

Part One

New applications for ACVIM Residency Training Programs must be received by the Residency Training Committee (RTC) 90 days prior to any residents beginning training. Before completing this form, please review the general and specific requirements for Oncology Residency Training Programs in the ACVIM Certification Manual (CM). The current version of the CM is available on the ACVIM website at www.ACIVM.org.

Prior to making significant changes in a Residency Training Program, approval of the ACVIM and Oncology RTC must be obtained. The Candidate and/or Program Director must notify ACVIM, in writing before the changes are made to ensure that the proposed changes are approved. Significant changes could include, but are not limited to the following: changes in Program Director or any advisors, transferring from one program to another, alterations in program duration, locations of secondary site training, switching to a 'dual board' program, or enrolling in an institutional graduate program.

Notice: The data collected in this form is necessary both for the ACVIM to maintain its accreditation as a Registered Veterinary Specialty Organization and also is required for renewal of the residency training program. Some of the data collected is required of every specialty and some is specific to the specialty of Oncology.

For multi-site residency programs: To ensure uniformity of training and compliance with current CM requirements, training programs that include multiple sites must provide detailed information regarding supervision and facilities available at each specific site(s). Multi-site programs, if any, will be addressed by the Program Director in Part Two.

Program Director Name:

Must be an active Diplomate of ACVIM in the Specialty of Oncology

Program Director's Contact Information:

Work Phone:	<input type="text" value="(509) 335-0711"/>
E-mail:	<input type="text" value="jfidel@vetmed.wsu.edu"/>
Mailing Address:	<input type="text" value="Veterinary Clinical Sciences, CVM"/> <input type="text" value="PO Box 7060"/> <input type="text" value="Pullman, WA 99164"/>

1. Location of Sponsoring Institution (Primary Site of Residency Training Program):

Primary Site:	Length of Training Program:
<input type="text" value="Washington State University"/>	<input type="text" value="3 year"/>

2. Resident Advisor(s): Must be ACVIM Diplomate(s) in Oncology. There is no restriction on the number of Resident Advisors; however, **each Resident Advisor may supervise only two residents concurrently.**

<input type="text" value="Janean Fidel"/> <input type="text" value="Rance Sellon"/>
--

3. Supervising Diplomates: **There must be a minimum of two (2) ACVIM Oncology Diplomates per institution.**

<input type="text" value="Janean Fidel - Oncology"/> <input type="text" value="Rance Sellon - Oncology & SAIM"/>

4. All onsite Diplomates of ACVIM responsible for supervision of clinical training who are specialists in areas other than Oncology.

Name and Specialty	Comments
<input type="text" value="Pamela Lee - Cardiology"/> <input type="text" value="Annie Chen - Neurology"/> <input type="text" value="Katrina Mealey - SAIM"/> <input type="text" value="Jennifer Slovak - SAIM"/> <input type="text" value="Jillian Haines - SAIM"/> <input type="text" value="Lynne Nelson - SAIM and Cardiology"/>	

--	--

5. Residents currently enrolled in the training program, along with the beginning date of the program, expected ending date of the program, and designated resident advisor.

Resident Name	Start date (mm/dd/yyyy)	End Date (mm/dd/yyyy)	Resident Advisor Name*
Sarah Wetzel	7/13/18	7/14/21	Janean Fidel

RESIDENCY TRAINING PROGRAM REGISTRATION
2019-2020
ONCOLOGY

Part Two

Part Two of the Oncology Residency Training registration and renewal process addresses general features of the program that apply to all current residents. These questions will be used to provide the Oncology Residency Training Committee with information needed to judge the structure, quality, scope, and consistency of training provided.

Current Date:

Program Director Name:

(Must be a Diplomate of ACVIM in the Specialty of Oncology)

Name of Sponsoring Institution (Residency Training Program):

1. For residency programs with off-site rotations (required rotations not available at the primary institution/site): To ensure uniformity of training and compliance with current Certification Manual (CM) requirements, training programs that include off-site rotations must provide detailed information regarding supervision and facilities available at each specific site(s).

Outside Rotation(s) (if applicable): Please attach signed Training Agreement Form from all institutions providing off-site training of oncology residents to this registration form. Each Training Agreement Form should specify the number of weeks scheduled at each site and the rotation requirement met. **Training Agreement Forms must be submitted annually WITH program renewal forms and WITH each new program request.**

In the box provided below, list the outside rotations for which you are attaching Training Agreement Forms. Please include in the space below the specific information regarding the number of weeks scheduled at each site and which rotation requirements shall be met at each site:

2. Type of Training Program:

Traditional 3 years	<input checked="" type="checkbox"/>
Non-traditional (Length in years)	
For non-traditional programs, please provide details. Note that programs must be at least 3 years (156 weeks) in length.	

3. Advanced Degree:

	Yes	No	Optional
Masters:	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
PhD:	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Required for residency certificate: Yes No

Comments: If a candidate already had a masters or PhD the requirement would be waved but a Master's is expected with this residency.

4. ONCOLOGY DIPLOMATES (CM 8.G.4)

There must be a **minimum of two (2) ACVIM Oncology Diplomates** at the primary training site of the residency for an Oncology RTP to be approved or to maintain approval. Please list the ACVIM Oncology Diplomates and their site of activity.

Name of Oncology Diplomates	Location
Janean Fidel (med onc and rad onc) Rance Sellon (medicine and med onc)	WSU WSU

5. SUPPORTING DISCIPLINES REQUIRED

There must be an **ACVIM SAIM Diplomate** with $\geq 50\%$ FTE at the primary training site of the residency for an Oncology RTP to be approved or to maintain approval (CM 8.U.3). At least **four weeks** (completed in at least two consecutive week blocks) of training under the direct supervision by an ACVIM Small Animal Internal Medicine (SAIM) Diplomate are required.

Please list the ACVIM SAIM Diplomate(s) who will fulfill this requirement for the RTP.

Name of SAIM Diplomate(s)	Location
Rance Sellon (medicine and med onc) Jillina Haines Jennifer Slovak	WSU WSU WSU

There must be an **ACVS Surgery Diplomate** with $\geq 50\%$ FTE at the primary training site of the residency for an Oncology RTP to be approved or to maintain approval (CM 8.U.3).

Please list the ACVS Surgery Diplomate(s) who will fulfill this requirement for the RTP.

Name of ACVS Diplomate(s)	Location
Bonnie Campbell, Soft Tissue Surgery Boel Fransson, Soft Tissue Surgery Steve Martinez, Orthopedic Surgery Tina Owen, Surgery Bill Dernell, Soft tissue Surgery Peter Gilbert, Orthopedic Surgery	WSU WSU WSU WSU WSU WSU

6. CLINICAL TRAINING IN OTHER SPECIALTIES: REQUIRED AFFILIATED ROTATIONS (CM 8.M)

Because oncology is a multimodal discipline, the resident must also have clinical training under the direct supervision of Supervising Diplomates in other disciplines. This contact may occur at a secondary training site.

A minimum of 32 weeks must be spent actively receiving patients in affiliated rotations or meeting requirements through rounds. For each off-site rotation included in the 32 weeks of clinical training in other specialties, the resident should obtain written approval from their Resident Advisor, who will forward documentation of this approval to the RTCC.

6a. RADIATION ONCOLOGY REQUIREMENTS (CM 8.M.1):

At least **eight weeks** of direct supervision is required with a veterinary radiation oncologist to develop an understanding of clinical management of patients receiving radiation therapy, radiation planning, dosimetry, and physics related to clinical radiation therapy.

Please list all DACVR-RO diplomates responsible for training in radiation oncology. Describe how Diplomates are involved in the supervision of residents and how direct contact in radiation oncology training will be fulfilled. Radiation oncology rotations must be completed in blocks of at least two consecutive weeks in length.

Name of Diplomat(e)s	Site	Role in training residents
Janean Fidel	WSU	2 x four week rotations dedicated to radiation oncology are scheduled. In addition case load allows ample discussion of radiation cases, treatment plans, and after care, in the clinic setting on a daily basis. Dr. Fidel is available at all times for radiation oncology and is on clinics with the residents 100% of the time. A resident could not escape training in RT in our facility if they tried!

6b. PATHOLOGY REQUIREMENTS (8.M.1):

At least **two weeks** (may be met through weekly/biweekly rounds) of direct supervision with a **clinical pathologist** are required. Please list all **Diplomates of the American College of Veterinary Pathology** in clinical pathology associated with residency training. Describe how Diplomates are involved in the supervision of residents and how direct contact requirements (must be in person, not videoconference) in clinical pathology will be met.

Name of Diplomat(e)s	Site	Role in training residents
Dr. Jane Wardrop Dr. Cleveson Souza Dr. Tim Baszler	Clinical Path, WSU Clinical Path, WSU Washington Animal Disease Diagnostic Lab, WSU	Oncology residents spend at least 2 weeks in a clinical pathology rotation and a course is available for more directed study each semester (1 Unit course).

At least **two weeks** (may be met through weekly/biweekly rounds) of direct supervision with an **anatomic (surgical) pathologist** are required.

Please list all **Diplomates of the American College of Veterinary Pathology** in anatomic (surgical) pathology associated with residency training. Describe how Diplomates are involved in the supervision of residents and how direct contact requirements (must be in person, not videoconference) in anatomic pathology will be met.

Name of Diplomat(e)s	Site	Role in training residents
Dr. Tim Baszler Dr. Chrissy Eckstrand Dr. Gary Halderson Dr. Danielle Nelson Dr. Allan Pessier Dr. Josh Ramsay Dr. Kevin Snekvick Dr. Kyle Taylor Dr. Laura White	Gross Path, WSU Gross Path, WSU Gross Path, WSU Gross Path, WSU Gross Path, WSU Gross Path, WSU Gross Path, WSU Gross Path, WSU Gross Path, WSU	Gross pathologists reading histopathology will supervise /advise the residents when ever needed in regards to pathology. Together this amounts to about 15 hours a month. Weekly pathology rounds are also open to residents and they attend about 50% of the time (roughly 20 sessions per year total). A two week rotation in gross pathology is also scheduled.

6c. DIAGNOSTIC IMAGING REQUIREMENTS (8.M.1):

At least **two consecutive weeks** of **diagnostic imaging** under direct supervision by a board-certified radiologist are required in addition to any interactions during case rounds.

Please list all Diplomates of the **American College of Veterinary Radiology (not including radiation oncology)** associated with residency training. Describe how Diplomates are involved in the supervision of residents and how direct contact requirements (must be in person, not videoconference) in radiology will be met.

Name of Diplomat(e)s	Site	Role in training residents
John Mattoon Greg Roberts	WSU WSU	A 2 week block in radiology is usually scheduled within the first year of the residency. Also

Tom Wilkinson Ashley Hannah	WSU WSU	radiology is always available to discuss the imaging findings on patients often immediately after we have the images.
--------------------------------	------------	---

6d. OTHER REQUIRED ROTATIONS (8.M.2):

Fourteen weeks of other rotations with an ACVIM Diplomate in the Specialty of Oncology, or training under the supervision of a member of an American Board of Veterinary Specialties (ABVS) or European Board of Veterinary Specialization (EBVS) approved specialty (such as, but not limited to, the American College of Veterinary Radiology, the American College of Veterinary Radiology (Radiation Oncology), American or European College of Veterinary Neurology, the American College of Veterinary Pathology, ACVS, or ACVECC). Rotations must be completed in at least two consecutive week blocks (unless otherwise specified in the CM.)

Please list the other ACVIM diplomates not previously listed or other non-ACVIM diplomates that will be involved with resident training available for consultation in these areas. Describe how Diplomates are involved in the supervision of residents and their contribution to direct contact requirements in affiliated specialties.

Name of Diplomates	Specialty/College	Site	Role in training residents
Rance Sellon	Medicine& Oncology	WSU	All clinicians present at WSU are available for questions regarding patient care, and also attend house officer rounds, resident seminars, and teach graduate level courses the oncology residents may take. Any of these individuals may also be members of masters committees, and may help with research projects.
Jillian Haines	Medicine	WSU	
Jennifer Slovak (medicine)	Medicine	WSU	
Annie Chen (Neurology)	Neurology	WSU	
Lynn Nelson (Cardiology)	Cardiology	WSU	
Pamela Lee (Cardiology)	Cardiology)	WSU	
Janean Fidel (Oncology)	Oncology	WSU	

7. FORMAL STRUCTURED RESEARCH (CM 8.O):

The resident is expected to actively participate in a laboratory or clinical investigative research project during the residency. A minimum of **eight weeks** (320 hours) of an oncology residency should be dedicated to this aspect of training. Research time should be scheduled as either weekly time (hours per week) or in blocks of time sufficient to complete the research, perform data analysis, and prepare a manuscript for publication by the third year of their residency (see Recommended Milestones in CM 8.G 6-8). This experience must be documented, with dates, and signed by the Supervising Diplomate.

Please explain how your residency program complies with the research guidelines outlined above.

All residents have a project and time is scheduled off clinics for 8 weeks both to work on the project and to get a publication ready. Since most of our residents are also in a Master's program they have to do a research project and have course that helps them apply for grant and write proposals. Also course work in statistics is required.

For Board-certification in oncology, the resident must have a minimum of one major first author publication in the field of oncology published or accepted for publication in a refereed scientific or peer-reviewed journal. A literature review or case report is not acceptable. Please describe how this program supports this requirement for publication. (See CM 8.F.5)

A masters project hopefully leads to publishable results if not residents are strongly encouraged to also work on other projects such as a retrospective paper.

8. JOURNAL CLUB (CM 8.P):

An organized and routinely scheduled journal club of at least 80 hours over the course of the RTP must be an integral part of all oncology resident training. Journal Club must be attended and supervised by a Supervising Diplomate. The RTP application requires a schedule of proposed Journal Club for Oncology RTCC approval.

Please explain how your residency program complies with the journal club guidelines outlined above, and include a schedule for this requirement, including number of proposed meetings and duration of each meeting.

Oncology journal club or book review occurs on Tuesday mornings at 7 -8 AM during all weeks but for an occasional holiday. Medicine Journal club also occurs on Thursday mornings at 8 -9 AM during most of the year. When residents are on other rotations they will also attend the journal club of that group.

9. SEMINAR OR LECTURE SERIES AND FORMAL CONFERENCES (CM 8.Q, 8.R):

Residents must attend formal teaching conferences in oncology and related disciplines throughout the residency. Unless these are formal lectures or classes, an Oncology Supervising Diplomate supervises the conferences, which should occur an average of **four times per month**. Examples of these are clinical pathology conferences, resident seminars, grand rounds sessions, and tumor biology classes. Conferences given within a veterinary practice or hospital or at a medical school or medical teaching hospital are acceptable. Please include the format and schedule of these conferences and presentations, which directly pertain to training in Oncology and give specific details given on a daily, weekly, or monthly basis.

Oncology Rounds- meets monthly during school year (8 x 1.5 hours sessions per year) and these are presentation of Oncology cases with radiology, surgery, pathology and clinical pathology participation. Attended by residents, interns and students

House Officer rounds - Wednesday 8-9 am year round - Small animal interns and residents- formal seminar presentations covering a variety of topics (typically clinically oriented but with learning objectives on a subject). Oncology cases are included. Residents must present once per semester.

.Resident Seminars - Weekly - Spring and Fall Semesters 1 hour weekly for 17 weeks. Residents must attend and must present once each semester.

Other seminars are offered intermittently during any given semester. During the spring semester, the VMP department holds a series of monthly seminars focused on basic immunology. Prominent investigators are brought to WSU for these seminars. There are also campus wide seminars offered by other departments, some of which have relevance to clinical veterinary medicine and oncology.

The resident must give a formal presentation at such a conference at least once per year. Documentation of these presentations must be included in the oncology credentials packet of the resident.

Please list all opportunities offered to and/or required of the resident for attendance and/or giving formal presentations at local, regional, state, or national meetings. Indicate whether the resident will attend or present at these meetings (CM 8.Q).

House Officer rounds - Wednesday 8-9 am - formal seminar presentations covering a variety of topics (typically clinically oriented). Oncology cases are included. Residents must present once per semester.

Resident Seminars - once weekly - Spring and Fall Semesters (17 hours). Residents must attend and must present once each semester.

Residents must attend at least one state, regional, national, or international veterinary or human medical continuing education conference during their residency. Please list opportunities offered to and/or required of the resident for attendance

Residents are strongly encouraged to present at either VCS and ACVIM. They are reimbursed for the trip if they present. Occasional invitations to local meetings of service groups such as breeder clubs, Rotary, Lions club etc. are available for residents that wish to make such presentations.

10. FORMAL EXAMINATION REVIEW SESSIONS (CM 8.S):

An oncology RTP must provide at least 40 hours per year of intensive formal review sessions for residents/candidates on topics covered in the general and specialty examinations. Attending daily clinical rounds does not meet this requirement. The requirement could be met in part by attending an ACVIM advanced continuing education (ACE) course, by attending an ACVIM Forum, or formal resident review sessions at a Veterinary Cancer Society Annual Meeting.

Please provide an anticipated schedule of these formal reviews below. Annual documentation will be required.

For general boards a class is mandatory covering the Guyton textbook (2 semesters, 34 hours) and optional sessions are available for review of other general text books (CVT usually, but also others and happens once weekly).

For Oncology boards Oncology journal club does review text books about 50% of the time covering Weinberg, Tannock and Hill, Chabner, and Hall on a rotating 3 year format. The group meets once week for 1 hour 50 weeks a year. Also if possible residents are encouraged to attend ACVIM or VCS review sessions..

While it may have no bearing on your program, the supervising Diplomate(s) and the resident are required to review the Certification Manual yearly. You may obtain a copy of the Certification Manual from the ACVIM website at www.ACVIM.org.

11. Have all supervising Diplomate(s) read the objectives for an oncology residency as outlined in the Certification Manual, Specialty of Oncology?

Yes No

If no, please explain:

12. The RA and PD should periodically evaluate the resident (required minimum of once every 6 months) and discuss the results of those evaluations with the resident. Either the RA or PD (or both) must be able to provide the Residency Training Committee with written summaries of those evaluations, if requested. The RTP may use the standardized evaluation form (provided by ACVIM) or a similar internal evaluation document. If an internal evaluation document is used, it must include discussion of the 8 core competencies outlined in the standardized form including patient care, medical knowledge, practice-based learning, interpersonal and communication skills, professionalism, didactic learning, clinical research and publication productivity, and teaching ability.

Does your program comply with these standards of resident evaluation?

Yes No

If no, please explain:

13. Please indicate the availability of the following facilities or equipment. Indicate if these are available at the primary training site, or at a different location. (In the Location column, indicate on-site for primary location or the name of the facility where the equipment is located if off-site.) For facilities that are not on-site or not available, please describe the situation, availability, or how the resident will gain experience with equipment not available in the space at the end of this section.

	Available? (Y or N)	Location of equipment? (On-site or list site name)
a) Radiography	Y	On site
b) 24 hour emergency and critical care facility	Y	On site
b) Ultrasonographic equipment	Y	On site
c) Color flow/Doppler equipment	Y	On site
d) Endoscopy equipment	Y	On site
GI equipment	Y	On site
Bronchoscopy	Y	On site
Cystoscopy	Y	On site
Rhinoscopy	Y	On site
Laparoscopy	Y	On site
e) Clinical Pathology capabilities: (includes CBC, serum chemistries, blood gases, urinalysis, Cytology, parasitology, microbiology, and endocrinology)	Y	On site
f) Appropriate safety equipment for handling chemotherapy (briefly summarize what is available in the column Location of Equipment).	Y	All drugs are drawn up in a hood within the pharmacy by the pharmacist and transferred to the ward in plastic chemotherapy labeled bags. The chemotherapy ward is a separate ward within the hospital and separate from our rounds and working room. We are currently using the Equasheid system closed chemotherapy administration system and personal protective coverings. All chemotherapy is administered within the chemotherapy

		ward or ICU only if absolutely necessary
g) Nuclear Medicine	Y	On site
h) Computed Tomography	Y	On site
i) Magnetic Resonance Imaging	Y	On site
j) Radiation Therapy Facility	Y	On site
k) Intensive Care Facility – 24 hours	Y	On site
l) Total parenteral nutrition capability	Y	On site
m) Computerized Medical Records w/Searching Capabilities	Y	On site

If any of the above equipment or facilities are available off-site, please explain how the resident can access them for case management, research, or study.

None off site

14. The resident should have access to a human or veterinary medical library with on-line searching capacity and at a minimum have access to all textbooks (current editions) and full text access to all journals on the current examination committee reading list **Note that on-line access to texts must be full-text not abstracts only**). This library should be available on-site or within a reasonable commuting distance (defined as within a 15 mile radius of the primary training site).

Please indicate how your resident can obtain access to the following textbooks/journals.

Text or Journal	Hard Copy or Subscription Available on site, or Medical/Veterinary Library <i>(insert name)</i>	Available Electronically (CD-ROM or Online Subscription)	Available Through pub-med only (free or will purchase articles)	Not Available

Comments:

17. Is there any additional pertinent information that the Residency Training Committee should consider in its evaluation of this training program?

Yes No

<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	-------------------------------------

Comments:

Please note, any Program Director or Candidate that significantly changes or alters this Residency Training Program before completion must notify ACVIM, in writing, before the changes are made to ensure that the proposed changes are approved.

Significant changes could include, but are not limited to:

- transferring from one program to another
- alterations in program duration
- switching to a 'dual board' program
- enrolling in an institutional graduate program
- change of Program Director or Resident Advisor

As Program Director, I verify that the above information is an accurate reflection of this Residency Training Program.

Per the Certification Manual, each year, the Program Director must certify to the RTC/ RTCC and ACVIM, in writing, that they have read the ACVIM Certification Manual and understands their role in residency training.

Checking this box is an indication I have read the ACVIM Certification Manual and understand my role in Residency Training Program.
