

## **Knecht Resident Awards**

*In memory of Dr. Charles Knecht*

### **Award Information**

Up to three (3) awards, each valued at \$500, are available annually for ACVIM neurology and neurosurgery residents in training to assist with the expense of attending the ACVIM Forum. Residents must submit their research abstract through the official ACVIM Forum Call for Research Abstracts each January and be invited to present either an oral or poster presentation. Upon confirmation of selection to present, please submit your travel award application.

### **Criteria for Award**

- The resident must be in good standing in their ACVIM approved neurology resident program.
- The resident is presenting an abstract or poster at the ACVIM Forum.
- The quality of the resident's work and the impact of the study on veterinary neurology will be taken into consideration.
- Priority will be given to residents in the final year of their program.

### **Application Process**

The resident and mentor must write 400-500 words detailing the research they are presenting at the ACVIM Forum with respect to the work which was performed and how it was funded. Additionally, please include the abstract, as submitted through the ACVIM Call for Research Abstracts. Publication plans and the future continuance of the work should be included.

### **Timeline**

Applications are due each April. The submissions will be reviewed by the Neurology Nominations Committee and winners will be announced each May.
