LOGOS & USAGE | LOGO SUITE

**PRIMARY LOGO**
The ACVIM Forum logo in a vertical stacked format. This is the preferred use of the logo and should be used as much as possible. The “ACVIM” can be adjusted in size to fit into the design.

**SECONDARY LOGO**
The ACVIM Forum logo in a horizontal format. This should be used when the use of the primary logos are either not possible, or it is not aesthetically pleasing based on its relative position to surrounding visual elements.

**TERTIARY LOGO**
This version of the logo should be used when the design elements are broken out of the logo lockup and therefore the main focus of the layout, or in materials where extensive design elements are not needed. Color blocks must be extended to full layout if stretched at all.
RECOMMENDED USE FOR COLOR BACKGROUNDS
LOGOS & USAGE | TAGLINES

PRIMARY TAGLINE

The primary descriptor information should be used on all attendee conference materials. Other combinations of the conference color palette can be applied.

SECONDARY TAGLINE

The secondary tagline should be used on all exhibit and sponsorship conference materials. Other combinations of the conference color palette can be applied.
LOGOS & USAGE | SIZING & SPACING

LOGO MINIMUM SIZE

Use discretion when scaling the logo to ensure legibility, clarity, and consistency.
- The horizontal logo should not be used smaller than .25 inches or 30 pixels tall.
- The vertical logo should not be used smaller than .725 inches or 70 pixels tall.

LOGO CLEAR SPACE

The minimum clear space is found by using the height of the interior of the “A” in the 2021 ACVIM Forum logo. Be sure to err on the side of more white space so the logo has room to breathe.
LOGOS & USAGE | COLOR VARIATIONS

CMYK
This is the primary and preferred version of the logo for all printed processes (signage, print advertisements, promotional literature, etc.) that allow for full color.

RGB
This version should be used for all digital productions. This includes: powerpoint templates, web banners, all website graphics, etc.

GRAYSCALE
This version should be used on applications where a limited grayscale palette is available such as monochromatic advertising and B/W only forms.

ONE COLOR
This version is only used for reproductions that have a one color, solid palette. Examples of this could include etching or embossing. Avoid the horizontal box version with one color.
To ensure the consistency and professionalism of the conference identity, the 2021 ACVIM Forum logo must never be altered, improperly reproduced or used inappropriately. Below is a list of prohibited reproductions of the 2021 conference logo.

**Logos & Usage | Improper Usage**

- **DO NOT** change aspect ratio, stretch or squeeze the logo.
- **DO NOT** reproduce the logo using unauthorized colors.
- **DO NOT** separate the text from the box in the logo or add extra spacing between the year and ACVIM.
- **DO NOT** add gradients to any part of the logo.
- **DO NOT** outline the logo.
- **DO NOT** add unapproved text to the logo.
- **DO NOT** add shadows, strokes, glows, or other effects to the logo.
- **DO NOT** separate and use parts of the logo individually.
- **DO NOT** change the order of the box and text.

**See you at**
When the ACVIM Forum logo is used with other partner or sponsor logos they are separated by a solid line. The relationship between the logos should be carefully considered. The logos should occupy the same amount of space, being roughly the same size despite horizontal or vertical configurations. The partner’s logo can be smaller but must never be larger than the ACVIM logo.

The full color versions of both logos are preferred. If a partner logo only exists in black, the ACVIM Forum logo should still appear in full color if color reproduction is available.
The ACVIM Corporate logo is to be used on agreements and contracts, the Event Program Guide, Exhibit and Sponsorship Prospectus, and certain signage/branding.
