Acceptable Journals for Nutrition Credentials

In general, the manuscript should demonstrate the candidate's understanding of the scientific method and study design, including statistics, and a critical evaluation of the literature. Original research publications and retrospective studies are examples of acceptable publications. The topics of the publication must be relevant to the discipline of veterinary or animal nutrition, and the candidate must be first or sole author.

The publication must be in a refereed scientific, human or veterinary medical journal. A refereed journal is one that is governed by policies and procedures established and maintained by a standing advisory and/or editorial board which requires critical review of all papers and approval by at least one recognized authority on the subject. Due to variability in editorial quality and process, all journals must be approved by the Credentials Committee prior to and separate from assessment of manuscript acceptability. The Acceptable Journal List is reviewed and updated annually, as warranted based on changes in journal availability, editorial process, editorial board and quality of review. The journals listed will be accepted for the following Credentials Application due date: October 1, 2025 (11:59pm MT).

The following journals have been found acceptable for candidate publications and meet the refereed journal requirement part of the credentialing review.

- 1. Advances in Nutrition
- 2. American Journal of Animal and Veterinary Sciences
- 3. American Journal of Veterinary Research
- 4. Animal Genetics
- 5. Antimicrobial Agents and Chemotherapy
- 6. Australian Veterinary Journal
- 7. BMC (BioMed Central) Veterinary Research
- 8. British Journal of Nutrition
- 9. Canadian Journal of Animal Science
- 10. Canadian Journal of Veterinary Research
- 11. Canadian Veterinary Journal
- 12. Comparative Exercise Physiology
- 13. Current Developments in Nutrition
- 14. Domestic Animal Endocrinology
- 15. Equine Veterinary Journal
- 16. Frontiers in Veterinary Science
- 17. Journal of Animal Physiology and Animal Nutrition (JAPAN)
- 18. Journal of Animal Science
- 19. Journal of Applied Microbiology
- 20. Journal of Applied Physiology (American, European or Canadian)
- 21. Journal of Avian Medicine and Surgery

- 22. Journal of Comparative Pathology
- 23. Journal of Comparative Physiology
- 24. Journal of Dairy Science
- 25. Journal of Parenteral and Enteral Nutrition
- 26. Journal of Exotic Pet Medicine
- 27. Journal of Feline Medicine and Surgery
- 28. Journal of Nutrition
- 29. Journal of Nutritional Science
- 30. Journal of Small Animal Practice
- 31. Journal of Swine Health and Production
- 32. Journal of the American Animal Hospital Association
- 33. Journal of the American Veterinary Medical Association
- 34. Journal of Veterinary Dentistry
- 35. Journal of Veterinary Diagnostic Investigation
- 36. Journal of Veterinary Emergency and Critical Care
- 37. Journal of Veterinary Internal Medicine
- 38. Journal of Veterinary Medicine
- 39. Journal of Veterinary Pharmacology and Therapeutics
- 40. Journal of Veterinary Radiology & Ultrasound
- 41. Journal of Veterinary Therapeutics
- 42. Journal of Zoo and Wildlife Medicine
- 43. Veterinary Microbiology
- 44. New Zealand Veterinary Journal
- 45. Peer J (Veterinary Medicine)
- 46. PLOS (Public Library of Science) ONE or Biology
- 47. Preventive Veterinary Medicine
- 48. Research in Veterinary Science
- 49. The American Journal of Clinical Nutrition
- 50. The Veterinary Journal Published by Elsevier
- 51. The Veterinary Record: Journal of the British Veterinary Association
- 52. Topics in Companion Animal Medicine
- 53. Veterinary and Comparative Oncology
- 54. Veterinary and Comparative Orthopaedics and Traumatology
- 55. Veterinary Clinical Pathology
- 56. Veterinary Dermatology
- 57. Veterinary Immunology and Immunopathology
- 58. Veterinary Medicine and Science
- 59. Veterinary Microbiology
- 60. Veterinary Ophthalmology
- 61. Veterinary Pathology
- 62. Veterinary Radiology and Ultrasound
- 63. Veterinary Surgery

If you want to have your manuscript published in a journal not on the approved list but accepted as part of your Credentials Application, you are required to submit the following information to the Credentials Committee through the staff liaison 12 weeks in advance of the Credentials Application due date according to Nutrition Specialty Manual section 8.

The information to be provided in a petition letter to the Credentials Committee in order to assess a journal's suitability are the following:

- 1. A list of the Journal's Advisory Board Members with a short biography of or contact information for at least three (3) individuals who are recognized authorities in veterinary or animal nutrition and who have reviewed manuscripts for that journal in the past year.
- 2. A list of Editors appropriate for your subject, i.e., veterinary medicine or animal nutrition
- 3. A description of the journal's scope
- 4. A description of the journal's Peer Review Process
- 5. A copy of the Instructions to the Authors

We are looking at the credentials of the Board Members and Scientific Editors to document their advanced training and experience in scientific writing, e.g., Ph.D., veterinary degrees, advanced specialization, leaders in their field of study, and extensive publication backgrounds. We are looking at the stated scope of the journal to match your manuscript subject and intended audience. We review the peer review process and author instructions for their publication criteria and statements of ethical behaviors, i.e., guidelines on experimentation and publication. A good example is PLOS One 'About' page: http://journals.plos.org/plosone/s/journal-information
