine	Y	On-site
h) Computed Tomography	Y	On-site
i) Magnetic Resonance Imaging	Y	On-site
j) Radiation Therapy Facility	Y	On-site
k) Intensive Care Facility – 24 hours	Y	On-site

l) Total parenteral nutrition capability	Y	On-site
m) Computerized Medical Records w/Searching Capabilities	Y	On-site

If any of the above equipment or facilities are available off-site, please explain how the resident can access them for case management, research, or study.

Not applicable

14. The resident should have access to a human or veterinary medical library with on-line searching capacity and at a minimum have access to all textbooks (current editions) and full text access to all journals on the current examination committee reading list **Note that on-line access to texts must be full-text not abstracts only**). This library should be available on-site or within a reasonable commuting distance (defined as within a 15 mile radius of the primary training site).

Please indicate how your resident can obtain access to the following textbooks/journals.

Comments:

Please note, any Program Director or Candidate that significantly changes or alters this Residency Training Program before completion must notify ACVIM, in writing, before the changes are made to ensure that the proposed changes are approved.

Significant changes could include, but are not limited to:

- transferring from one program to another
- alterations in program duration
- switching to a 'dual board' program
- enrolling in an institutional graduate program
- change of Program Director or Resident Advisor

As Program Director, I verify that the above information is an accurate reflection of this Residency Training Program.

Per the Certification Manual, each year, the Program Director must certify to the RTC/ RTCC and ACVIM, in writing, that they have read the ACVIM Certification Manual and understands their role in residency training.

Checking this box is an indication I have read the ACVIM Certification Manual and understand my role in Residency Training Program.
