

**ALL POSTERS ARE PRESENTED ELECTRONICALLY.**

**GENERAL INFORMATION**

- Abstracts will be listed in the [ACVIM Forum Program](#).
- ePosters are provided digitally for conference attendees to access through a virtual gallery.
- ePosters provide viewers high-quality resolution of images and text. Like traditional posters, ePosters provide a concise snapshot of your work. But instead of a physical poster pinned to a board, ePosters are a single slide presentation which is viewed on a computer.
- ePosters add additional viewing options and extend the life cycle of the ePoster.
- ePosters will be uploaded to a secure website and available for viewing throughout the Live Virtual and On Demand meeting.
- There will be awards for best resident research presentations by eligible ACVIM Candidates. Winners will be announced and contacted by Friday, July 2 through email.

**ePOSTER REPARATION**

- Prepare your ePoster as an electronic facsimile replicating what a physical poster would look like.
- **No animations, video or audio are permitted.**
- You can prepare your ePoster using MS PowerPoint™. Your ePoster will be created on a single slide (ONE).
- **No required ePoster size or orientation, can be horizontal or vertical.** Many presenters like to create an ePoster that can scale as large as 4 feet high by 8 feet wide for printing to hang at their office.
- Prepare a label for the top of the ePoster indicating the title, the authors, and the institutional affiliation.
- You **MUST** include a Conflict of Interest Disclosure Statement. Refer to the Speaker Disclosure Slide from a Presentation Template found online in the [ACVIM Forum Speaker Resource Center](#) for a sample format to use.
- If you have nothing to disclose, please state this.
- You may also use the Conflict of Interest Disclosure Statement for acknowledgments, or prior presentation, if needed.
- A brief but clearly worded “Introduction” as well as “Summary and Conclusions” are key features for understanding the data presented.
- Text and legends for figures should be short, but **do not** omit them. Make sure to use **large**, clear, easy-to-read print for text and legends.
- The use of color adds emphasis and draws interest to the presentation; however, **limited** use of **green** and **red** is encouraged.

**UPLOAD**

- You will submit your ePoster electronically as a PDF into the Upload Center through your Poster Presenter Portal (**coming early May**).
- All submitted ePosters will be transferred to our online gallery for presentation.
- **Deadline: Late May.**
