

**RESIDENCY TRAINING PROGRAM REGISTRATION
2019-2020
SMALL ANIMAL INTERNAL MEDICINE**

Part One

New applications for ACVIM Residency Training Programs must be received by the Residency Training Committee (RTC) 90 days prior to any residents beginning training. Before completing this form, please review the general and specific requirements for Small Animal Internal Medicine (SAIM) Residency Training Programs in the ACVIM Certification Manual (CM). The current version of the CM is available on the ACVIM website at www.ACVIM.org.

Prior to making significant changes in a Residency Training Program, approval of the ACVIM and SAIM RTC must be obtained. The Candidate and/or Program Director must notify ACVIM, in writing. Significant changes could include, but are not limited to: changes in Program Director or any advisors, transferring from one program to another, alterations in program duration, locations of secondary site training, switching to a 'dual board' program, or enrolling in an institutional graduate program.

Notice: The data collected in this form is necessary both for the ACVIM to maintain its accreditation as a Registered Veterinary Specialty Organization and also is required for renewal of the residency training program. Some of the data collected is required of every specialty and some is specific to the specialty of Small Animal Internal Medicine.

For multi-site residency programs: To ensure uniformity of training and compliance with current CM requirements, training programs which include multiple sites must provide detailed information regarding supervision and facilities available at each specific site(s). Multi-site programs, if any, are listed in Part Two.

Program Director Name: Dr. Rance K. Sellon

The Program Director must be an active Diplomate of ACVIM in the Specialty of Small Animal Internal Medicine boarded for at least 4 years with 3 years experience training residents

Program Director's Contact Information:

Work Phone:	(509) 335-0815
Mobile Phone:	
E-mail:	rsellon@vetmed.wsu.edu
Mailing Address:	Veterinary Clinical Sciences, CVM PO Box 7060 Pullman, WA 99164-6610

1. Location of Sponsoring Institution (Primary Site of Residency Training Program):

Primary Site Location:	Length of Training Program:
Washington State University	3 year

2. Resident Advisor(s): Must be Diplomate(s) of ACVIM in the Specialty of Small Animal Internal Medicine and boarded for at least 2 years with 1 year experience training residents. **Each Resident Advisor may supervise no more than 2 residents at a time.**

Jillian Haines
Rance Sellon
Jennifer Slovak

3. Supervising Diplomates on-site: Two on-site Diplomates boarded in Small Animal Internal Medicine are required - **2 ACVIM, or 1 ACVIM & 1 ECVIM**. The supervising diplomates must be active in the practice of the specialty and must maintain clinical competency in the field.

Jillian Haines - SAIM
Rance Sellon - SAIM, Oncology
Jennifer Slovak - SAIM

4. List all ACVIM Diplomates onsite responsible for supervision of clinical training who specialize in areas other than SAIM. If off-site, please explain the situation, and the method of providing direct contact with the resident.

Name and Specialty	Comments
Pamela Lee - Cardiology O. Lynne Nelson - Cardiology, SAIM Annie Chen - Neurology Hillary Greeting - Neurology Janean Fidel - Oncology	

5. List residents currently participating in your training program, along with the beginning date of the program, expected ending date of the program, and designated Resident Advisor.

Resident Name	Start date (mm/dd/yyyy)	End Date (mm/dd/yyyy)	Resident Advisor Name*
Susan Mehain	7/15/17	7/15/20	Jillian Haines
Sara Ravicini	7/15/17	7/15/20	Jennifer Slovak

**RESIDENCY TRAINING PROGRAM REGISTRATION
2019-2020
SMALL ANIMAL INTERNAL MEDICINE**

Part Two

Part Two of the Small Animal Internal Medicine Residency Training process addresses general features of the program that apply to all current residents. These questions will be used to provide the Residency Training Committee with information needed to judge the structure, quality, scope, and consistency of training provided.

The SAIM Residency Training Committee may require supporting evidence for any statements made below. Per the Certification Manual (CM) section 9.C.2, at the time of annual program renewal, Program Directors may be asked to verify resident activities, including satisfactory clinical training, interaction with consultants, documentation of training in radiology and clinical pathology, documentation of off-site training, and documentation of study and education participation.

Current Date:

Program Director Name:

Must be an active Diplomate of ACVIM in the Specialty of Small Animal Internal Medicine boarded for at least 4 years with 3 years of experience training residents

Name of Sponsoring Institution (Residency Training Program):

1. For multi-site residency programs: To ensure uniformity of training and compliance with current CM requirements, training programs that include multiple sites must provide detailed information regarding supervision and facilities available at each specific site(s). All requirements for both direct and indirect supervision must be met, as well as requirements for rounds and conferences. Refer to Section 9.C.1.e of the CM for definitions of secondary site and off-site experiences.

a) Secondary Site for multi-site program (if applicable):

Please attach specific information regarding the number of weeks scheduled at each site and which rotation requirements shall be met at each site.

b) Outside Rotations/Other Sites for specialty training (if applicable):

All rotations performed at a location other than that of the resident's program must be documented with a signed Residency Training Agreement Form from the specialist(s) providing the outside rotation. Residency Training Agreement Forms from the specialist(s) must also be included with the program renewal form. Please attach signed Residency Training Agreement Forms from all individuals providing off-site training of SAIM residents to this registration form. Residency Training Agreement Forms must be submitted annually with program renewal forms and with each new program request. This program application is not complete without Residency Training Agreement Forms for all outside rotations. If off-site rotations are added after program renewal, please submit necessary residency training agreement forms a minimum of 30 days before the resident departs for that off-site training.

2. Length of Training Program/Advanced degree:

a) Length in Years:

	Yes	No	Optional
b) Advanced Degree: Masters:	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
PhD:	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

3. Please list all of the Diplomates of Veterinary Pathology in the areas of clinical or anatomic pathology approved by the American Board of Veterinary Specialties or European Board of Veterinary Specialties associated with residency training. If off-site, please attach signed Residency Training Agreement Forms from all individuals providing off-site training.

Name of Diplomate(s)	Clinical or Gross	Board Certification (e.g. ACVP, ECVCP)	Comments
Cleverson DeSouza	clinical	ACVP	
Jane Wardrop	clinical	ACVP	
Josh Daniels	gross	ACVP	
Chrissy Eckstrand	gross	ACVP	
Gary Haldorson	gross	ACVP	
Danielle Nelson	gross	ACVP	
Susan Noh	gross	ACVP	
Kyle Taylor	gross	ACVP	
Laura White	gross	ACVP	

4. Please list all Diplomates of the American College of Veterinary Radiology or approved American Board of Veterinary Specialties radiology board associated with residency training. If off-site please attach signed Residency Training Agreement Forms from all individuals providing off-site training.

Name of Diplomate(s)	Include Board certification (e.g. ACVR, ECVDI)	Comments
Ashley Hannah	ACVR	
John Mattoon	ACVR	
Greg Roberts	ACVR	
Tom Wilkinson	ACVR	

5. Please list the Diplomates available for consultation in the areas of dermatology, surgery, ophthalmology, anesthesiology, emergency/critical care, clinical nutrition, clinical pharmacology, and/or theriogenology. If off-site, please attach signed Residency Training Agreement Forms from all individuals providing off-site training.

Name of Diplomate(s)	Specialty	Board Certification	Comments
Bonnie Campbell	Surgery	ACVS	
Boel Fransson	Surgery	ACVS	
Peter Gilbert	Surgery	ACVS	
Steve Martinez	Surgery	ACVS	
Tina Owen	Surgery	ACVS	
Linda Martin	Emergency Critical Care	ACVECC	
Tandi Ngwenyama	Emergency Critical Care	ACVECC	
Katrina Mealey	Clinical Pharmacology, SAIM	ACVCP, ACVIM	Dr. Mealey does not practice SAIM any longer
Nicholas Villarino	Clinical Pharmacology	ACVCP	
Ahmed Tibary	Theriogenology	ACVT	
Robert Keegan	Anesthesia	ACVA	

6. Does your training program consist of a minimum of 36 months?

Yes No

Comments:

7. Does each resident in your program spend a minimum of 68 weeks on clinical rotations under the direct supervision of at least 2 ACVIM SAIM Diplomates (or at least 1 ACVIM SAIM Diplomate and at least 1 ECVIM Companion Animal Diplomate)?

Yes No

Supervising Diplomate Name(s)	Specialty	Board Certification (e.g. ACVIM, ECVIM)	Comments
Jillian Haines Jennifer Slovak	SAIM SAIM	ACVIM ACVIM	As of June 3, 2019, Dr. Slovak will be leaving WSU.
Rance Sellon Sarah Guess	SAIM:Oncology SAIM	ACVIM ACVIM	Will be providing locum coverage for 6-8 weeks in 2019.

8. Does each resident in your program spend an additional 16 weeks of clinical training under the **direct supervision** of one or more supervising Diplomate(s) in other specialties such as cardiology, oncology, neurology, critical care, or ophthalmology? These Diplomates may be certified by the ACVIM or ECVIM, or by the American Board of Veterinary Specialties (ABVS) approved specialties or approved European Board of Veterinary Specialization recognized certification entities. A maximum of two secondary training site rotations is allowable for meeting clinical training in other specialties. These formal rotations on a specialty service must be completed in defined training periods of at least two continuous weeks each and the resident must have primary case responsibility. Additional SAIM weeks cannot be used to satisfy this requirement [See CM 9.F.2].

Yes No

Supervising Diplomate Name(s)	Specialty	Board Certification (e.g. ACVIM, ECVIM)	Comments
Annie Chen-Allen Janean Fidel Lynne Nelson Pam Lee	Neurology Oncology Cardiology, SAIM Cardiology	ACVIM ACVIM ACVIM ACVIM	Dr. Nelson practices only cardiology

9. Does each resident in your training program spend an additional 36 weeks in training, not necessarily under direct supervision, in either internal medicine or related areas, or in writing, studying, teaching, or obtaining experience with a radiologist, clinical pathologist, or other specialist? (Note that vacation time and time to attend professional meetings is included in this period.)

Yes No

Describe:

10. Does each resident in your training program spend a minimum of 8 hours per month in training with at least two other board-certified specialists (not ACVIM)? These may be specialists in dermatology, theriogenology, surgery, anesthesiology, ophthalmology, emergency/critical care, or clinical pharmacology. The training must be direct consultation, not telephone or E-mail consultation.

Yes No

Describe:

11. Does each resident in your training program have a minimum of **80 hours** of direct contact with a board-certified veterinary radiologist? **Forty hours** comprised of interpreting radiographs, learning and evaluating the results of special imaging techniques, and attending radiology rounds or conferences?

Yes No

And an additional minimum of **40 hours** spent training in ultrasonography under the supervision of a board-certified veterinary radiologist. This training should emphasize abdominal ultrasonography and must include hands-on performance of abdominal

ultrasonography, observation of ultrasound procedures on the resident's own patients, and theoretical training in the principals and application of ultrasonography.

Yes	No
<input checked="" type="checkbox"/>	<input type="checkbox"/>

12. Does each resident in your training program attend weekly conferences?

Yes	No
<input checked="" type="checkbox"/>	<input type="checkbox"/>

Describe:

We have a weekly (Wednesday morning) house officer rounds during which topics, or cases, are presented with an emphasis on review of physiology, pathophysiology, or specific types of disease. SAIM residents typically present 1-2 times each year with other presentations by interns and residents from other specialities. In addition, our residents are required in nearly all semesters to attend a seminar class that occurs on Friday mornings (please see 21 below).

13. Does each resident have **40 hours** of review sessions per year?

Yes	No
<input checked="" type="checkbox"/>	<input type="checkbox"/>

Describe:

Review sessions come in the form of a medicine book club held weekly, house officer rounds as noted above in 12, and house officer seminars that residents are required to attend even when not presenting. To some extent, the rounds held with students on the internal medicine rotation would also serve as review for the residents, particularly those residents in years 1 and 2. Another activity required of our residents is enrollment in what is known as "Guyton class," a once-weekly class offered in the fall and spring semesters every other year. The purpose of this class is to ensure that residents read the Guyton and Hall Textbook of Medical Physiology; over the course of 2 semesters, all but a very few of the chapters are discussed under the guidance of faculty (one faculty member facilitates discussion of each week's scheduled chapters). At the end of each semester, an examination similar to the general examination (mostly multiple choice) is given to those enrolled in the class for credit. The exam is intended to be a "high stakes" exam as the general and specialty examinations are- students that fail the examination can fail the class.

14. Does each resident in your training program have a minimum of **40 hours** direct contact with a board certified veterinary clinical or anatomic pathologist evaluating clinical pathologic findings, reviewing cytologies and biopsies, and attending clinical pathologic conferences or seminars?

Yes	No
<input checked="" type="checkbox"/>	<input type="checkbox"/>

Describe:

Our residents have regular direct contact with our clinical pathologists on a near daily basis. In addition, our residents are allowed, as schedules and case needs dictate, to participate in an hour of weekly cytology rounds with our clinical pathologists.

15. Patient Management:

a) Does each resident in your program participate in patient management, including patient receiving, diagnostics, case management and decision making, client communication, case follow-up, and communication with referral veterinarians?

Yes	No
<input checked="" type="checkbox"/>	<input type="checkbox"/>

b) Is case management directly supervised and reviewed by a Diplomate of the ACVIM?

Yes	No
<input checked="" type="checkbox"/>	<input type="checkbox"/>

16. Is a complete medical record using the problem oriented veterinary medical record system maintained for each individual patient? (Medical records must be retrievable.)

Yes	No
<input checked="" type="checkbox"/>	<input type="checkbox"/>

17. Clinical Rounds:

a) Does the resident participate in clinical rounds on a daily basis while on clinical rotations?

Yes	No
<input checked="" type="checkbox"/>	<input type="checkbox"/>

b) Is a supervising Diplomate available for the majority of the daily rounds reported in question 17?

Yes	No
<input checked="" type="checkbox"/>	<input type="checkbox"/>

c) If a supervising Diplomate is not available for the majority of rounds, describe how rounds are attended and supervised.

Describe:

18. Please indicate the availability of the following facilities or equipment to be used in resident training. Indicate if these are available at the primary training site, or at a different location. (In the Location column, indicate on-site for primary location or the name of the facility where the equipment is located if off-site.) For facilities that are not on-site, please describe the situation, availability, and how the facilities or equipment are used for resident training in the space at the end of this section.

	Available?		Location of equipment?
	Yes	No	(On-site or list site name)
Standard radiological equipment	<input checked="" type="checkbox"/>	<input type="checkbox"/>	on-site
Ultrasonographic equipment	<input checked="" type="checkbox"/>	<input type="checkbox"/>	on-site
Color flow/Doppler equipment	<input checked="" type="checkbox"/>	<input type="checkbox"/>	on-site
Endoscopy equipment	<input checked="" type="checkbox"/>	<input type="checkbox"/>	on-site
Clinical Pathology capabilities: (includes CBC, serum chemistries, blood gases, urinalysis, cytology, parasitology, microbiology, and endocrinology)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	on-site
Blood Pressure Measurement	<input checked="" type="checkbox"/>	<input type="checkbox"/>	on-site
Electromyography	<input checked="" type="checkbox"/>	<input type="checkbox"/>	on-site
Nuclear Medicine	<input checked="" type="checkbox"/>	<input type="checkbox"/>	on-site
Computed Tomography	<input checked="" type="checkbox"/>	<input type="checkbox"/>	on-site
Magnetic Resonance Imaging	<input checked="" type="checkbox"/>	<input type="checkbox"/>	on-site
Computerized Medical Records w/Searching Capabilities	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
Veterinary Library w/Literature Searching Capabilities	<input checked="" type="checkbox"/>	<input type="checkbox"/>	on-site
Intensive Care Facility – 24 hours	<input checked="" type="checkbox"/>	<input type="checkbox"/>	on-site

If any of the above equipment or facilities is available off-site, please explain how the resident can access them for case management, research, or study.

19. Clinical caseload information (this information should reflect the caseload of the prior 12 months)

Total SAIM caseload per year:

905, includes primary consults, rechecks and transfers from ECC

Number of endoscopic examinations (respiratory, GI) per year:

93, including PEG tube and foreign body retrievals
--

Number of endoscopic examinations (urinary) per year:

7

20. Didactic

Learning Opportunities and Research Requirements: In recognition of the importance of scientific discovery as a critical mission of the ACVIM, all Residency Training Programs shall include an assessment period or instruction and/or participation in creative scholarship which will foster an appreciation of, competency in, and contribution to the knowledge base of their respective specialty and which will support their development as clinician scientists. This requirement is fulfilled through satisfactory completion of A and one of B [See CM 9.F.4]:

a) Journal Club: Critical review of literature, minimum of eighty (80) hours during the program. Describe how this requirement is met or exceeded.

We have a weekly 1-hour journal club (set up as a course for credit) for which the residents select and present papers, usually 3, for discussion. Our oncology residents also are in the rotation of residents presenting. In a typical year we would have 40-45 weeks of journal club.

b) At least 12 weeks over the three-year residency must be allocated for research and scholarly activity ideally in the pursuit of a publication. Successful completion of any one of the options listed below will satisfy the requirements for research by SAIM residents. Describe how this will be fulfilled or exceeded in the individual trainee's specific application.

1. Successful completion of at least six hours of seminars or classes offered at the ACVIM Forum, as on-line courses, or at other facilities and recognized by the ACVIM and covering the following subjects: Critical evaluation of the veterinary medical/biomedical literature, Grant-writing or Study design, and participation in clinical trials
2. Documented (by a letter from the RA) submission of a grant proposal
3. Acceptance and presentation at a scientific meeting of an abstract (either oral or poster) of original work
4. Documented completion (by a letter from the RA) of a prospective research project pertinent to SAIM
5. Documented completion (by a letter from the RA) of a retrospective research project pertinent to SAIM
6. Documented completion (by a letter from the RA) of graduate coursework in biostatistics, research methods, and/or research ethics

Our residents are required to take a statistics class for fulfillment of departmental MS degree requirements. Each spring semester, the first year residents across the department are also expected to attend a grant-writing class (1 hour/week) in which the residents learn some of the basic elements of grant writing, and are required to write a grant for the participants to evaluate and critique. Most of these grants are submitted for consideration for in-house funding. As our residents are also required to do a research project, which may or may not be done with funding from a grant the resident submits (we have a mechanism, based on submission of a grant proposal, for funding resident research projects within the college), they could fulfill the larger requirement for this section either through journal club alone, or more likely for most of our residents, a combination of journal club, grant writing class and research activity.

21. Is the resident required to give one or more formal presentations at a conference or in an educational setting on a yearly basis? Please provide a description of the conferences, etc., that are provided and the typical schedule.

Yes	No
<input checked="" type="checkbox"/>	<input type="checkbox"/>

Describe: Our residents are required to give at least one seminar, and sometimes 2 depending on schedules, each year to other house officers and faculty. Large and small animal interns and residents give formal seminar presentations on a topic (research study, literature/topic review are the usual offerings) of their choosing with evaluations of the presentation performed by attending faculty and other house officers. Over the course of a 3-year residency, 5-6 such presentations are typically given.

22. How many major veterinary medical or medical meetings is each resident able to or expected to attend during his/her training program?

Program length	One	Two	> Two
3 years	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

23. Does the training program require a research project? Please indicate the number of research projects required.

Program Length	Yes	No	Optional	Number
3 years	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	1

24. Are one or more publications required as part of the training program?

Program length	Yes	No	Number
----------------	-----	----	--------

3 years	<input checked="" type="checkbox"/>	<input type="checkbox"/>	1
---------	-------------------------------------	--------------------------	---

25. Does each resident in your program meet at least twice yearly with their Resident Advisor to evaluate the resident's performance, review their progress in the program, and assess whether or not their training program is proceeding as described in this document with a dated written summary of this evaluation?

Yes	No
<input checked="" type="checkbox"/>	<input type="checkbox"/>

26. Please provide the structure of the training program to include (but not limited to): the length and number of clinical rotations per year; distribution of time allocated for research, writing, exam preparation, other scholarly activity, and vacation; and distribution of time allocated to out-rotations if this is a multi-site program.

Please refer to the CM (Section 9.F) for specific details. The following table is provided as an example.

NOTE: a detailed description defining the individual time requirements would be acceptable in addition to the table.

Example:

	Year 1 # Weeks	Year 2 # Weeks	Year 3 # Weeks	Total # Weeks	Training On Site or Off Site
Internal Medicine, Direct Diplomate Supervised (Diplomates listed in number 9), Minimum of 68 weeks					
Direct Supervision	34	28	26	88	On site
Additional Diplomate Supervised Rotations (Diplomates listed in number 8), Minimum of 16 weeks					
Emergency and Critical Care	2	2		4	On site
Cardiology	2	2	2	6	On site
Neurology	2	2		4	On site
Oncology	2	2	2	6	On site
Additional Direct or Indirectly Supervised Rotations					
Internal Medicine, Indirectly Supervised			8	8	On site
Additional Clinical Rotations: Please specify in comment section	2	2	2	6	On site
Electives*	1	1	1	3	Off site
Diagnostic Imaging					
Radiology		1		1	On site
Ultrasound	1			1	On site
Pathology					
Clinical Pathology		1		1	Off site
Anatomical Pathology					
Additional Rotations					
Research and Scholarly Activity	4	4	4	12	On site
Studying		4	4	8	
Meeting		1	1	2	On/Off site
Vacation	2	2	2	6	Off site
Total	52	52	52	156	
<i>* Electives can be 0-3 weeks. If unavailable, will default to directly supervised internal medicine</i>					

Please note that this table is for recording the number of weeks and/or hours that the resident will spend on the rotations/services for each year that will satisfy the CM requirements. The number for each year should add up to 52 weeks. It is understood that each resident's program will differ with regard to which year a given rotation is completed; the table should summarize the rotations in which residents in your program will participate. The CM specifies that the program outlined in this program renewal form becomes the requirements that a resident must fulfill to complete the training program. Please see CM section 4.F.2 "Once a program has been approved, even if its requirements exceed the minimum requirements as published in the CM, the requirements specified in the program description have become the official requirements for completion of the residency. Neither a candidate nor a Program

Director may retroactively petition for successful completion of a residency that has met the minimum requirements of the CM if they have left the program but have not completed all requirements of the previously approved program."

PLEASE CHECK YOUR MATH

	Year 1 # Weeks	Year 2 # Weeks	Year 3 # Weeks	Total # Weeks	Training On Site or Off Site
Internal Medicine, Direct Diplomate Supervised (Diplomates listed in number 7), Minimum of 68 weeks					
Direct Supervision	38	30	28	96	on site
Additional Diplomate Supervised Rotations (Diplomates listed in number 8), Minimum of 16 weeks [CM 9.F.2]					
Cardiology	2	2	2	6	on site
Oncology	2	2	2	6	on site
Neurology	2	2	2	6	on site
Critical Care					see below
Additional Direct or Indirectly Supervised Rotations					
Internal Medicine, Indirectly Supervised					
Additional Clinical Rotations: Please specify in comment section					
Electives*					
Diagnostic Imaging					
Radiology		2	2	4	on site
Ultrasound		2	2	4	on site
Pathology					
Clinical Pathology		2	2	4	on site
Anatomical Pathology	0	0	0	0	see below
Additional Rotations					
Scholarly Activity	5	3	5	13	on site
Studying	1	4	4	9	on site
Meeting		1	1	2	off site
Vacation	2	2	2	6	on/off site
Total	52	52	52	156	
* Electives can be 0-3 weeks. If unavailable, will default to directly supervised internal medicine					

NOTE: a detailed description defining the individual time requirements would be acceptable here in addition to the table:

Describe:

Within the structure of our program, there is some room for flexibility, usually in years 2 and 3, but sometimes in year 1, to spend more time on research (off clinics-scholarly activity) if the nature of the project is such that a bit of extra off-clinic time could be needed to develop and/or complete the project, but we will ensure the minimum of 12 weeks of scholarly activity is available to the resident. Additional time could be spent on other rotations or on electives (including outside rotations) depending on the interests of the resident. When that happens, fewer weeks would be spent on the internal medicine service, but our residents still exceed the minimum requirement of 68 weeks on small animal internal medicine as our residents typically spend around 30 weeks/year on internal medicine. If the resident's project does not require additional time off clinics, time can be spent in any of the rotations above that suit the needs and interests of the resident and that meet the needs of our medicine service, but again, our residents have always exceeded the minimum number of weeks on medicine, and it is expected that they will continue to do so.

While not a specific rotation, residents have ready access to our anatomic pathologists on the necropsy floor. SAIM residents frequently talk with pathologists (faculty and pathology residents) to clarify results of histopathology/necropsy and are also encouraged to sit down at the microscope with the pathologist/pathology resident to review biopsies.

While specific ECC rotations at WSU are not mandated, residents are allowed to take ECC rotations on site as electives; they regularly receive input on cases from Drs. Martin or Ngwenyama.

27. Is there any additional pertinent information that the Residency Training Committee should consider in its evaluation of this Training Program?

Yes	No
<input type="checkbox"/>	<input checked="" type="checkbox"/>

Describe:

Please note, any Program Director or Candidate that significantly changes or alters this Residency Training Program before completion must notify ACVIM, in writing, before the changes are made to ensure that the proposed changes are approved.

Significant changes could include, but are not limited to:

- transferring from one program to another
- alterations in program duration
- switching to a 'dual board' program
- enrolling in an institutional graduate program
- change of Program Director or Resident Advisor

As Program Director, I verify that the above information is an accurate reflection of this Residency Training Program.

Per the Certification Manual, each year, the Program Director must certify to the RTC/ RTCC and ACVIM, in writing, that they have read the ACVIM Certification Manual and understands their role in residency training.

Checking this box is an indication I have read the ACVIM Certification Manual and understand my role in Residency Training Program.
