

RESIDENCY TRAINING PROGRAM REGISTRATION
2019-2020
SMALL ANIMAL INTERNAL MEDICINE

Part One

New applications for ACVIM Residency Training Programs must be received by the Residency Training Committee (RTC) 90 days prior to any residents beginning training. Before completing this form, please review the general and specific requirements for Small Animal Internal Medicine (SAIM) Residency Training Programs in the ACVIM Certification Manual (CM). The current version of the CM is available on the ACVIM website at www.ACVIM.org.

Prior to making significant changes in a Residency Training Program, approval of the ACVIM and SAIM RTC must be obtained. The Candidate and/or Program Director must notify ACVIM, in writing. Significant changes could include, but are not limited to: changes in Program Director or any advisors, transferring from one program to another, alterations in program duration, locations of secondary site training, switching to a 'dual board' program, or enrolling in an institutional graduate program.

Notice: The data collected in this form is necessary both for the ACVIM to maintain its accreditation as a Registered Veterinary Specialty Organization and also is required for renewal of the residency training program. Some of the data collected is required of every specialty and some is specific to the specialty of Small Animal Internal Medicine.

For multi-site residency programs: To ensure uniformity of training and compliance with current CM requirements, training programs which include multiple sites must provide detailed information regarding supervision and facilities available at each specific site(s). Multi-site programs, if any, are listed in Part Two.

Program Director Name:

The Program Director must be an active Diplomate of ACVIM in the Specialty of Small Animal Internal Medicine boarded for at least 4 years with 3 years experience training residents

Program Director's Contact Information:

| | |
|------------------|--|
| Work Phone: | <input type="text" value="(713) 693-1144"/> |
| Mobile Phone: | <input type="text"/> |
| E-mail: | <input type="text" value="drmanino@gcvs.com"/> |
| Mailing Address: | <input type="text" value="1030 Wirt Houston, TX 77055"/> |

1. Location of Sponsoring Institution (Primary Site of Residency Training Program):

| | |
|--|-------------------------------------|
| Primary Site Location: | Length of Training Program: |
| <input type="text" value="Texas Gulf Coast Veterinary Specialists"/> | <input type="text" value="3 year"/> |

2. Resident Advisor(s): Must be Diplomate(s) of ACVIM in the Specialty of Small Animal Internal Medicine and boarded for at least 2 years with 1 year experience training residents. **Each Resident Advisor may supervise no more than 2 residents at a time.**

| |
|--|
| <input type="text" value="Amy Davenport Daniel Jardes"/> |
|--|

Christopher Jones
Paul Manino
Rebecca Norton

3. Supervising Diplomates on-site: Two on-site Diplomates boarded in Small Animal Internal Medicine are required - **2 ACVIM, or 1 ACVIM & 1 ECVIM**. The supervising diplomates must be active in the practice of the specialty and must maintain clinical competency in the field.

Amy Davenport - SAIM
Daniel Jardes - SAIM
Christopher Jones - SAIM
Paul Manino - SAIM
Rebecca Norton - SAIM

4. List all ACVIM Diplomates onsite responsible for supervision of clinical training who specialize in areas other than SAIM. If off-site, please explain the situation, and the method of providing direct contact with the resident.

| Name and Specialty | Comments |
|---|----------|
| Rebecca Cervenec - Cardiology Carly Giovanella - Neurology Randy Longshore - Neurology Melissa Jennings - Neurology Lisa DiBernardi - Oncology Katie Stroda - Oncology | |

5. List residents currently participating in your training program, along with the beginning date of the program, expected ending date of the program, and designated Resident Advisor.

| Resident Name | Start date (mm/dd/yyyy) | End Date (mm/dd/yyyy) | Resident Advisor Name* |

RESIDENCY TRAINING PROGRAM REGISTRATION
2019-2020
SMALL ANIMAL INTERNAL MEDICINE

Part Two

Part Two of the Small Animal Internal Medicine Residency Training process addresses general features of the program that apply to all current residents. These questions will be used to provide the Residency Training Committee with information needed to judge the structure, quality, scope, and consistency of training provided.

The SAIM Residency Training Committee may require supporting evidence for any statements made below. Per the Certification Manual (CM) section 9.C.2, at the time of annual program renewal, Program Directors may be asked to verify resident activities, including satisfactory clinical training, interaction with consultants, documentation of training in radiology and clinical pathology, documentation of off-site training, and documentation of study and education participation.

Current Date: 2/27/19

Program Director Name: Paul Manino

Must be an active Diplomate of ACVIM in the Specialty of Small Animal Internal Medicine boarded for at least 4 years with 3 years of experience training residents

Name of Sponsoring Institution (Residency Training Program): Texas Gulf Coast Veterinary Specialists

1. For multi-site residency programs: To ensure uniformity of training and compliance with current CM requirements, training programs that include multiple sites must provide detailed information regarding supervision and facilities available at each specific site(s). All requirements for both direct and indirect supervision must be met, as well as requirements for rounds and conferences. Refer to Section 9.C.1.e of the CM for definitions of secondary site and off-site experiences.

a) Secondary Site for multi-site program (if applicable):

Please attach specific information regarding the number of weeks scheduled at each site and which rotation requirements shall be met at each site.

b) Outside Rotations/Other Sites for specialty training (if applicable):

All rotations performed at a location other than that of the resident's program must be documented with a signed Residency Training Agreement Form from the specialist(s) providing the outside rotation. Residency Training Agreement Forms from the specialist(s) must also be included with the program renewal form. Please attach signed Residency Training Agreement Forms from all individuals providing off-site training of SAIM residents to this registration form. Residency Training Agreement Forms must be submitted annually with program renewal forms and with each new program request. This program application is not complete without Residency Training Agreement Forms for all outside rotations. If off-site rotations are added after program renewal, please submit necessary residency training agreement forms a minimum of 30 days before the resident departs for that off-site training.

2. Length of Training Program/Advanced degree:

a) Length in Years: 3 years

b) Advanced Degree: Table with columns Yes, No, Optional and rows Masters, PhD. Masters: Yes [], No [X], Optional []; PhD: Yes [], No [X], Optional []

3. Please list all of the Diplomates of Veterinary Pathology in the areas of clinical or anatomic pathology approved by the American Board of Veterinary Specialties or European Board of Veterinary Specialties associated with residency training. If off-site, please attach signed Residency Training Agreement Forms from all individuals providing off-site training.

| Name of Diplomate(s) | Clinical or Gross | Board Certification (e.g. ACVP, ECVCP) | Comments |
|----------------------|-------------------|--|---|
| Janice Cruz Cardona | Clinical | ACVP | Off-site at Idexx Laboratories in Houston, TX. Residents travel to the laboratory in Houston for 1 week rotations to meet the 40 hour clinical pathology requirement. In addition, Dr. Cardona consults by phone and visits the hospital periodically to discuss cases and have round |

4. Please list all Diplomates of the American College of Veterinary Radiology or approved American Board of Veterinary Specialties radiology board associated with residency training. If off-site please attach signed Residency Training Agreement Forms from all individuals providing off-site training.

| Name of Diplomate(s) | Include Board certification (e.g. ACVR, ECVDI) | Comments |
|---|--|----------|
| Michelle Fabiani Laura Hammond Kate Sippel Lisa DiBernardi | ACVR ACVR ACVR ACVR, ACVIM | |

5. Please list the Diplomates available for consultation in the areas of dermatology, surgery, ophthalmology, anesthesiology, emergency/critical care, clinical nutrition, clinical pharmacology, and/or theriogenology. If off-site, please attach signed Residency Training Agreement Forms from all individuals providing off-site training.

| Name of Diplomate(s) | Specialty | Board Certification | Comments |
|-----------------------|----------------|---------------------|----------|
| Karin Beale | Dermatology | ACVD | |
| Sandra Merchant | Dermatology | ACVD | |
| Katrine Voie | Dermatology | ACVD | |
| Heidi Hottinger | Surgery | ACVS | |
| Wayne Whitney | Surgery | ACVS | |
| Brian Beale | Surgery | ACVS | |
| Caleb Hudson | Surgery | ACVS | |
| Grayson Cole | Surgery | ACVS | |
| Erin Corbin | Surgery | ACVS | |
| Kristin Coleman | Surgery | ACVS | |
| Julie Hempstead | Ophthalmology | ACVO | |
| Kristin Fizzano | Anesthesiology | ACVAA | |
| Colleen Wilms | Critical care | ACVEEC | |
| Melissa Garcia-Lacaze | Critical care | ACVEEC | |
| Chanda Miles | Dentistry | ACVDC | |

6. Does your training program consist of a minimum of **36 months**?

Yes No

Comments:

7. Does each resident in your program spend a minimum of 68 weeks on clinical rotations under the direct supervision of at least 2 ACVIM SAIM Diplomates (or at least 1 ACVIM SAIM Diplomate and at least 1 ECVIM Companion Animal Diplomate)?

Yes No

| Supervising Diplomate Name(s) | Specialty | Board Certification (e.g. ACVIM, ECVIM) | Comments |
|--|---|---|----------|
| Christopher Jones Paul Manino Amy Davenport Rebecca Norton Daniel Jardes | Internal medicine Internal medicine Internal medicine Internal medicine Internal medicine | ACVIM ACVIM ACVIM ACVIM ACVIM | |

8. Does each resident in your program spend an additional 16 weeks of clinical training under the **direct supervision** of one or more supervising Diplomate(s) in other specialties such as cardiology, oncology, neurology, critical care, or ophthalmology? These Diplomates may be certified by the ACVIM or ECVIM, or by the American Board of Veterinary Specialties (ABVS) approved specialties or approved European Board of Veterinary Specialization recognized certification entities. A maximum of two secondary training site rotations is allowable for meeting clinical training in other specialties. These formal rotations on a specialty service must be completed in defined training periods of at least two continuous weeks each and the resident must have primary case responsibility. Additional SAIM weeks cannot be used to satisfy this requirement [See CM 9.F.2].

Yes No

| Supervising Diplomate Name(s) | Specialty | Board Certification (e.g. ACVIM, ECVIM) | Comments |
|--|---|--|----------|
| Lisa DiBernadi Katie Stroda Rebecca Cervenec Randy Longshore Carly Giovannella Melissa Jennings | Rad/Med Onc Med Onc Cardiology Neurology Neurology Neurology | ACVIM, ACVR ACVIM ACVIM ACVIM ACVIM ACVIM | |

9. Does each resident in your training program spend an additional 36 weeks in training, not necessarily under direct supervision, in either internal medicine or related areas, or in writing, studying, teaching, or obtaining experience with a radiologist, clinical pathologist, or other specialist? (Note that vacation time and time to attend professional meetings is included in this period.)

Yes No

Describe: In addition to their required weeks on radiology, ultrasound, and clinical pathology each of our residents spends 14 total weeks working with critical cae. They are also given 10 weeks of electives. The also have a total of 22 weeks of off clinic time which is to be dedicated to study or research.

10. Does each resident in your training program spend a minimum of 8 hours per month in training with at least two other board-certified specialists (not ACVIM)? These may be specialists in dermatology, theriogenology, surgery, anesthesiology, ophthalmology, emergency/critical care, or clinical pharmacology. The training must be direct consultation, not telephone or E-mail consultation.

Yes No

Describe: Our residents work very closely on a daily basis both with our criticalists as well as our radiologists.

11. Does each resident in your training program have a minimum of **80 hours** of direct contact with a board-certified veterinary radiologist? **Forty hours** comprised of interpreting radiographs, learning and evaluating the results of special imaging techniques, and attending radiology rounds or conferences?

Yes No

And an additional minimum of **40 hours** spent training in ultrasonography under the supervision of a board-certified veterinary radiologist. This training should emphasize abdominal ultrasonography and must include hands-on performance of abdominal ultrasonography, observation of ultrasound procedures on the resident's own patients, and theoretical training in the principals and application of ultrasonography.

| | |
|-------------------------------------|--------------------------|
| Yes | No |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |

12. Does each resident in your training program attend weekly conferences?

| | |
|-------------------------------------|--------------------------|
| Yes | No |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |

Describe:

GCVS has an extensive conference system in place for its residents. In addition to the required journal club and reviews that we hold we also have a weekly didactic class/conference in which a powerpoint presentation regarding a specific topic is presented. The topics follow a system-based approach with 3-4 systems (ie endocrinology, GI, hepatobiliary, renal, immunology, etc) being reviewed each academic year. The classes are taught by the internists and the residents themselves and are attended by residents, internists, rotating interns, and EC and IM speciality interns.

Additionally GCVS as a monthly grand rounds in which our residents are expected to present a one hour lecture to all specialists and house officers within the hospital. The lecture is expected to focus heavily of physiology/pathophysiology.

13. Does each resident have **40 hours** of review sessions per year?

| | |
|-------------------------------------|--------------------------|
| Yes | No |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |

Describe:

Mondays: Journal Club - Three to four articles are reviewed each week from pertinent referred journal by the residents and board-certified specialists. Emphasis in journal club is not only on content or articles, but how to critically evaluate an article for quality and principles of evidence-based medicine.

Tuesdays: Oncology and critical care journal club/topic rounds. The residents alternate between discussing salient topics in critical care and oncology on a rotating basis. Class discussion may be case-based, journal based, or involve overview of various cancers, treatment modalities, and diagnostic procedures, etc. Rounds are lead by a board certified criticalist or oncologist.

Wednesdays: Didactic Internal Medicine Class - The residents partake in weekly 1 -1.5 hour class taught/lead by board-certified specialists. The class is organized into 8 individual courses reviewing each body systemic (ie. gastroenterology, endocrine, hematology/oncology, urinary, respiratory, etc.). Each course lasts anywhere from 12-20 weeks and serves as an intense updated review of that body system and diseases affecting it. Residents are expected to participate in the teaching of this class and are required to perform one lecture within each course.

Thursdays: Resident book review - The residents review a textbook they are currently reading such as Guyton's Textbook of Medical Physiology, Ettinger's Textbook of Veterinary Internal Medicine, Bonagura's CVT, and other commonly used texts for board examinations. This class is led by 3rd residents

Fridays: Physiology/Pathophysiology Review or M&M rounds: The residents rotate on a biweekly basis between in depth discussions of the pathophysiology resulting in disease and pharmacologic manipulation of the pathophysiology taught by a board specialists in SAIM or M&M rounds lead by a boarded criticalist

14. Does each resident in your training program have a minimum of **40 hours** direct contact with a board certified veterinary clinical or anatomic pathologist evaluating clinical pathologic findings, reviewing cytologies and biopsies, and attending clinical pathologic conferences or seminars?

| | |
|-------------------------------------|--------------------------|
| Yes | No |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |

Describe:

Our residents spend a week under the supervision of a clinical pathologist affiliated with Idexx laboratories in Houston

15. Patient Management:

a) Does each resident in your program participate in patient management, including patient receiving, diagnostics, case management and decision making, client communication, case follow-up, and communication with referral veterinarians?

| | |
|-------------------------------------|--------------------------|
| Yes | No |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |

b) Is case management directly supervised and reviewed by a Diplomate of the ACVIM?

| | |
|-------------------------------------|--------------------------|
| Yes | No |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |

16. Is a complete medical record using the problem oriented veterinary medical record system maintained for each individual patient? (Medical records must be retrievable.)

| | |
|-------------------------------------|--------------------------|
| Yes | No |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |

17. Clinical Rounds:

a) Does the resident participate in clinical rounds on a daily basis while on clinical rotations?

| | |
|-------------------------------------|--------------------------|
| Yes | No |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |

b) Is a supervising Diplomate available for the majority of the daily rounds reported in question 17?

| | |
|-------------------------------------|--------------------------|
| Yes | No |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |

c) If a supervising Diplomate is not available for the majority of rounds, describe how rounds are attended and supervised.

Describe:

18. Please indicate the availability of the following facilities or equipment to be used in resident training. Indicate if these are available at the primary training site, or at a different location. (In the Location column, indicate on-site for primary location or the name of the facility where the equipment is located if off-site.) For facilities that are not on-site, please describe the situation, availability, and how the facilities or equipment are used for resident training in the space at the end of this section.

| | Available? | | Location of equipment? |
|---|-------------------------------------|--------------------------|--|
| | Yes | No | (On-site or list site name) |
| Standard radiological equipment | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Onsite |
| Ultrasonographic equipment | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Onsite |
| Color flow/Doppler equipment | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Onsite |
| Endoscopy equipment | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Onsite |
| Clinical Pathology capabilities: (includes CBC, serum chemistries, blood gases, urinalysis, cytology, parasitology, microbiology, and endocrinology) | <input checked="" type="checkbox"/> | <input type="checkbox"/> | On-site with in-house CBC, chemistry analyzer, urinalysis, blood-gas, and coagulation tests. Off-site capability through Idexx Labs Housto |
| Blood Pressure Measurement | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Onsite |
| Electromyography | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Onsite |
| Nuclear Medicine | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Onsite |
| Computed Tomography | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Onsite |
| Magnetic Resonance Imaging | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Onsite |
| Computerized Medical Records w/Searching Capabilities | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Onsite |
| Veterinary Library w/Literature Searching Capabilities | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Online through Texas A&M University |
| Intensive Care Facility – 24 hours | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Onsite |

If any of the above equipment or facilities is available off-site, please explain how the resident can access them for case management, research, or study.

Clinical Pathology - Idexx Laboratories is located in Houston with a full service clinical pathology lab and clinical pathologist. Some endocrinology tests, serum osmolality, and microbiology are sent to other Idexx labs of affiliated laboratories. We also have in-house capability within the hospital to perform CB, chemistry profiles, urinalyses, coagulation tests, and blood gas analysis on an emergency basis

Veterinary and Medical Library with Literature Searching Capabilities - Veterinary Literature searching capabilities are available on line through various search engines with access provided to each resident. Online access to the Texas A&M University Library System including the Medical Sciences Library is also available. This program is available to all licensed veterinarians in the state of Texas. Articles are requested on line and emailed to the recipient in a PDF format, usually within 24 hours. The hospital itself has an onsite library complete with the most current editions of all textbooks and most journals (JVIM, JAVMA, JVECC, NEJM, AJVR) recommended by ACVIM for study

19. Clinical caseload information (this information should reflect the caseload of the prior 12 months)

Total SAIM caseload per year:

1600

Number of endoscopic examinations (respiratory, GI) per year:

250

Number of endoscopic examinations (urinary) per year:

40

20. Didactic Learning Opportunities and Research Requirements: In recognition of the importance of scientific discovery as a critical mission of the ACVIM, all Residency Training Programs shall include an assessment period or instruction and/or participation in creative scholarship which will foster an appreciation of, competency in, and contribution to the knowledge base of their respective specialty and which will support their development as clinician scientists. This requirement is fulfilled through satisfactory completion of A and one of B [See CM 9.F.4]:

a) Journal Club: Critical review of literature, minimum of eighty (80) hours during the program. Describe how this requirement is met or exceeded.

Journal club is held weekly typically on Mondays. Three to four articles are reviewed each week from pertinent referred journal by the residents and board-certified specialists. Emphasis in journal club is not only on content or articles, but how to critically evaluate an article for quality and principles of evidence-based medicine.

b) At least 12 weeks over the three-year residency must be allocated for research and scholarly activity ideally in the pursuit of a publication. Successful completion of any one of the options listed below will satisfy the requirements for research by SAIM residents. Describe how this will be fulfilled or exceeded in the individual trainee's specific application.

1. Successful completion of at least six hours of seminars or classes offered at the ACVIM Forum, as on-line courses, or at other facilities and recognized by the ACVIM and covering the following subjects: Critical evaluation of the veterinary medical/biomedical literature, Grant-writing or Study design, and participation in clinical trials
2. Documented (by a letter from the RA) submission of a grant proposal
3. Acceptance and presentation at a scientific meeting of an abstract (either oral or poster) of original work
4. Documented completion (by a letter from the RA) of a prospective research project pertinent to SAIM
5. Documented completion (by a letter from the RA) of a retrospective research project pertinent to SAIM
6. Documented completion (by a letter from the RA) of graduate coursework in biostatistics, research methods, and/or research ethics

Residents are encouraged to complete/present an abstract at ACVIM; they are also given opportunities to perform collaborative research for publication with Texas A&M and through our network hospitals. Residents may also complete the appropriate seminars/classes offered at the ACVIM Forum

21. Is the resident required to give one or more formal presentations at a conference or in an educational setting on a yearly basis? Please provide a description of the conferences, etc., that are provided and the typical schedule.

| | |
|-------------------------------------|--------------------------|
| Yes | No |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |

Describe: Residents are required to give one formal presentation per year as part of the Intern/Resident Seminar

Program. These seminars are held monthly and all residents and interns are required to attend. Seminars are required to be concise in depth reviews or discussions of topics at the forefront of veterinary medicine and are designed to help teach the resident how to lecture in front of a group. Each lecture is reviewed by those specialists in attendance and feedback provided to the resident.

Residents are also required to present a topic within the didactic class provided on Thursdays as outlined above.

Second and third year residents are encouraged to speak at local VMA meetings and the annual GCVS symposium in August

22. How many major veterinary medical or medical meetings is each resident able to or expected to attend during his/her training program?

| Program length | One | Two | > Two |
|----------------|--------------------------|--------------------------|-------------------------------------|
| 3 years | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

23. Does the training program require a research project? Please indicate the number of research projects required.

| Program Length | Yes | No | Optional | Number |
|----------------|--------------------------|--------------------------|-------------------------------------|--------|
| 3 years | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | |

24. Are one or more publications required as part of the training program?

| Program length | Yes | No | Number |
|----------------|-------------------------------------|--------------------------|--------|
| 3 years | <input checked="" type="checkbox"/> | <input type="checkbox"/> | 1 |

25. Does each resident in your program meet at least twice yearly with their Resident Advisor to evaluate the resident's performance, review their progress in the program, and assess whether or not their training program is proceeding as described in this document with a dated written summary of this evaluation?

| Yes | No |
|-------------------------------------|--------------------------|
| <input checked="" type="checkbox"/> | <input type="checkbox"/> |

26. Please provide the structure of the training program to include (but not limited to): the length and number of clinical rotations per year; distribution of time allocated for research, writing, exam preparation, other scholarly activity, and vacation; and distribution of time allocated to out-rotations if this is a multi-site program.

Please refer to the CM (Section 9.F) for specific details. The following table is provided as an example.

NOTE: a detailed description defining the individual time requirements would be acceptable in addition to the table.

Example:

| | Year 1 # Weeks | Year 2 # Weeks | Year 3 # Weeks | Total # Weeks | Training On Site or Off Site |
|--|-------------------|-------------------|-------------------|------------------|---------------------------------|
| Internal Medicine, Direct Diplomate Supervised (Diplomates listed in number 9), Minimum of 68 weeks | | | | | |
| Direct Supervision | 34 | 28 | 26 | 88 | On site |
| Additional Diplomate Supervised Rotations (Diplomates listed in number 8), Minimum of 16 weeks | | | | | |
| Emergency and Critical Care | 2 | 2 | | 4 | On site |
| Cardiology | 2 | 2 | 2 | 6 | On site |
| Neurology | 2 | 2 | | 4 | On site |
| Oncology | 2 | 2 | 2 | 6 | On site |
| Additional Direct or Indirectly Supervised Rotations | | | | | |
| Internal Medicine, Indirectly Supervised | | | 8 | 8 | On site |
| Additional Clinical Rotations: Please specify in comment section | 2 | 2 | 2 | 6 | On site |
| Electives* | 1 | 1 | 1 | 3 | Off site |

| | | | | | |
|---|-----------|-----------|-----------|------------|-------------|
| Diagnostic Imaging | | | | | |
| Radiology | | 1 | | 1 | On site |
| Ultrasound | 1 | | | 1 | On site |
| Pathology | | | | | |
| Clinical Pathology | | 1 | | 1 | Off site |
| Anatomical Pathology | | | | | |
| Additional Rotations | | | | | |
| Research and Scholarly Activity | 4 | 4 | 4 | 12 | On site |
| Studying | | 4 | 4 | 8 | |
| Meeting | | 1 | 1 | 2 | On/Off site |
| Vacation | 2 | 2 | 2 | 6 | Off site |
| Total | 52 | 52 | 52 | 156 | |
| * Electives can be 0-3 weeks. If unavailable, will default to directly supervised internal medicine | | | | | |

Please note that this table is for recording the number of weeks and/or hours that the resident will spend on the rotations/services for each year that will satisfy the CM requirements. The number for each year should add up to 52 weeks. It is understood that each resident's program will differ with regard to which year a given rotation is completed; the table should summarize the rotations in which residents in your program will participate. The CM specifies that the program outlined in this program renewal form becomes the requirements that a resident must fulfill to complete the training program. Please see CM section 4.F.2 "Once a program has been approved, even if its requirements exceed the minimum requirements as published in the CM, the requirements specified in the program description have become the official requirements for completion of the residency. Neither a candidate nor a Program Director may retroactively petition for successful completion of a residency that has met the minimum requirements of the CM if they have left the program but have not completed all requirements of the previously approved program."

PLEASE CHECK YOUR MATH

| | Year 1 # Weeks | Year 2 # Weeks | Year 3 # Weeks | Total # Weeks | Training On Site or Off Site |
|---|-------------------|-------------------|-------------------|------------------|---------------------------------|
| Internal Medicine, Direct Diplomate Supervised (Diplomates listed in number 7), Minimum of 68 weeks | | | | | |
| Direct Supervision | 28 | 24 | 22 | 74 | Onsite |
| Additional Diplomate Supervised Rotations (Diplomates listed in number 8), Minimum of 16 weeks [CM 9.F.2] | | | | | |
| Cardiology | 2 | 4 | 2 | 8 | onsite |
| Oncology | 2 | 2 | 4 | 8 | onsite |
| Neurology | 4 | 2 | 2 | 8 | onsite |
| Critical Care | | | | | |
| Additional Direct or Indirectly Supervised Rotations | | | | | |
| Internal Medicine, Indirectly Supervised | | | | | |
| Additional Clinical Rotations: Please specify in comment section | 6 | 4 | 4 | 14 | onsite |
| Electives* | 2 | 4 | 4 | 10 | onsite |
| Diagnostic Imaging | | | | | |
| Radiology | | | 1 | 1 | onsite |
| Ultrasound | | 1 | | 1 | onsite |
| Pathology | | | | | |
| Clinical Pathology | | 1 | | 1 | offsite |
| Anatomical Pathology | | | | | |
| Additional Rotations | | | | | |
| Scholarly Activity | 5 | 3 | 4 | 12 | |
| Studying | | 4 | 6 | 10 | |

| | | | | | |
|--|-----------|-----------|-----------|------------|--|
| Meeting | 1 | 1 | 1 | 3 | |
| Vacation | 2 | 2 | 2 | 6 | |
| | | | | | |
| Total | 52 | 52 | 52 | 156 | |
| <i>* Electives can be 0-3 weeks. If unavailable, will default to directly supervised internal medicine</i> | | | | | |

NOTE: a detailed description defining the individual time requirements would be acceptable here in addition to the table:

Describe: Residents spend a total of 14 weeks working under both the direct or indirect supervision of our critical care specialists

27. Is there any additional pertinent information that the Residency Training Committee should consider in its evaluation of this Training Program?

| | |
|--------------------------|-------------------------------------|
| Yes | No |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Describe:

Please note, any Program Director or Candidate that significantly changes or alters this Residency Training Program before completion must notify ACVIM, in writing, before the changes are made to ensure that the proposed changes are approved.

Significant changes could include, but are not limited to:

- transferring from one program to another
- alterations in program duration
- switching to a 'dual board' program
- enrolling in an institutional graduate program
- change of Program Director or Resident Advisor

As Program Director, I verify that the above information is an accurate reflection of this Residency Training Program.

Per the Certification Manual, each year, the Program Director must certify to the RTC/ RTCC and ACVIM, in writing, that they have read the ACVIM Certification Manual and understands their role in residency training.

Checking this box is an indication I have read the ACVIM Certification Manual and understand my role in Residency Training Program.
