

Part One

New applications for ACVIM Residency Training Programs must be received by the Residency Training Committee (RTC) 90 days prior to any residents beginning training. Before completing this form, please review the general and specific requirements for Oncology Residency Training Programs in the ACVIM Certification Manual (CM). The current version of the CM is available on the ACVIM website at www.ACIVM.org.

Prior to making significant changes in a Residency Training Program, approval of the ACVIM and Oncology RTC must be obtained. The Candidate and/or Program Director must notify ACVIM, in writing before the changes are made to ensure that the proposed changes are approved. Significant changes could include, but are not limited to the following: changes in Program Director or any advisors, transferring from one program to another, alterations in program duration, locations of secondary site training, switching to a 'dual board' program, or enrolling in an institutional graduate program.

Notice: The data collected in this form is necessary both for the ACVIM to maintain its accreditation as a Registered Veterinary Specialty Organization and also is required for renewal of the residency training program. Some of the data collected is required of every specialty and some is specific to the specialty of Oncology.

For multi-site residency programs: To ensure uniformity of training and compliance with current CM requirements, training programs that include multiple sites must provide detailed information regarding supervision and facilities available at each specific site(s). Multi-site programs, if any, will be addressed by the Program Director in Part Two.

Program Director Name:

Must be an active Diplomate of ACVIM in the Specialty of Oncology

Program Director's Contact Information:

Work Phone:	<input type="text" value="(306) 966-6168"/>
E-mail:	<input type="text" value="valerie.macdonald@usask.ca"/>
Mailing Address:	<input type="text" value="Western College of Veterinary Medicine
52 Campus Drive
Saskatoon SK S7N 5B4
Canada"/>

1. Location of Sponsoring Institution (Primary Site of Residency Training Program):

Primary Site:	Length of Training Program:
<input type="text" value="University of Saskatchewan"/>	<input type="text" value="3 year"/>

2. Resident Advisor(s): Must be ACVIM Diplomate(s) in Oncology. There is no restriction on the number of Resident Advisors; however, **each Resident Advisor may supervise only two residents concurrently.**

<input type="text" value="Jerome Gagnon
Valerie MacDonald-Dickinson"/>
--

3. Supervising Diplomates: **There must be a minimum of two (2) ACVIM Oncology Diplomates per institution.**

<input type="text" value="Jerome Gagnon - Oncology
Valerie MacDonald-Dickinson - Oncology"/>
--

4. All onsite Diplomates of ACVIM responsible for supervision of clinical training who are specialists in areas other than Oncology.

Name and Specialty	Comments
<input type="text" value="Chris Clark - LAIM
Patricia Dowling - LAIM
Katharina Lohmann - LAIM
Julia Montgomery - LAIM
Danielle Zwueste - Neurology"/>	

Anthony Carr - SAIM Kevin Cosford - SAIM Elisabeth Snead - SAIM Cheryl Vargo - SAIM	
--	--

5. Residents currently enrolled in the training program, along with the beginning date of the program, expected ending date of the program, and designated resident advisor.

Resident Name	Start date (mm/dd/yyyy)	End Date (mm/dd/yyyy)	Resident Advisor Name*
Charles Boisclair	7/15/18	6/30/21	Valerie McDonald-Dickinson

RESIDENCY TRAINING PROGRAM REGISTRATION
2019-2020
ONCOLOGY

Part Two

Part Two of the Oncology Residency Training registration and renewal process addresses general features of the program that apply to all current residents. These questions will be used to provide the Oncology Residency Training Committee with information needed to judge the structure, quality, scope, and consistency of training provided.

Current Date:

Program Director Name:

(Must be a Diplomate of ACVIM in the Specialty of Oncology)

Name of Sponsoring Institution (Residency Training Program):

1. For residency programs with off-site rotations (required rotations not available at the primary institution/site): To ensure uniformity of training and compliance with current Certification Manual (CM) requirements, training programs that include off-site rotations must provide detailed information regarding supervision and facilities available at each specific site(s).

Outside Rotation(s) (if applicable): Please attach signed Training Agreement Form from all institutions providing off-site training of oncology residents to this registration form. Each Training Agreement Form should specify the number of weeks scheduled at each site and the rotation requirement met. **Training Agreement Forms must be submitted annually WITH program renewal forms and WITH each new program request.**

In the box provided below, list the outside rotations for which you are attaching Training Agreement Forms. Please include in the space below the specific information regarding the number of weeks scheduled at each site and which rotation requirements shall be met at each site:

2. Type of Training Program:

Traditional 3 years	<input checked="" type="checkbox"/>
Non-traditional (Length in years)	
For non-traditional programs, please provide details. Note that programs must be at least 3 years (156 weeks) in length.	

3. Advanced Degree:

	Yes	No	Optional
Masters:	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
PhD:	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Required for residency certificate: Yes No

Comments: Residents are enrolled in graduate coursework at the WCVM on average one to two half days (approximately 2-4 hours per week) each week for the duration of their residency. During scheduled class times they are not scheduled to receive clinical cases. However, because the classes begin at 8am and end at 10am, the resident will see cases after class. Coursework is designed to be helpful in ACVIM Boards preparation and review. Residents also design and perform a small research project with supervision and prepare the results for publication. They also sit an oral examination on their project and on general Oncology topics during their third year. This is a non-thesis Masters of Science degree.

4. ONCOLOGY DIPLOMATES (CM 8.G.4)

There must be a **minimum of two (2) ACVIM Oncology Diplomates** at the primary training site of the residency for an Oncology RTP to be approved or to maintain approval. Please list the ACVIM Oncology Diplomates and their site of activity.

Name of Oncology Diplomates	Location
Valerie MacDonald-Dickinson	WCVM
Jerome Gagnon	WCVM

5. SUPPORTING DISCIPLINES REQUIRED

There must be an **ACVIM SAIM Diplomate** with $\geq 50\%$ FTE at the primary training site of the residency for an Oncology RTP to be approved or to maintain approval (CM 8.U.3). At least **four weeks** (completed in at least two consecutive week blocks) of training under the direct supervision by an ACVIM Small Animal Internal Medicine (SAIM) Diplomate are required. Please list the ACVIM SAIM Diplomate(s) who will fulfill this requirement for the RTP.

Name of SAIM Diplomate(s)	Location
Anthony Carr	WCVM
Kevin Cosford	WCVM
Cheryl Vargo	WCVM
Elizabeth Snead	WCVM

There must be an **ACVS Surgery Diplomate** with $\geq 50\%$ FTE at the primary training site of the residency for an Oncology RTP to be approved or to maintain approval (CM 8.U.3).

Please list the ACVS Surgery Diplomate(s) who will fulfill this requirement for the RTP.

Name of ACVS Diplomate(s)	Location
Cindy Shmon	WCVM
Kathleen Linn	WCVM

6. CLINICAL TRAINING IN OTHER SPECIALTIES: REQUIRED AFFILIATED ROTATIONS (CM 8.M)

Because oncology is a multimodal discipline, the resident must also have clinical training under the direct supervision of Supervising Diplomates in other disciplines. This contact may occur at a secondary training site.

A minimum of 32 weeks must be spent actively receiving patients in affiliated rotations or meeting requirements through rounds. For each off-site rotation included in the 32 weeks of clinical training in other specialties, the resident should obtain written approval from their Resident Advisor, who will forward documentation of this approval to the RTCC.

6a. RADIATION ONCOLOGY REQUIREMENTS (CM 8.M.1):

At least **eight weeks** of direct supervision is required with a veterinary radiation oncologist to develop an understanding of clinical management of patients receiving radiation therapy, radiation planning, dosimetry, and physics related to clinical radiation therapy.

Please list all DACVR-RO diplomates responsible for training in radiation oncology. Describe how Diplomates are involved in the supervision of residents and how direct contact in radiation oncology training will be fulfilled. Radiation oncology rotations must be completed in blocks of at least two consecutive weeks in length.

Name of Diplomat(e)s	Site	Role in training residents
Monique Mayer	WCVN	daily contact with resident, case consultation, radiation biology rounds/didactic course

6b. PATHOLOGY REQUIREMENTS (8.M.1):

At least **two weeks** (may be met through weekly/biweekly rounds) of direct supervision with a **clinical pathologist** are required.

Please list all **Diplomates of the American College of Veterinary Pathology** in clinical pathology associated with residency training. Describe how Diplomates are involved in the supervision of residents and how direct contact requirements (must be in person, not videoconference) in clinical pathology will be met.

Name of Diplomat(e)s	Site	Role in training residents
Ryan Dickinson	WCVN	Consultation on cases, cytology rounds, bone marrow lab, surgical biopsy cases, leads Oncology Pathology rounds
Nicole Fernandez	WCVN	Consultation on cases, cytology rounds
Melissa Meachem	WCVN	Consultation on cases, cytology rounds
Sherry Myers	WCVN	Consultation on cases, cytology rounds
Hilary Burgess	WCVN	Consultation on cases, cytology rounds, teaches 40 hour didactic course
Lilani Munasinghe	WCVN	Consultation on cases, cytology rounds

At least **two weeks** (may be met through weekly/biweekly rounds) of direct supervision with an **anatomic (surgical) pathologist** are required.

Please list all **Diplomates of the American College of Veterinary Pathology** in anatomic (surgical) pathology associated with residency training. Describe how Diplomates are involved in the supervision of residents and how direct contact requirements (must be in person, not videoconference) in anatomic pathology will be met.

Name of Diplomat(e)s	Site	Role in training residents
Helene Philibert	WCVN	Consultation on cases, biopsy and necropsy rounds, leads Onc/Path rounds
Bruce Wobeser	WCVN	Consultation on cases, biopsy and necropsy rounds
Elemir Simko	WCVN	Consultation on cases, biopsy and necropsy rounds
Enrique Aburto	WCVN	Consultation on cases, biopsy and necropsy rounds
Yanyun Huang	WCVN	Consultation on cases, biopsy and necropsy rounds

Soraya Sari	WCVM	Consultation on cases, biopsy and necropsy rounds
-------------	------	---

6c. DIAGNOSTIC IMAGING REQUIREMENTS (8.M.1):

At least **two consecutive weeks** of **diagnostic imaging** under direct supervision by a board-certified radiologist are required in addition to any interactions during case rounds.

Please list all Diplomates of the **American College of Veterinary Radiology (not including radiation oncology)** associated with residency training. Describe how Diplomates are involved in the supervision of residents and how direct contact requirements (must be in person, not videoconference) in radiology will be met.

Name of Diplomat(e)s	Site	Role in training residents
Gregg Starrak	WCVM	case consults, clinical teaching, rounds and didactic radiology course
Lesley Zwicker	WCVM	case consults, clinical teaching, rounds and didactic radiology course
Sally Sukut	WCVM	case consults, clinical teaching, rounds and didactic radiology course

6d. OTHER REQUIRED ROTATIONS (8.M.2):

Fourteen weeks of other rotations with an ACVIM Diplomat in the Specialty of Oncology, or training under the supervision of a member of an American Board of Veterinary Specialties (ABVS) or European Board of Veterinary Specialization (EBVS) approved specialty (such as, but not limited to, the American College of Veterinary Radiology, the American College of Veterinary Radiology (Radiation Oncology), American or European College of Veterinary Neurology, the American College of Veterinary Pathology, ACVS, or ACVECC). Rotations must be completed in at least two consecutive week blocks (unless otherwise specified in the CM.)

Please list the other ACVIM diplomates not previously listed or other non-ACVIM diplomates that will be involved with resident training available for consultation in these areas. Describe how Diplomates are involved in the supervision of residents and their contribution to direct contact requirements in affiliated specialties.

Name of Diplomates	Specialty/College	Site	Role in training residents
Adrien Aertsens	ECVS	WCVM	Surgical consult with interest in oncology
Candace Grier-Lowe	AVDC	WCVM	Dentistry consult, oral tumors
Al Chicoine	ACVCP	WCVM	Clinical pharmacology consult
Tanya Duke	ECVA	WCVM	Anesthesia consult, pain management
Barbara Ambros	ACVA, ECVA	WCVM	Anesthesia consult, pain management
Shannon Beazley	ACVA	WCVM	Anesthesia consult, pain management
Kerrie Lewis	ACVA	WCVM	Anesthesia consult, pain management
Bianca Bauer	ACVO	WCVM	Ophthalmology consult, refer cases
Lynne Sandmeyer	ACVO	WCVM	Ophthalmology consult, refer cases
Marina Leis	ACVO	WCVM	Ophthalmology consult, refer cases
Tammy Owens	ACVN	WCVM	Nutrition consults
Jennifer Loewen	ACVECC	WCVM	Critical care/ICU consult, pain management
Alison Foster	ACVD	WCVM	Dermatology consult, refer cases

Melanie Craven	ECVIM	WCVM	internal medicine consultation
----------------	-------	------	--------------------------------

7. FORMAL STRUCTURED RESEARCH (CM 8.O):

The resident is expected to actively participate in a laboratory or clinical investigative research project during the residency. A minimum of **eight weeks** (320 hours) of an oncology residency should be dedicated to this aspect of training. Research time should be scheduled as either weekly time (hours per week) or in blocks of time sufficient to complete the research, perform data analysis, and prepare a manuscript for publication by the third year of their residency (see Recommended Milestones in CM 8.G 6-8). This experience must be documented, with dates, and signed by the Supervising Diplomate.

Please explain how your residency program complies with the research guidelines outlined above.

Within our 3 year graduate program, residents have 12 weeks per year "off clinics". A large proportion of this time is meant to be used for their research project. As stated above, the resident will be enrolled in a Masters of Science degree (non-thesis). As a requirement for this degree, residents must design and perform a small research project with supervision and prepare the results for publication. The time off clinics is usually scheduled in blocks of time (at least 2 consecutive weeks) to allow enough time to focus on the project, including performing a research in the area, writing/submitting a grant for funding, collecting data, time in the laboratory if required and writing the manuscript for publication and preparing their oral defense.

For Board-certification in oncology, the resident must have a minimum of one major first author publication in the field of oncology published or accepted for publication in a refereed scientific or peer-reviewed journal. A literature review or case report is not acceptable. Please describe how this program supports this requirement for publication. (See CM 8.F.5)

In addition to the required manuscript for publication needed for the Masters of Science degree (as described above) we strongly encourage other publications, such as retrospective studies, during the 3 years of the residency in addition to this required project and manuscript that must be suitable for publication in a peer reviewed journal.

8. JOURNAL CLUB (CM 8.P):

An organized and routinely scheduled journal club of at least 80 hours over the course of the RTP must be an integral part of all oncology resident training. Journal Club must be attended and supervised by a Supervising Diplomate. The RTP application requires a schedule of proposed Journal Club for Oncology RTCC approval.

Please explain how your residency program complies with the journal club guidelines outlined above, and include a schedule for this requirement, including number of proposed meetings and duration of each meeting.

Oncology journal club is held once weekly on Wednesday mornings at 8:00am for 1 hour. A minimum of 2 journal articles are presented and discussed by the group. Both diplomates are in attendance and supervise the discussion. Journal club is held from the first week of DVM classes (end of August) until 6 weeks prior to ACVIM Forum (board examinations) and may sporadically be held during the summer months.

2019-20 schedule

Wednesday, August 28, 2019 and weekly thereafter until Wednesday, April 15, 2020 except for October 16 (VCS week) and December 25 and January 1 (Christmas break) for a total of 32 weeks (hours). Depending on vacation time, etc. we may hold additional journal clubs during the summer months with a less stringent schedule.

9. SEMINAR OR LECTURE SERIES AND FORMAL CONFERENCES (CM 8.Q, 8.R):

Residents must attend formal teaching conferences in oncology and related disciplines throughout the residency. Unless these are formal lectures or classes, an Oncology Supervising Diplomate supervises the conferences, which should occur an average of **four times per month**. Examples of these are clinical pathology conferences, resident seminars, grand rounds sessions, and tumor biology classes. Conferences given within a veterinary practice or hospital or at a medical school or medical teaching hospital are acceptable.

Please include includes the format and schedule of these conferences and presentations, which directly pertain to training in Oncology and give specific details given on a daily, weekly, or monthly basis.

The residents attend Clinical Pathology rounds once weekly. The majority of cases seen are cytologies from various cancers. Surgical biopsy rounds are offered once weekly as well as necropsy rounds that occur at least twice weekly, depending on cases available. Oncology/Pathology rounds occur once monthly with both Diplomates in attendance and both clinical and anatomic pathologists. Once weekly seminars (grand rounds) are presented during the year by interns and residents and cover a variety

of medical and surgical topics. Surgical Oncology rounds take place weekly where the residents will present cases and the best treatment options for the patient will be discussed. In addition, once a month we do an in-depth review of a particular case of various types of tumors to discuss with the surgeons. M&M rounds are held approximately once or twice a month for the entire hospital. Pathology seminar is held once weekly on Thursdays at 12:30pm. We also have access to attending weekly grand rounds at the Saskatoon Cancer Center at the Royal University Hospital on campus

The resident must give a formal presentation at such a conference at least once per year. Documentation of these presentations must be included in the oncology credentials packet of the resident.

Please list all opportunities offered to and/or required of the resident for attendance and/or giving formal presentations at local, regional, state, or national meetings. Indicate whether the resident will attend or present at these meetings (CM 8.Q).

The oncology resident must present at Grand Rounds at least once per year for each year of the residency. Depending on the number of residents and interns, it is possible that the resident may give 2 presentations within each year. These grand rounds are accepted as scientific continuing education by the Saskatchewan Veterinary Medical Association (SVMA – provincial licensing board).

As part of their graduate course work, with the course “Advanced Small Animal Oncology”, the resident must present 3 lectures to the 3rd year students within the Oncology Elective.

We encourage submitting abstracts to VCS and/or ACVIM for oral/poster presentation. In addition, we plan to offer continuing education to our referral base in the 4 Western provinces.

Residents must attend at least one state, regional, national, or international veterinary or human medical continuing education conference during their residency. Please list opportunities offered to and/or required of the resident for attendance

Residents attend the Veterinary Cancer Society meeting for all 3 years if possible. The resident is expected to present their research project at least one meeting (VCS or ACVIM) during their residency in the form of an oral abstract or poster. Residents are expected to attend ACVIM Forum after board examinations.

10. FORMAL EXAMINATION REVIEW SESSIONS (CM 8.S):

An oncology RTP must provide at least 40 hours per year of intensive formal review sessions for residents/candidates on topics covered in the general and specialty examinations. Attending daily clinical rounds does not meet this requirement. The requirement could be met in part by attending an ACVIM advanced continuing education (ACE) course, by attending an ACVIM Forum, or formal resident review sessions at a Veterinary Cancer Society Annual Meeting.

Please provide an anticipated schedule of these formal reviews below. Annual documentation will be required.

The past residents attended the Oncology ACE course and the formal resident review sessions offered annually at VCS and the ACVIM specialty sessions. It is the plan for all future residents to attend these as well. In addition, as part of the graduate courses offered at WCVM, there is a General examination preparatory course given in the second year of the residency and a Tumor Biology course given in the third year of residency. In addition, radiation biology course is offered in the third year in preparation for the Specialty examination. The combination of the 2 graduate courses alone offers more than 40 hours of formal review sessions.

Year 1: VCS Resident Review session, Clinical Oncology and Immunology preparatory course

Year 2: VCS Resident Review session, General examination preparatory course, possible ACVIM specialty sessions

Year 3: VCS Resident Review session, Tumor Biology course, Radiation Biology course, possible ACVIM specialty sessions

Other coursework within the 3 year Masters program includes clinical pathology (40 hours course); anatomic pathology (40 hours course); Statistics and Clinical Trial Design (40 hours); Advanced Internal Medicine (80 hours)

While it may have no bearing on your program, the supervising Diplomate(s) and the resident are required to review the Certification Manual yearly. You may obtain a copy of the Certification Manual from the ACVIM website at www.ACVIM.org.

11. Have all supervising Diplomate(s) read the objectives for an oncology residency as outlined in the Certification Manual, Specialty of Oncology?

Yes No

<input checked="" type="checkbox"/>	<input type="checkbox"/>
-------------------------------------	--------------------------

If no, please explain:

12. The RA and PD should periodically evaluate the resident (required minimum of once every 6 months) and discuss the results of those evaluations with the resident. Either the RA or PD (or both) must be able to provide the Residency Training Committee with written summaries of those evaluations, if requested. The RTP may use the standardized evaluation form (provided by ACVIM) or a similar internal evaluation document. If an internal evaluation document is used, it must include discussion of the 8 core competencies outlined in the standardized form including patient care, medical knowledge, practice-based learning, interpersonal and communication skills, professionalism, didactic learning, clinical research and publication productivity, and teaching ability.

Does your program comply with these standards of resident evaluation?

Yes No

<input checked="" type="checkbox"/>	<input type="checkbox"/>
-------------------------------------	--------------------------

If no, please explain:

13. Please indicate the availability of the following facilities or equipment. Indicate if these are available at the primary training site, or at a different location. (In the Location column, indicate on-site for primary location or the name of the facility where the equipment is located if off-site.) For facilities that are not on-site or not available, please describe the situation, availability, or how the resident will gain experience with equipment not available in the space at the end of this section.

	Available? (Y or N)	Location of equipment? (On-site or list site name)
a) Radiography	Y	on-site
b) 24 hour emergency and critical care facility	Y	on-site
b) Ultrasonographic equipment	Y	on-site
c) Color flow/Doppler equipment	Y	on-site
d) Endoscopy equipment	Y	on-site
GI equipment	Y	on-site
Bronchoscopy	Y	on-site
Cystoscopy	Y	on-site
Rhinoscopy	Y	on-site
Laparoscopy	Y	on-site
e) Clinical Pathology capabilities: (includes CBC, serum chemistries, blood gases, urinalysis, Cytology, parasitology, microbiology, and endocrinology)	Y	on-site
f) Appropriate safety equipment for handling chemotherapy (briefly summarize what is available in the column Location of Equipment).	Y	on-site; closed PhaSeal system, chemotherapy drawn up in our pharmacy by pharmacists within sterile biosafety cabinet, full PPE worn during administration
g) Nuclear Medicine	Y	on-site
h) Computed Tomography	Y	on-site
i) Magnetic Resonance Imaging	Y	on-site
j) Radiation Therapy Facility	Y	on-site
k) Intensive Care Facility – 24 hours	Y	on-site
l) Total parenteral nutrition capability	Y	on-site
m) Computerized Medical Records w/Searching Capabilities	Y	on-site

If any of the above equipment or facilities are available off-site, please explain how the resident can access them for case management, research, or study.

14. The resident should have access to a human or veterinary medical library with on-line searching capacity and at a minimum have access to all textbooks (current editions) and full text access to all journals on the current examination committee reading list **Note that on-line access to texts must be full-text not abstracts only**. This library should be available on-site or within a reasonable commuting distance (defined as within a 15 mile radius of the primary training site).

Please indicate how your resident can obtain access to the following textbooks/journals.

Comments:

17. Is there any additional pertinent information that the Residency Training Committee should consider in its evaluation of this training program?

Yes No

<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	-------------------------------------

Comments:

Please note, any Program Director or Candidate that significantly changes or alters this Residency Training Program before completion must notify ACVIM, in writing, before the changes are made to ensure that the proposed changes are approved.

Significant changes could include, but are not limited to:

- transferring from one program to another
- alterations in program duration
- switching to a 'dual board' program
- enrolling in an institutional graduate program
- change of Program Director or Resident Advisor

As Program Director, I verify that the above information is an accurate reflection of this Residency Training Program.

Per the Certification Manual, each year, the Program Director must certify to the RTC/ RTCC and ACVIM, in writing, that they have read the ACVIM Certification Manual and understands their role in residency training.

Checking this box is an indication I have read the ACVIM Certification Manual and understand my role in Residency Training Program.
