(For Year 1, enter residency start date)

Resident: Oncology Resident Program Location: Best Oncology Training University

The intent of this weekly schedule is to document for the Oncology Credentials Committee (CC) that the resident is fulfilling the requirements outlined in the Certification Manual (CM) and allow the committee to identify potential short-falls before the final credentials packet is submitted. A copy of this schedule will also be submitted as part of the credentials packet. The weekly schedule for the prior year is to be submitted online by 11:59 pm MT on October 1st of each year and will then be forwarded to the committee. Questions should be directed to the Oncology CC.

This form should be completed for each year of the residency, and be signed by the Resident Advisor.

Please note one week is equal to 40 hours.

*All rotations must be completed in a minimum of 2-week blocks, with the exception of Clinical and Anatomic Pathology. Any other 1-week rotations must be accompanied by a letter from your Program Director that specifies the 1-week block was necessary and the date range. These variances are subject to approval by the CC.
