

**RESIDENCY TRAINING PROGRAM REGISTRATION  
2019-2020  
SMALL ANIMAL INTERNAL MEDICINE**

**Part One**

**New applications for ACVIM Residency Training Programs must be received by the Residency Training Committee (RTC) 90 days prior to any residents beginning training. Before completing this form, please review the general and specific requirements for Small Animal Internal Medicine (SAIM) Residency Training Programs in the ACVIM Certification Manual (CM). The current version of the CM is available on the ACVIM website at [www.ACVIM.org](http://www.ACVIM.org).**

**Prior to making significant changes in a Residency Training Program, approval of the ACVIM and SAIM RTC must be obtained. The Candidate and/or Program Director must notify ACVIM, in writing. Significant changes could include, but are not limited to: changes in Program Director or any advisors, transferring from one program to another, alterations in program duration, locations of secondary site training, switching to a 'dual board' program, or enrolling in an institutional graduate program.**

**Notice:** The data collected in this form is necessary both for the ACVIM to maintain its accreditation as a Registered Veterinary Specialty Organization and also is required for renewal of the residency training program. Some of the data collected is required of every specialty and some is specific to the specialty of Small Animal Internal Medicine.

**For multi-site residency programs:** To ensure uniformity of training and compliance with current CM requirements, training programs which include multiple sites must provide detailed information regarding supervision and facilities available at each specific site(s). Multi-site programs, if any, are listed in Part Two.

Program Director Name: Dr. David Grant

The Program Director must be an active Diplomate of ACVIM in the Specialty of Small Animal Internal Medicine boarded for at least 4 years with 3 years experience training residents

Program Director's Contact Information:

Work Phone:	(540) 231-4621
Mobile Phone:	
E-mail:	<a href="mailto:dgrant@vt.edu">dgrant@vt.edu</a>
Mailing Address:	SA Clin. Sci., VA-MD CVM VMIA Building, 205 Duckpond Dr. Room 315 Blacksburg, VA 24061-0442

1. Location of Sponsoring Institution (Primary Site of Residency Training Program):

Primary Site Location:	Length of Training Program:
<a href="#">Virginia Tech</a>	3 year

2. Resident Advisor(s): Must be Diplomate(s) of ACVIM in the Specialty of Small Animal Internal Medicine and boarded for at least 2 years with 1 year experience training residents. **Each Resident Advisor may supervise no more than 2 residents at a time.**

Timothy Bolton  
 Stephanie DeMonaco  
 David Grant  
 David Panciera

3. Supervising Diplomates on-site: Two on-site Diplomates boarded in Small Animal Internal Medicine are required - **2 ACVIM, or 1 ACVIM & 1 ECVIM**. The supervising diplomates must be active in the practice of the specialty and must maintain clinical competency in the field.

Timothy Bolton - SAIM  
 Stephanie DeMonaco - SAIM  
 David Grant - SAIM  
 David Panciera - SAIM

4. List all ACVIM Diplomates onsite responsible for supervision of clinical training who specialize in areas other than SAIM. If off-site, please explain the situation, and the method of providing direct contact with the resident.

Name and Specialty	Comments
Jonathan Abbott - Cardiology Michele Borgarelli - Cardiology Sunshine Lahmers - Cardiology Avril Arendse - Neurology Theresa Pancotto - Neurology John Rossmeisl - Neurology, SAIM Nikolaos Dervisis - Oncology Shawna Klahn - Oncology	

5. List residents currently participating in your training program, along with the beginning date of the program, expected ending date of the program, and designated Resident Advisor.

Resident Name	Start date (mm/dd/yyyy)	End Date (mm/dd/yyyy)	Resident Advisor Name*
Ashley Wilkinson	7/18/16	7/15/19	David Panciera
Audrey Keebaugh	7/18/17	7/15/20	Stefanie DeMonaco
Jessica Villm	7/15/18	7/15/21	David Panciera

RESIDENCY TRAINING PROGRAM REGISTRATION  
2019-2020  
SMALL ANIMAL INTERNAL MEDICINE

Part Two

Part Two of the Small Animal Internal Medicine Residency Training process addresses general features of the program that apply to all current residents. These questions will be used to provide the Residency Training Committee with information needed to judge the structure, quality, scope, and consistency of training provided.

The SAIM Residency Training Committee may require supporting evidence for any statements made below. Per the Certification Manual (CM) section 9.C.2, at the time of annual program renewal, Program Directors may be asked to verify resident activities, including satisfactory clinical training, interaction with consultants, documentation of training in radiology and clinical pathology, documentation of off-site training, and documentation of study and education participation.

Current Date:

Program Director Name:

Must be an active Diplomate of ACVIM in the Specialty of Small Animal Internal Medicine boarded for at least 4 years with 3 years of experience training residents

Name of Sponsoring Institution (Residency Training Program):

1. For multi-site residency programs: To ensure uniformity of training and compliance with current CM requirements, training programs that include multiple sites must provide detailed information regarding supervision and facilities available at each specific site(s). All requirements for both direct and indirect supervision must be met, as well as requirements for rounds and conferences. Refer to Section 9.C.1.e of the CM for definitions of secondary site and off-site experiences.

a) **Secondary Site for multi-site program (if applicable):**

Please attach specific information regarding the number of weeks scheduled at each site and which rotation requirements shall be met at each site.

b) **Outside Rotations/Other Sites for specialty training (if applicable):**

All rotations performed at a location other than that of the resident's program must be documented with a signed Residency Training Agreement Form from the specialist(s) providing the outside rotation. Residency Training Agreement Forms from the specialist(s) must also be included with the program renewal form. Please attach signed Residency Training Agreement Forms from all individuals providing off-site training of SAIM residents to this registration form. Residency Training Agreement Forms must be submitted annually with program renewal forms and with each new program request. This program application is not complete without Residency Training Agreement Forms for all outside rotations. If off-site rotations are added after program renewal, please submit necessary residency training agreement forms a minimum of 30 days before the resident departs for that off-site training.

2. Length of Training Program/Advanced degree:

a) Length in Years:

b) Advanced Degree:

	Yes	No	Optional
Masters:	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
PhD:	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

3. Please list all of the Diplomates of Veterinary Pathology in the areas of clinical or anatomic pathology approved by the American Board of Veterinary Specialties or European Board of Veterinary Specialties associated with residency training. If off-site, please attach signed Residency Training Agreement Forms from all individuals providing off-site training.

Name of Diplomate(s)	Clinical or Gross	Board Certification (e.g. ACVP, ECVCP)	Comments
Dr. Kevin Lahmers Dr. Tanya LeRoith Dr. Kurt Zimmerman Dr. Katy Boes Dr. Tom Cecere Dr. Sarah Barrett Dr. Sheryl Coutermarsh-Ott	Anatomical Anatomical Anat. & Clin. Clinical Path Anatomical Clinical Path Anatomical	ACVP ACVP ACVP ACVP ACVP ACVP ACVP	

4. Please list all Diplomates of the American College of Veterinary Radiology or approved American Board of Veterinary Specialties radiology board associated with residency training. If off-site please attach signed Residency Training Agreement Forms from all individuals providing off-site training.

Name of Diplomate(s)	Include Board certification (e.g. ACVR, ECVDI)	Comments
Dr. Martha Moon Larson Dr. Gregory B. Daniel Dr. Kember Clapp	ACVR ACVR ACVR	

5. Please list the Diplomates available for consultation in the areas of dermatology, surgery, ophthalmology, anesthesiology, emergency/critical care, clinical nutrition, clinical pharmacology, and/or theriogenology. If off-site, please attach signed Residency Training Agreement Forms from all individuals providing off-site training.

Name of Diplomate(s)	Specialty	Board Certification	Comments
Dr. Otto Lanz Dr. Noelle Muro Dr. Dominique Sawyere Dr. Sabrina Barry Dr. Joanne Tuohy Dr. Ian Herring Dr. Terry Swecker Dr. Megan Shepherd Dr. Sherrie Clark Dr. Julie Cercere Dr. Jeff Wilcke Dr. Jennifer Davis Dr. David Moore Dr. Natalia Guerrero Dr. Noah Pavlisko Dr. Jeff Wilson Dr. Ben Tham	Surgery Surgery Surgery Surgery Surgery Ophthalmology Clin Nutrition Clin Nutrition Theriogenology Theriogenology Clin Pharm Clin Pharm Lab Animal Anesthesia Anesthesia Anesthesia Dermatology	ACVS ACVS ACVS ACVS ACVS ACVO ACVN ACVN ACT ACT ACVCP ACVCP ACLAM ACVAA ACVAA ACVAA ACVD	

6. Does your training program consist of a minimum of 36 months?

Yes  No

Comments:

7. Does each resident in your program spend a minimum of 68 weeks on clinical rotations under the direct supervision of at least 2 ACVIM SAIM Diplomates (or at least 1 ACVIM SAIM Diplomate and at least 1 ECVIM Companion Animal Diplomate)?

Yes No

Supervising Diplomat Name(s)	Specialty	Board Certification (e.g. ACVIM, ECVIM)	Comments
Dr. David Grant Dr. Timothy Bolton Dr. David Panciera Dr. Stefanie DeMonaco	SAIM SAIM SAIM SAIM	ACVIM ACVIM ACVIM ACVIM	

8. Does each resident in your program spend an additional 16 weeks of clinical training under the **direct supervision** of one or more supervising Diplomat(s) in other specialties such as cardiology, oncology, neurology, critical care, or ophthalmology? These Diplomates may be certified by the ACVIM or ECVIM, or by the American Board of Veterinary Specialties (ABVS) approved specialties or approved European Board of Veterinary Specialization recognized certification entities. A maximum of two secondary training site rotations is allowable for meeting clinical training in other specialties. These formal rotations on a specialty service must be completed in defined training periods of at least two continuous weeks each and the resident must have primary case responsibility. Additional SAIM weeks cannot be used to satisfy this requirement [See CM 9.F.2].

Yes No

Supervising Diplomat Name(s)	Specialty	Board Certification (e.g. ACVIM, ECVIM)	Comments
Dr. Jonathan Abbott Dr. Michele Borgarelli Dr. Sunshine Lahmers Dr. Theresa Pancotto Dr. John Rossmesl Dr. Nick Dervis Dr. Shawna Klahn Dr. Averil Arendse	Cardiology Cardiology Cardiology Neurology Neurology Oncology Oncology Neurology	ACVIM ECVIM-CA ACVIM ACVIM ACVIM ACVIM ACVIM ACVIM	

9. Does each resident in your training program spend an additional 36 weeks in training, not necessarily under direct supervision, in either internal medicine or related areas, or in writing, studying, teaching, or obtaining experience with a radiologist, clinical pathologist, or other specialist? (Note that vacation time and time to attend professional meetings is included in this period.)

Yes No

Describe:

This is itemized in item 26. The resident spends 31 weeks in Internal Medicine beyond the 68 required, 7 weeks of ultrasound beyond required 1 week, and an elective of either 3 more weeks in Internal Medicine or another specialty of their choosing.

10. Does each resident in your training program spend a minimum of 8 hours per month in training with at least two other board-certified specialists (not ACVIM)? These may be specialists in dermatology, theriogenology, surgery, anesthesiology, ophthalmology, emergency/critical care, or clinical pharmacology. The training must be direct consultation, not telephone or E-mail consultation.

Yes No

Describe:

8 hours per month training with at least 2 other board-certified specialists (not-ACVIM) is not a requirement I can find in the CM. However, our IM residents directly consult with Diplomates of ACVS, ACVAA, ACVP, ACVIM Neurology, ACVIM Cardiology, ACVIM Oncology, AT, and ACVR on a daily basis as needed to properly manage IM patients, to assist those specialists with their patients. This may exceed 8 hours per month, but I cannot tabulate that. Additionally, some months IM residents train spend the entire month training in IM versus others they may train entirely in other specialties as required

by the CM and itemized in Item 26. In doing so, they and the program still meet all CM requirements.

11. Does each resident in your training program have a minimum of **80 hours** of direct contact with a board-certified veterinary radiologist? **Forty hours** comprised of interpreting radiographs, learning and evaluating the results of special imaging techniques, and attending radiology rounds or conferences?

Yes	No
<input checked="" type="checkbox"/>	<input type="checkbox"/>

And an additional minimum of **40 hours** spent training in ultrasonography under the supervision of a board-certified veterinary radiologist. This training should emphasize abdominal ultrasonography and must include hands-on performance of abdominal ultrasonography, observation of ultrasound procedures on the resident's own patients, and theoretical training in the principals and application of ultrasonography.

Yes	No
<input checked="" type="checkbox"/>	<input type="checkbox"/>

12. Does each resident in your training program attend weekly conferences?

Yes	No
<input type="checkbox"/>	<input type="checkbox"/>

Describe:

Our residency program uses multiple types of conferences to meet this requirement, and they are of varying lengths. Additionally, many residents take additional formal courses (ex. cytology, statistics, etc.) as part of their required concurrent M.S. degree, which I have not listed here. These further contribute to the "weekly conferences" requirement.

Formal Case Conference 30 minutes the first week of each 3 week block. IM residents attend all of these. These are completely separate from daily clinical rounds. A challenging case is selected by an intern or resident veterinarian and approved by an internist. Case materials are distributed 1 week in advance for review by the entire IM service to prepare for discussion and questioning. The chosen intern or resident leads the discussion and internists extend the discussion and instruction. This includes instruction and discussion diagnostic imaging, pathophysiology, cytology, pathology, endoscopy, epidemiology, etc.

Formal Departmental Intern Resident Seminars 1 hour, 8 to 9 times a year. IM residents attend all of these. 4-5 Hospital Residents and/or Interns present 15-20 minute seminars. Within these times, IM residents present twice per year their 1st year, and once per year each of 2nd and 3rd year and they typically attend all 8-9 Intern Resident Seminars Sessions. All residents attend.

Formal VMCVM Research Day- 1 day each year. Residents present their research on this day in their 2nd & 3rd years of program and in all years of their program attend several hours of research presentations and poster sessions.

Master of Science Seminar Course 1 hour/week for 15 weeks (1 semester of MS degree) is required, but some IM residents take this Seminar Course more than once. Residents present at least one seminar during the course and attend other students seminars each week.

Formal Cytology rounds 1 hour/week, 2 weeks of each 3 week block. IM Residents can attend these to meet the "Weekly Conferences" requirement.

Formal Joint Clinical and Anatomic Pathology Rounds- 1 hour weekly. IM residents can attend these to meet the "Weekly Conferences" requirement.

Formal Necropsy Rounds 30 min- 1 hour weekly. IM Residents can attend these to meet the "Weekly Conferences" requirement.

13. Does each resident have **40 hours** of review sessions per year? Yes  No

Describe: Intensive Review Sessions 1 hour/week, 40 weeks a year. These are Intensive Review Sessions with reference materials to include journal articles, book chapters, etc. lead most often by Diplomates of ACVIM SAIM and Diplomates of other specialties listed above, and a minority of the time by the ACVIM SAIM residents with a Supervising Diplomate present to supervise.

14. Does each resident in your training program have a minimum of **40 hours** direct contact with a board certified veterinary clinical or anatomic pathologist evaluating clinical pathologic findings, reviewing cytologies and biopsies, and attending clinical pathologic conferences or seminars?

Yes  No

Describe: Residents are assigned to 1 week of Clinical Pathology in which their entire time is spent working with a Clinical Pathologist

15. Patient Management:

a) Does each resident in your program participate in patient management, including patient receiving, diagnostics, case management and decision making, client communication, case follow-up, and communication with referral veterinarians?

Yes  No

b) Is case management directly supervised and reviewed by a Diplomate of the ACVIM?

Yes  No

16. Is a complete medical record using the problem oriented veterinary medical record system maintained for each individual patient? (Medical records must be retrievable.)

Yes  No

17. Clinical Rounds:

a) Does the resident participate in clinical rounds on a daily basis while on clinical rotations?

Yes  No

b) Is a supervising Diplomate available for the majority of the daily rounds reported in question 17?

Yes  No

c) If a supervising Diplomate is not available for the majority of rounds, describe how rounds are attended and supervised.

Describe: Not applicable

18. Please indicate the availability of the following facilities or equipment to be used in resident training. Indicate if these are available at the primary training site, or at a different location. (In the Location column, indicate on-site for primary location or the name of the facility where the equipment is located if off-site.) For facilities that are not on-site, please describe the situation, availability, and how the facilities or equipment are used for resident training in the space at the end of this section.

	Available?		Location of equipment?
	Yes	No	(On-site or list site name)

Standard radiological equipment	<input checked="" type="checkbox"/>	<input type="checkbox"/>	on
Ultrasonographic equipment	<input checked="" type="checkbox"/>	<input type="checkbox"/>	on
Color flow/Doppler equipment	<input checked="" type="checkbox"/>	<input type="checkbox"/>	on
Endoscopy equipment	<input checked="" type="checkbox"/>	<input type="checkbox"/>	on
Clinical Pathology capabilities: (includes CBC, serum chemistries, blood gases, urinalysis, cytology, parasitology, microbiology, and endocrinology)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	on
Blood Pressure Measurement	<input checked="" type="checkbox"/>	<input type="checkbox"/>	on
Electromyography	<input checked="" type="checkbox"/>	<input type="checkbox"/>	on
Nuclear Medicine	<input checked="" type="checkbox"/>	<input type="checkbox"/>	on
Computed Tomography	<input checked="" type="checkbox"/>	<input type="checkbox"/>	on
Magnetic Resonance Imaging	<input checked="" type="checkbox"/>	<input type="checkbox"/>	on
Computerized Medical Records w/Searching Capabilities	<input checked="" type="checkbox"/>	<input type="checkbox"/>	on
Veterinary Library w/Literature Searching Capabilities	<input checked="" type="checkbox"/>	<input type="checkbox"/>	on
Intensive Care Facility – 24 hours	<input checked="" type="checkbox"/>	<input type="checkbox"/>	on

If any of the above equipment or facilities is available off-site, please explain how the resident can access them for case management, research, or study.

--

19. Clinical caseload information (this information should reflect the caseload of the prior 12 months)

Total SAIM caseload per year:

1551 in Calendar Year 2018
----------------------------

Number of endoscopic examinations (respiratory, GI) per year:

196 in Calendar Year 2018
---------------------------

Number of endoscopic examinations (urinary) per year:

34 in Calendar Year 2018
--------------------------

20. Didactic Learning Opportunities and Research Requirements: In recognition of the importance of scientific discovery as a critical mission of the ACVIM, all Residency Training Programs shall include an assessment period or instruction and/or participation in creative scholarship which will foster an appreciation of, competency in, and contribution to the knowledge base of their respective specialty and which will support their development as clinician scientists. This requirement is fulfilled through satisfactory completion of A and one of B [See CM 9.F.4]:

a) Journal Club: Critical review of literature, minimum of eighty (80) hours during the program. Describe how this requirement is met or exceeded.

Journal club is 35 minutes weekly for 45-48 weeks a year. This equates to 80-84 hours during a 3 year program.
--

b) At least 12 weeks over the three-year residency must be allocated for research and scholarly activity ideally in the pursuit of a publication. Successful completion of any one of the options listed below will satisfy the requirements for research by SAIM residents. Describe how this will be fulfilled or exceeded in the individual trainee's specific application.

1. Successful completion of at least six hours of seminars or classes offered at the ACVIM Forum, as on-line courses, or at other facilities and recognized by the ACVIM and covering the following subjects: Critical evaluation of the veterinary medical/biomedical literature, Grant-writing or Study design, and participation in clinical trials
2. Documented (by a letter from the RA) submission of a grant proposal
3. Acceptance and presentation at a scientific meeting of an abstract (either oral or poster) of original work
4. Documented completion (by a letter from the RA) of a prospective research project pertinent to SAIM
5. Documented completion (by a letter from the RA) of a retrospective research project pertinent to SAIM
6. Documented completion (by a letter from the RA) of graduate coursework in biostatistics, research methods, and/or research ethics

Our residents are enrolled in a master's degree program, are commonly participate in a research project, submit a grant proposal, and submit their research as an ACVIM Forum abstract. Thus, they will at minimum complete item 6, and may exceed the requirement by completing items 2, 3, and 4 or 5.
--

21. Is the resident required to give one or more formal presentations at a conference or in an educational setting on a yearly basis? Please provide a description of the conferences, etc., that are provided and the typical schedule.

Yes	No
<input checked="" type="checkbox"/>	<input type="checkbox"/>

Describe: Case Conference 30 minutes once each 3 week block. A challenging case is presented by an intern or resident veterinarian and discussed by all residents and internists in attendance. Residents present at minimum once a year.

Intensive Review Sessions 1 hour/week, 40 weeks a year. These are Intensive Review Sessions with reference materials to include journal articles, book chapters, etc. lead most often by Diplomates of ACVIM SAIM and Diplomates of other specialties listed above, and a minority of the time by the ACVIM SAIM residents. Each resident presents at least once a year.

Departmental Intern Resident Seminars 1 hour, 8 to 9 times a year. 4-5 Hospital Residents and/or Interns present 15-20 minute seminars. Within these times, IM residents present twice per year their 1st year, and once per year each of 2nd and 3rd year.

Master of Science Seminar Course 1 hour/week for 15 weeks (1 semester of MS degree) is required, but some residents take this Seminar Course more than once. Residents present at least one seminar during the course.

22. How many major veterinary medical or medical meetings is each resident able to or expected to attend during his/her training program?

Program length	One	Two	> Two
3	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

23. Does the training program require a research project? Please indicate the number of research projects required.

Program Length	Yes	No	Optional	Number
3	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	1 research project

24. Are one or more publications required as part of the training program?

Program length	Yes	No	Number
3	<input checked="" type="checkbox"/>	<input type="checkbox"/>	1

25. Does each resident in your program meet at least twice yearly with their Resident Advisor to evaluate the resident's performance, review their progress in the program, and assess whether or not their training program is proceeding as described in this document with a dated written summary of this evaluation?

Yes	No
<input checked="" type="checkbox"/>	<input type="checkbox"/>

26. Please provide the structure of the training program to include (but not limited to): the length and number of clinical rotations per year; distribution of time allocated for research, writing, exam preparation, other scholarly activity, and vacation; and distribution of time allocated to out-rotations if this is a multi-site program.

Please refer to the CM (Section 9.F) for specific details. The following table is provided as an example.

**NOTE: a detailed description defining the individual time requirements would be acceptable in addition to the table.**

Example:

	Year 1 # Weeks	Year 2 # Weeks	Year 3 # Weeks	Total # Weeks	Training On Site or Off Site
Internal Medicine, Direct Diplomate Supervised (Diplomates listed in number 9), Minimum of 68 weeks					

Direct Supervision	34	28	26	88	On site
Additional Diplomate Supervised Rotations (Diplomates listed in number 8), Minimum of 16 weeks					
Emergency and Critical Care	2	2		4	On site
Cardiology	2	2	2	6	On site
Neurology	2	2		4	On site
Oncology	2	2	2	6	On site
Additional Direct or Indirectly Supervised Rotations					
Internal Medicine, Indirectly Supervised			8	8	On site
Additional Clinical Rotations: Please specify in comment section	2	2	2	6	On site
Electives*	1	1	1	3	Off site
Diagnostic Imaging					
Radiology		1		1	On site
Ultrasound	1			1	On site
Pathology					
Clinical Pathology		1		1	Off site
Anatomical Pathology					
Additional Rotations					
Research and Scholarly Activity	4	4	4	12	On site
Studying		4	4	8	
Meeting		1	1	2	On/Off site
Vacation	2	2	2	6	Off site
<b>Total</b>	<b>52</b>	<b>52</b>	<b>52</b>	<b>156</b>	
* Electives can be 0-3 weeks. If unavailable, will default to directly supervised internal medicine					

Please note that this table is for recording the number of weeks and/or hours that the resident will spend on the rotations/services for each year that will satisfy the CM requirements. The number for each year should add up to 52 weeks. It is understood that each resident's program will differ with regard to which year a given rotation is completed; the table should summarize the rotations in which residents in your program will participate. The CM specifies that the program outlined in this program renewal form becomes the requirements that a resident must fulfill to complete the training program. Please see CM section 4.F.2 "Once a program has been approved, even if its requirements exceed the minimum requirements as published in the CM, the requirements specified in the program description have become the official requirements for completion of the residency. Neither a candidate nor a Program Director may retroactively petition for successful completion of a residency that has met the minimum requirements of the CM if they have left the program but have not completed all requirements of the previously approved program."

**PLEASE CHECK YOUR MATH**

	Year 1 # Weeks	Year 2 # Weeks	Year 3 # Weeks	Total # Weeks	Training On Site or Off Site
Internal Medicine, Direct Diplomate Supervised (Diplomates listed in number 7), Minimum of 68 weeks					
Direct Supervision	30	26	24	80	on
Additional Diplomate Supervised Rotations (Diplomates listed in number 8), Minimum of 16 weeks [CM 9.F.2]					
Cardiology	3	3		6	on
Oncology	2	2		4	on
Neurology	3	3		6	on
Critical Care				0	
Additional Direct or Indirectly Supervised Rotations					
Internal Medicine, Indirectly Supervised	4 weeks will be indirectly supervised	4 weeks will be indirectly supervised	9 weeks will be indirectly supervised	17	on

	at the discretion of Diplomates listed in item 7. If not indirect, they will be directly supervised.	at the discretion of Diplomates listed in item 7. If not indirect, they will be directly supervised.	at the discretion of Diplomates listed in item 7. If not indirect, they will be directly supervised.		
Additional Clinical Rotations: Please specify in comment section

<i>* Electives can be 0-3 weeks. If unavailable, will default to directly supervised internal medicine</i>					

NOTE: a detailed description defining the individual time requirements would be acceptable here in addition to the table:

Describe:

27. Is there any additional pertinent information that the Residency Training Committee should consider in its evaluation of this Training Program?

Yes      No

    

Describe:

Please note, any Program Director or Candidate that significantly changes or alters this Residency Training Program before completion must notify ACVIM, in writing, before the changes are made to ensure that the proposed changes are approved.

Significant changes could include, but are not limited to:

- transferring from one program to another
- alterations in program duration
- switching to a 'dual board' program
- enrolling in an institutional graduate program
- change of Program Director or Resident Advisor

As Program Director, I verify that the above information is an accurate reflection of this Residency Training Program.

Per the Certification Manual, each year, the Program Director must certify to the RTC/ RTCC and ACVIM, in writing, that they have read the ACVIM Certification Manual and understands their role in residency training.

Checking this box is an indication I have read the ACVIM Certification Manual and understand my role in Residency Training Program.
